Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

F 157	<p>Continued From page 1</p> <p>increased confusion and pain for 1 of 4 sampled residents with a change in condition. (Resident #12)</p> <p>The findings included:</p> <p>Resident #12 was admitted to the facility on 03/26/15 with diagnoses of osteomyelitis (infection in bone) with infected spinal hardware, lung disease, kidney failure, heart disease, high blood pressure, diabetes, anemia, depression and delirium. A review of the admission Minimum Data Set (MDS) dated 04/14/15 indicated Resident #12 was moderately impaired in cognition for daily decision making and required extensive assistance by staff for activities of daily living.</p> <p>A review of admission physician's orders dated 03/26/15 revealed in part:</p> <p>Neurontin 100 milligrams (mg) by mouth three times a day for infection and inflammation of spinal hardware.</p> <p>Rocephin 2 grams intravenously daily for infection and inflammation.</p> <p>Amoxicillin 125 mg by mouth twice daily for infection and inflammation.</p> <p>Seroquel 25 mg by mouth daily at bedtime for delirium.</p> <p>Prozac 20 mg by mouth daily for depression.</p> <p>Oxygen 2 liters by nasal cannula as needed to keep oxygen saturation greater than 92 percent.</p> <p>A review of a Nurse Practitioner progress note dated 03/27/15 indicated Resident #12 was a new admission with post-operative pain and had a large back dressing with a wound vac. The notes also indicated Resident #12 was up all night with pain and anxiety and her past medical history</p>	F 157	<p>the truth of facts alleged or the conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by the provisions of the federal and state law. This plan of correction is submitted as the facility's credible allegations of compliance.</p> <p>CRITERIA 1: Resident #12 is no longer a resident in the facility as of April 24, 2015.</p> <p>CRITERIA 2: There will be a 100% audit of all residents charts for changes of condition, timeliness of notification to Medical Director completed by June 1, 2015. For those residents identified as having a change of condition the medical director will be notified.</p> <p>CRITERIA 3: The Director of Nursing/Director of Clinical Services will in-service 100% of all licensed nursing staff on notification of change of condition to medical director in a timely manner. The in-service will be completed by June 1, 2015. The 24 hour report will be reviewed during clinical startup daily. Director of Nursing/Designee will review 10 resident charts during clinical meeting daily for 4 weeks, then 10 charts monthly thereafter until no longer deemed necessary by the QAPI committee.</p> <p>CRITERIA 4: Results of the monitoring will be brought to the QAPI committee monthly for three months to ensure quality care and compliance. Audits will continue until the</p>

The notes indicated Resident #12 had a bed and chair alarm and a fall mat in place.</p> <p>A review of a facility document titled Post Fall Analysis/Plan dated 04/23/15 at 2:45 AM documented by Nurse #6 indicated possible cause and contributing factors and observations were Resident #12 had a change in mental status with increased confusion and impaired safety awareness and judgment.</p> <p>A review of nurse's notes dated 04/23/15 at 6:17 AM documented by Nurse #6 indicated Resident #12 was verbally responsive with noted confusion. The notes further indicated Resident #12 kept throwing herself out of bed last night but had no apparent injury and neurological checks were in place.</p> <p>During an interview on 05/01/15 at 7:02 AM with Nurse #6 she confirmed she provided care to Resident #12 during the 11:00 PM to 7:00 AM shift of 04/23/15. She explained Resident #12 had back pain and cried out. She stated Resident #12 had some confusion when she was admitted to the facility but it had increased during the last 2-3 days before she went to the physician's office. She explained she thought Resident #12 had a urinary tract infection and that was the reason for her increased confusion but the results of a urinalysis and culture and sensitivity had not been received from the laboratory. She stated it was reported to her that during the night of 04/23/15 Resident #12 was screaming out about things that weren't there and was hallucinating and confirmed Resident #12 had not had hallucinations before but that night was different and she was very confused. She</p>	F 157

