I don't think Meridian should be allowed to build another facility in our surrounding area, until they have made vast improvements in the other places they own. The Currituck House in Moyock Nc has a 1.8 star and 1 star with 33.5 demerits. There is a 53 page report to substantiate this. The administration has no business being in the job she holds. I have had 1 st hand experience with this place and it is no place for the ones who can not defend or speak for themselves. Please do not let them build another facility until the clean up that one. Clean up should start with new administration and new RCC.
