Exempt from Review – Replacement Equipment

Record #: 2443
Facility Name: Wayne Memorial Hospital
FID #: 933535
Business Name: Wayne UNC Health Care
Business #: 2734
Project Description: Temporarily replace cardiac catheterization equipment with existing angiography equipment until cardiac catheterization equipment is repaired
County: Wayne

Dear Ms. Harkey:

The Healthcare Planning and Certificate of Need Section, Division of Health Service Regulation (Agency), determined that based on your correspondence of November 21, 2017, the above referenced proposal is exempt from certificate of need review in accordance with N.C. Gen. Stat. §131E-184(a)(7). Therefore, you may proceed to temporarily replace without a certificate of need the existing fixed cardiac catheterization equipment with the existing angiography equipment until the cardiac catheterization equipment is repaired.

Moreover, you need to contact the Agency’s Acute and Home Care Licensure and Certification Section to determine if they have any requirements for development of the proposed project.

It should be noted that the Agency's position is based solely on the facts represented by you and that any change in facts as represented would require further consideration by this office and a separate determination. If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

Jane Rhoe-Jones

Subject: [External] Cardiac Cath Lab

Importance: High

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

Dear Jane,

Our cardiac cath lab is “down” again. I would like to formally request approval for an exception in the use of our State Approved angiography suite and equipment for cardiac cath procedures today.

BACKGROUND

1. Wayne Memorial (WMH) was “grandfathered” into having a cardiac cath lab sometime in the late 1980”s. This cath lab appears on our annual Hospital Licensure application.
2. In 2014, Wayne Memorial was granted a CON for an angiography suite with the condition that this suite may not be used to provide cardiac catheterization services.

SITUATION

1. We have a patient with a radial artery line in place for the cardiac cath by Dr Schneider and two more patients scheduled for procedures today.

REQUEST

Dr. Joel Schneider and Wayne Memorial Hospital are requesting to perform these procedures in the State designated Angiography Suite. We would like to finish these scheduled procedures.

Thank you so very much for your consideration.

I am in the process of writing for permanent permission to “switch” the designation for cath lab with the angiography suite so that we can have the newest equipment available for our procedures. You will probably receive that document in December.

Respectfully,
Shirley Harkey