F 157	<p>Continued From page 7</p> <p>remembered the resident was confused. She stated she was told in the shift report by Nurse #6 that Resident #12 had a fall during the night around 2:00 AM. She explained Resident #12 was at risk for falls because she was confused and she was strong enough to roll herself out of bed. She further explained there were mats on the floor next to her bed but she did not have side rails to stop her from rolling out of bed. She stated Resident #12 would state "help me, help me" and she seemed to be agitated. She further stated she explained to Resident #12 it was the 3:00 PM to 11:00 PM shift but she didn't understand it and she had no clue of who or what was going on or where she was. She explained that was the only time she provided care to Resident #12. She stated during the shift Resident #12 screamed really loud and she went to her room and took a NA with her and they calmed her and later she went to sleep for a while. She described Resident #12's screaming was more like she was scared because she was not sure where she was and it was worse when she was alone in her room. She stated she did not remember if she checked vital signs or documented assessment information and confirmed she did not call the Physician or Nurse Practitioner.</p> <p>A review of nurse's notes dated 04/24/15 at 7:35 AM documented by Nurse #8 indicated Resident #12 was alert with periods of confusion after her fall.</p> <p>During a telephone interview on 05/05/15 at 5:30 PM with Nurse #8 she stated she was assigned to care for Resident #12 during the 11:00 PM to 7:00 AM shift. F 157	Continued From page 10 #12 was sent to the hospital emergency room due to unresponsiveness. During a telephone interview on 05/01/15 at 1:14 PM the Infectious Disease Physician stated he had been told by one of his physician partners that Resident #12 had died in the hospital on 05/01/15 at 2:02 AM. He explained her admitting diagnosis at the hospital on 04/24/15 was sepsis (a life threatening complication of infection) and she had respiratory failure. He further explained he had seen Resident #12 about a month ago during a previous hospital admission because she had infected hardware due to back surgery and she was alert at that time. He confirmed he saw Resident #12 when she came to his office on 04/24/15 and she was minimally awake but was not responsive and she was receiving oxygen but her saturation percentage was 88% and her blood pressure was low at 94/62, pulse 64, respirations 26 and her temperature was 97.6 F. He explained he talked to emergency medical transport and they said when they picked the resident up she was on oxygen at 2 liters per minute but they had to increase her oxygen because her oxygen saturation percentage was in the low to mid 80's and she was minimally responsive. He stated he took a quick look at Resident #12 and told emergency medical transport personnel to take her to the hospital emergency room. He explained after Resident #12 left the office he had his staff call the facility and they were told Resident #12 was a little confused when she left the facility. He stated he received no notes from the facility and had no indication of what had happened with Resident #12. He further stated the last time he saw Resident #12 about a month ago she was alert and awake. He confirmed his office was just	F 157

F 157	<p>Continued From page 11</p> <p>down the street from the facility so Resident #12's transport would have only taken minutes.</p> <p>During an interview on 05/06/15 at 9:30 AM the facility Medical Director stated he only saw Resident #12 once on 03/31/15 but his Nurse Practitioner saw her routinely and kept him informed of Resident #12's condition. He explained Resident #12's biggest problem was infected hardware in her back but she also had a lot of medical conditions and was getting intravenous antibiotics and was followed by an Infectious Disease Specialist who managed the infected hardware in her back. He stated the Nurse Practitioner had questions about the antibiotics and did not want to make decisions about them on her own so she called the Infectious Disease Physician for his recommendations and he wanted to see Resident #12 at his office on 04/24/15. He explained it was his expectation for nursing staff to assess residents who had a change in condition and call the physician. He stated a Physician or Nurse Practitioner was available by phone or pager 24 hours a day and there was no excuse for them not being notified. He stated he was not aware of Resident #12's increased confusion and pain and nursing staff should have called them regarding Resident #12's pain since pain medication had already been given on 04/24/15 and Ativan was not indicated for pain. He further stated he couldn't speak to whether Resident #12's outcome would have been different but he expected staff should have called to discuss pain, medications and assessment of the resident because the chances of recovery were better the sooner he was notified.</p> <p>During an interview on 05/06/15 at 10:43 AM the</p>	F 157

