Project Description: Design and installation of fire suppression systems in the Duke South Clinic Complex
County: Durham

Dear Ms. Cumber:

The Healthcare Planning and Certificate of Need Section, Division of Health Service Regulation (Agency), determined that based on your letter of August 28, 2017 the above referenced proposal is exempt from certificate of need review in accordance with N.C. Gen. Stat. §131E-184(a)(4). Therefore, you may proceed to offer, develop or establish the above referenced project without a certificate of need.

However, you need to contact the Agency's Construction and Acute and Home Care Licensure and Certification Sections to determine if they have any requirements for development of the proposed project.

It should be noted that this determination is binding only for the facts represented by you. Consequently, if changes are made in the project or in the facts provided in your correspondence referenced above, a new determination as to whether a certificate of need is required would need to be made by the Agency. Changes in a project include, but are not limited to: (1) increases in the capital cost; (2) acquisition of medical equipment not included in the original cost estimate; (3) modifications in the design of the project; (4) change in location; and (5) any increase in the number of square feet to be constructed.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

Bernetta Thorne-Williams
Project Analyst

Re: Exemption Notice/Duke University Hospital

Dear Ms. Frisone:

The purpose of this letter is to provide written notice of planned renovation activities on the Duke University Hospital main campus that will cost more than \$2 million, namely the design and installation of fire suppression systems in the Duke South Clinic Complex.

We believe that this project is exempt from certificate of need review pursuant to N.C.G.S. Section 131E-184 as a project "to provide parking, heating or cooling systems, elevators, or other basic plant or mechanical improvements" and/or "to eliminate or prevent imminent safety hazards as defined in federal, State, or local fire, building or life safety codes or regulations." No other new institutional health services will be included in this project.

Thank you for your attention to this request. If you have questions about this information, please let me know.

Very truly yours,

Catharine W. Cummer
