Exempt from Review

Record #: 3224
Facility Name: Carolinas Medical Center
FID #: 943070
Business Name: The Charlotte-Mecklenburg Hospital Authority
Business #: 1770
Project Description: Renovate existing space and replace air handling equipment on 7th floor
County: Mecklenburg

Dear Ms. Kirkman:

The Healthcare Planning and Certificate of Need Section, Division of Health Service Regulation (Agency), determined that based on your letter of February 13, 2020, the above referenced proposal is exempt from certificate of need review in accordance with N.C. Gen. Stat. §131E-184(g). Therefore, you may proceed to offer, develop, or establish the above referenced project without a certificate of need.

However, you need to contact the Agency's Construction and Acute and Home Care Licensure and Certification Sections to determine if they have any requirements for development of the proposed project.

It should be noted that this determination is binding only for the facts represented by you. Consequently, if changes are made in the project or in the facts provided in your correspondence referenced above, a new determination as to whether a certificate of need is required would need to be made by the Agency. Changes in a project include, but are not limited to: (1) increases in the capital cost; (2) acquisition of medical equipment not included in the original cost estimate; (3) modifications in the design of the project; (4) change in location; and (5) any increase in the number of square feet to be constructed.

If you have any questions concerning this matter, please feel free to contact this office.

Sincerely,

**RE: Exemption Request for The Charlotte-Mecklenburg Hospital Authority d/b/a Carolinas Medical Center (CMC) to Renovate Space and Replace Air Handling Equipment on the 7<sup>th</sup> Floor of Levine Children's Hospital on CMC's Main Campus**

Dear Ms. Frisone:

I am writing to inform you of The Charlotte-Mecklenburg Hospital Authority d/b/a Carolinas Medical Center's plan to renovate space and replace air handling equipment on the 7<sup>th</sup> floor of Levine Children's Hospital on CMC's main campus.

Pursuant to N.C.G.S. 131E-184(g), "[t]he Department shall exempt from certificate of need review any capital expenditure that exceeds the two million dollar (\$2,000,000) threshold set forth in G.S. 131E-176(16)b. if any of the following conditions are met:

- (1) *The sole purpose of the capital expenditure is to renovate, replace on the same site, or expand the entirety or a portion of an existing health service facility that is located on the main campus.*
- (2) *The capital expenditure does not result in (i) a change in bed capacity as defined in G.S. 131E-176(5) or (ii) the addition of a health service facility or any other new institutional health service facility or any other new institutional health service other than that allowed in G.S. 131E-176(16)b.*
- (3) *The licensed health service facility proposing to incur the capital expenditure shall provide written notice to the Department along with support documentation to demonstrate that it meets the exemption criteria of this subsection."*

N.C.G.S. 131E-176(14n) states "'Main campus' means all of the following for the purposes of G.S. 131E-184(f) and (g) only:

- a. *The site of the main building from which a licensed health service facility provides clinical patient services and exercises financial and administrative control over the entire facility, including the buildings and grounds adjacent to that main building.*
- b. *Other areas and structures that are not strictly contiguous to the main building but are located within 250 yards of the main building."*

CMC's renovation and air handling equipment replacement project on the 7<sup>th</sup> floor of Levine Children's Hospital meets each of the applicable conditions set forth above. The estimated total capital cost of the project exceeds \$2,000,000 (see Attachment A for the capital cost worksheet). The proposed project involves the renovation of an existing health service facility located at 1000 Blythe Boulevard, Charlotte, NC 28203, which is the site from which Carolinas Medical Center

provides clinical patient services and exercises financial and administrative control over the entire facility (see Attachment B). Carolinas Medical Center's Facility Executive's office is located on the second floor of the main hospital building. Please see a copy of Carolinas Medical Center's license in Attachment C.

The project consists of renovation only and does not involve a change in bed capacity as defined in G.S. 131E-176(5) or the addition of a health service facility or a new institutional health service. The project will not increase the number of operating rooms or gastrointestinal rooms. The project will not result in the acquisition of major medical equipment or the offering of health services not currently provided.

The proposed project involves renovation of patient rooms and non-clinical support space located in or adjacent to the A-wing on the 7<sup>th</sup> floor of Levine Children's Hospital ("7A"). 7A currently has six licensed acute care beds and eight observation beds. The number of licensed acute care beds will not change as a result of the proposed project.

As part of this project, the patient rooms and non-clinical support areas will undergo aesthetic upgrades, including wall painting and installation of new flooring, millwork and other finishings. Additionally, the bathrooms in the existing patient rooms will be renovated and brought up to code, which involves removing existing bathtubs and replacing them with showers. The proposed project also involves replacement of the existing air handling equipment that serves 7A and adjacent areas. The existing equipment is an antiquated dual-duct system that is at the end of its useful life and is at risk for service interruptions. As part of this project, the existing ceiling tiles in the areas served by the air handling equipment, which includes patient rooms as well as non-clinical support spaces, will be removed and replaced, and a more efficient single-duct air handling system will be installed.

#### Summary

Based on the above facts, the project is exempt from certificate of need review. We are requesting that you confirm in writing that Carolinas Medical Center's project to renovate and replace air handling equipment on the 7<sup>th</sup> floor of Levine Children's Hospital is exempt from certificate of need review and that we may proceed as planned with this project.