F 157	Continued From page 12 Nurse Practitioner stated she was not aware of Resident #12's increased confusion and pain and she expected that nursing staff should have called her to explain Resident #12 had pain medication at 6:00 AM on 04/24/15 but was screaming in pain and she would have given orders for pain medication. She further stated pain medication could have been given since it had been about 3 hours since her last dose. She explained she was not aware of Resident #12's fall out of bed on 04/23/15 at 2:00 AM. She stated there was a communication book at the nurse's station where nursing staff documented concerns to the physician and she did not see any documentation about the fall. During an interview on 05/05/15 at 5:15 PM the Director of Nursing stated it was important for nursing staff to be timely in contacting the physician and responsible party and they should be proactive with a resident who had a change in condition. She further stated it was her expectation as soon as staff noticed a change in condition or were told of a change in condition they needed to act immediately. She also stated she expected nursing staff to assess residents for pain and if their pain was not relieved by medication or they did not have an order for pain medication, the physician should be called for orders. F 246	Continued From page 23 sheet called the Care Card and confirmed under special needs was written communication board for Resident #80. During an interview on 05/05/15 at 12:44 PM with Director of Rehabilitation Services she revealed Resident #80 was supposed to have a communication board with pictures. She stated the staff and the resident had been instructed on how to use the communication board and it was created by speech therapy and it was care planned and put on the Care Cards. She stated she expected staff to read the Care Card and do what the Care Card stated and the care plan and the Care Card are put in place so the staff will know how to take care of the residents. During an interview on 05/06/15 at 12:47 PM with the Director of Nursing she revealed her expectations were for staff to use a communication board for residents who were identified as requiring the use of a communication tool. She stated speech therapy would make a communication board for the residents and the need for the communication board would be placed on the care plan and on the Care Cards. She explained she expected her staff to read the care plan and the Care Cards and follow the plan of care for that resident.	F 246

F 253	Continued From page 34 An interview was conducted on 05/01/15 at 9:40 AM with the maintenance director and he explained that staff and residents report maintenance problems to him directly or it is entered in the system at the nursing station. The maintenance director explained he reviewed the repairs entered in the computer system daily and prioritized the work request and life safety issues first. He further stated, there was a definitive plan in place to replace furniture and cosmetics of the facility. He stated it was his expectation that residents were provided an environment that was safe and he expected to be notified of any needed repairs. An interview was conducted with administrator on 05/05/15 at 5:15 PM, he stated orders were made for furniture in December 2014, but the furniture was no longer on order and there was not a current order for furniture. During the interview, he stated the expectation was for maintenance to keep all equipment in functional condition at all times.	F 253	inspect rooms for maintenance issues that might have not been reported. Administrator will initially begin with weekly rounds for the first three months, completing the first set of round by June 4, 2015, then every other week rounds until the sixth month, and then monthly facility checks after six months of monitoring. Monthly facility checks will continue until deemed no longer necessary by the QAPI Committee.		
F 272 SS=E	483.20(b)(1) COMPREHENSIVE ASSESSMENTS The facility must conduct initially and periodically a comprehensive, accurate, standardized reproducible assessment of each resident's functional capacity. A facility must make a comprehensive assessment of a resident's needs, using the resident assessment instrument (RAI) specified by the State. The assessment must include at least the following: Identification and demographic information;	F 272		6/4/15

F 309	Continued From page 54 A review of a facility procedure titled "Condition Change of the Resident (Observing, Recording and Reporting)" with an effective date of 01/08/15 indicated the procedure and purpose was to observe, record and report any condition change to the attending physician so proper treatment would be implemented. The procedure indicated in part to assess the resident's need for immediate care and compare the resident's current condition to his or her prior level of function. A facility document titled "Pain Assessment and Management" with an effective date of 02/09/15 indicated it is the policy to promptly assess resident pain levels and to provide relief of symptoms whenever feasible, using a resident-centered and interdisciplinary approach. The procedure further indicated in part residents will be assessed for pain utilizing standardized pain scales and evaluations as needed based on their exhibiting symptoms of pain or upon report of new onset of pain. A review of a facility document titled "Pain Management Guideline" with an effective date of 02/10/15 indicated a statement to provide guidance for consistent assessment, management and documentation of pain in order to provide maximum comfort and enhanced quality of life, in concert with the resident's plan of care and goals for pain management. The guidelines indicated in part to recognize and report pain as the fifth vital sign, assess pain and evaluate response to pain management interventions using a pain management scale based on resident self-report or objective assessment for the cognitively impaired and	F 309	There will be a 100% pain assessment audit on all residents by the Director of Nursing and/or her designee completed on May 7, 2015. For those residents identified as having pain, interventions will be implemented. Pain Assessments will be completed upon admission, readmissions and changes of condition. CRITERIA 3: The Director of Nursing and/or Director of Clinical Education will in-service 100% of all licensed nursing staff on pain assessment and management, Change of Condition, timeliness of notification to physician/nurse practitioner by May 29, 2015. Director of Nursing/Designee will randomly audit 20 residents charts weekly for four weeks, then monthly for thereafter. CRITERIA 4: Results of the monitoring will be brought to the QAPI committee monthly to ensure quality care and compliance. Audits will continue until QAPI committee deems it no longer necessary.

F 309	Continued From page 60 A review of a facility document titled Neurological Assessment dated 04/23/15 from 3:00 AM until 4:00 AM indicated Resident #12's vital signs were documented every 30 minutes. The notes revealed Resident #12's blood pressure ranged from 134/70 - 132/77, pulse 71-70 and respirations 18. A section labeled Consciousness indicated Resident #12 was disoriented and restless and a section labeled Response to Pain was blank. A review of a facility document titled Neurological Assessment dated 04/23/15 from 4:00 AM until 9:00 AM indicated Resident #12's vital signs were documented every 1 hour. The notes revealed Resident #12's blood pressure ranged from 138/69 - 136/81, pulse 68-69 and respirations 18-19. A section labeled Consciousness indicated Resident #12 was disoriented and restless and a section labeled Response to Pain was blank. During an interview on 05/01/15 at 6:42 AM with Nurse Aide (NA) #8 she explained she provided care to Resident #12 on 04/23/15 during the 11:00 PM to 7:00 AM shift. She stated Resident #12 rolled off her bed around 2:00 AM onto the mat on the floor next to her bed and it took 3 staff to lift her back into bed. She further stated Resident #12 screamed in pain when they lifted her back to bed. She explained Resident #12 was up all night and when she made rounds she seemed confused and was very pale. She stated she got Nurse #6 and another NA to go with her into Resident #12's room because she was babbling to herself and that was different than any of the other nights when she had taken care of her. F 309	<p>Continued From page 61</p> <p>A review of nurse's notes dated 04/23/15 at 6:17 AM documented by Nurse #6 indicated Resident #12 was verbally responsive with noted confusion. The notes further indicated Resident #12 kept throwing herself out of bed last night but had no apparent injury and neurological checks were in place.</p> <p>A review of a MAR dated 04/23/15 indicated there was no pain medication given from 12:00 AM to 7:00 AM and there was no documentation of Resident #12's pain levels or pain assessments.</p> <p>During an interview on 05/01/15 at 7:02 AM with Nurse #6 she confirmed she provided care to Resident #12 during the 11:00 PM to 7:00 AM shift of 04/23/15. She explained Resident #12 had back pain and would cry out. She stated Resident #12 had some confusion when she was admitted to the facility but it had increased during the last 2-3 days before she went to the physician's office. She explained she thought Resident #12 had a urinary tract infection and that was the reason for her increased confusion but the results of a urinalysis and culture had not been received from the laboratory. She stated it was reported to her that during the night of 04/23/15 Resident #12 was screaming out about things that weren't there and was hallucinating but she didn't see Resident #12 hallucinating or assess her for hallucinations. She confirmed Resident #12 had not had hallucinations before and that night was different and she was very confused. She explained at 2:00 AM Resident #12 attempted to get out of bed and threw herself onto the floor. She further explained Resident #12 had not attempted to get out of bed before that night. She stated Resident #12 could say if</p>	F 309