Sincerely,

Elizabeth Kirkman  
Assistant Vice President  
Atrium Health Strategic Services Group

cc: Callie Dobbins, Vice President & Facility Executive, Levine Children's Hospital

 DATE

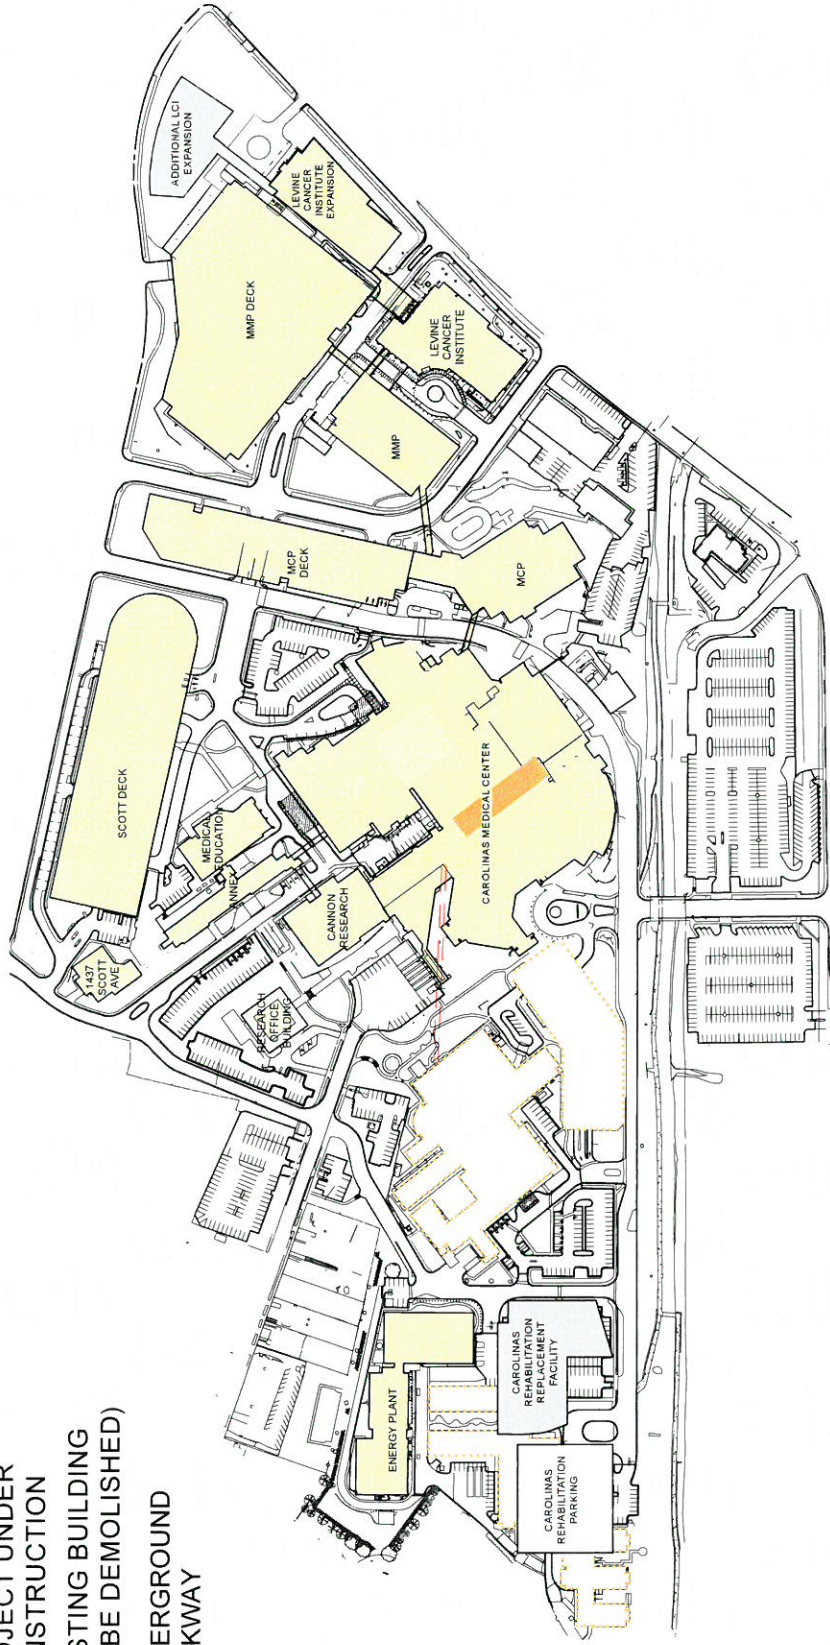

Sales taxes have been included in these equipment costs. However, because Atrium Health is entitled to a sales tax refund under N.C. Gen. Stat. § 105-164.14(b) and 105-467, the sales tax that Atrium Health initially incurs for this medical equipment purchase will be refunded to Atrium Health, and thus will reduce the capital costs that Atrium Health actually incurs for the equipment by \$ N/A.