F 309	<p>Continued From page 64</p> <p>stated she was told in the shift report by Nurse #6 that Resident #12 had a fall during the night around 2:00 AM. She explained Resident #12 was at risk for falls because she was confused and she was strong enough to roll herself out of bed. She further explained there were mats on the floor next to her bed but she did not have side rails to stop her from rolling out of bed. She stated Resident #12 would state "help me, help me" and she seemed to be agitated. She explained Resident #12 was confused and thought Nurse #7 was her daughter and had her days and nights mixed up. She stated she explained to Resident #12 it was the 3:00 PM to 11:00 PM shift but she didn't understand it and she had no clue of who or what was going on or where she was. She explained that was the only time she provided care to Resident #12. She stated during the shift Resident #12 screamed really loud and she went to her room and took a NA with her and they calmed her and later she went to sleep for a while. She described Resident #12's screaming was more like she was scared because she was not sure where she was and it was worse when she was alone in her room. She stated she did not remember if she checked vital signs or documented assessment information but she would have recorded that information in her notes if she had checked them.</p> <p>A review of a facility document titled Neurological Assessment dated 04/23/15 at 8:00 PM indicated Resident #12's vital signs were blood pressure 121/70, pulse 76 and respiration 18. F 309	Continued From page 66 A review of nurse's notes dated 04/24/15 at 8:59 AM documented by Nurse #9 indicated Resident #12 was in a lot of pain in her back. The notes further indicated Resident #12 was screaming out "it hurts, my back" and Ativan was given due to resident screaming out in pain and she had a doctor's appointment at 10 AM. A review of a MAR dated 04/24/15 at 8:59 AM indicated Nurse #9 gave Resident #12 Ativan 0.5 mg by mouth because of back pain and documentation revealed it was unknown if the medication was effective or ineffective. A review of nurse's notes dated 04/24/15 at 10:03 AM documented by Nurse #9 indicated Resident #12 was out for an appointment at 10 AM to an Infectious Disease Physician. The notes further indicated oxygen was on at 2 liters per minute by nasal cannula provided by non-emergent medics and Resident #12 was alert but appeared intermittently confused and there were no vital signs documented. During a telephone call on 05/05/15 at 8:59 AM with Nurse #9 she confirmed she was assigned to care for Resident #12 on the 7:00 AM to 3:00 PM shift on 04/24/15. She explained when staff moved Resident #12 she cried out in pain and she confirmed she gave Ativan to Resident #12 that morning because her orders for pain medication had been changed. She stated the pain medication was changed to scheduled medication times and she had already received it earlier that morning at 6:00 AM and she couldn't give it to her until the next dose was scheduled to be given. She further stated Resident #12 did not have an order for pain medication that could be	F 309

F 309	<p>Continued From page 69</p> <p>doctor's appointment on 04/24/15 they had to feed her and she needed total help. She explained Resident #12 complained of bad pain in her back and she reported it to the nurse.</p> <p>During an interview on 05/07/15 at 11:36 AM with a Physical Therapist she explained Resident #12 received physical and occupational therapy 5 days a week. She stated when Resident #12 was first admitted to the facility she was cooperative with therapy. She further stated Resident #12 had pain but she would get out of bed and go to the therapy gym for her therapy but she started deteriorating regarding her strength and transfers and would scream out when moved. She explained therapy staff talked to the nurse and Nurse Practitioner and she was started on pain medications routinely and Resident #12 was to have pain medication before her therapy sessions. She further explained on 04/24/15 they were told Resident #12 had an appointment so they did therapy while she was in bed but Resident #12 looked different that morning and she kept her eyes closed and was not talking and her mood was different and she reported it to the nurse.</p> <p>During an interview on 05/01/15 at 10:22 AM the Nurse Practitioner explained Resident #12 was a very complicated case because she had an infection from spinal surgery and was on intravenous antibiotics and had surgical wounds on her back. She stated Resident #12's hospital discharge records indicated she had delirium but she wondered if there was an underlying psychiatric diagnosis so she ordered a psychiatric consult. She explained when she talked to Resident #12 she could respond with yes or no answers but could not verbalize what was wrong.</p>	F 309

F 309	<p>Continued From page 70</p> <p>She further explained she had questions about the intravenous antibiotics because she could not tell from hospital records how long it they were to be continued so she called the Infectious Disease Physician. She stated when she called the office she was told Resident #12 needed to have an appointment scheduled so that's why she went out to the office on 04/24/15.</p> <p>During a telephone interview on 05/01/15 at 1:14 PM the Infectious Disease Physician stated it was reported to him by one of his physician partners that Resident #12 had died in the hospital on 05/01/15 at 2:02 AM. He stated her admitting diagnosis at the hospital on 04/24/15 was sepsis (a life threatening complication of infection) and she had respiratory failure. He explained he had seen Resident #12 about a month ago during a previous hospital admission because she had infected hardware due to back surgery and she was alert at that time. He confirmed he saw Resident #12 when she came to his office on 04/24/15 and she was minimally awake but was not responsive and was receiving oxygen but her saturation percentage was 88% and her blood pressure was low at 94/62, pulse 64, respirations 26 and her temperature was 97.6 F. He explained he talked to emergency medical transport and they said when they picked the resident up she was on oxygen at 2 liters per minute but they had to increase her oxygen because her oxygen saturation percentage was in the low to mid 80's and she was minimally responsive. He stated he took a quick look at Resident #12 and told emergency medical transport personnel to take her to the hospital emergency room. He explained after Resident #12 left the office he had his staff call the facility and they were told Resident #12 was a little confused when she left</p>	F 309

F 309	<p>Continued From page 71</p> <p>the facility. He stated he received no notes from the facility and had no indication of what had happened with Resident #12. He stated the last time he saw Resident #12 about a month ago she was alert and awake. He confirmed his office was just down the street from the facility so Resident #12's transport would have only taken minutes.</p> <p>During an interview on 05/06/15 at 9:30 AM the facility Medical Director stated he only saw Resident #12 once on 03/31/15 but his Nurse Practitioner saw her routinely and kept him informed of Resident #12's condition. He explained Resident #12's biggest problem was infected hardware in her back but she also had a lot of medical conditions and was getting intravenous antibiotics through a PICC line and was followed by an Infectious Disease Specialist who managed the infected hardware in her back. He stated the Nurse Practitioner had questions about the antibiotics and did not want to make decisions about them on her own so she called the Infectious Disease Physician for his recommendations and he wanted to see Resident #12 at his office on 04/24/15. He explained it was his expectation for nursing staff to assess residents who had a change in condition and call the physician. He stated a Physician or Nurse Practitioner was available by phone or pager 24 hours a day and there was no excuse for them not being notified. He further stated he was not aware of Resident #12's increased confusion and pain and nursing staff should have called them regarding Resident #12's pain since pain medication had already been given on 04/24/15 and Ativan was not indicated for pain. He explained he couldn't speak to whether Resident #12's outcome would have been different but he expected staff should have called to discuss pain,</p>	F 309

F 323	<p>Continued From page 84</p> <p>bathroom while wet towels hung covering the fan's motor (room 211) for 2 of 27 sampled resident rooms observed.</p> <p>The findings included:</p> <p>1. Resident #105 was admitted to the facility 10/03/14 and readmitted on 12/4/14. Diagnoses included severe peripheral vascular disease (PVD), severe hypoglycemia, diabetes mellitus II, chronic osteomyelitis of ankle/foot, gangrene of foot, lower limb amputation of toe, right below knee amputation (R BKA), and anxiety.</p> <p>Review of the medical record and the "Verification of Investigation" report revealed that on 11/19/14, Resident #105 attempted a self transfer to his wheel chair and slid to the floor. He was wearing socks without shoes. He was uninjured. Recommendations after the fall included to keep the bed in the lowest position, call bell in reach, skid free socks while out of bed and place a dycem (slip resistant device to prevent sliding) to his wheel chair seat when up in the wheel chair.</p> <p>Further medical record review and the "Verification of Investigation" report, revealed that on 11/29/14, Resident #105 attempted a self transfer to the bed. He was found on the floor on the right side of bed, on his stomach face down, he was unable to recall the fall or his attempt to self transfer. He was transferred to the emergency department for further evaluation. Documentation of the fall did not include whether or not the dycem was in place at the time of the fall. Resident #105 returned to the facility on 12/04/14 after a R BKA due to severe PVD.</p> <p>A physician's order dated 12/04/14 recorded to</p>	F 323	<p>CRITERIA 2:</p> <p>Assistant Executive Director will conduct a 100% audit of entire building, by 22 May 2015, to find any safety conditions not identified through survey or work orders. Assistant ED will create a list of areas with safety concerns and will instruct Maintenance team on priority of issues.</p> <p>The Director of Nursing and/or her designee will audit 100% of all residents for at risk/high risk falls by June 1. For those residents identified with high or at-risk circumstances, care plans with interventions and/or preventative measures will be implemented.</p> <p>CRITERIA 3:</p> <p>Assigned rooms to specific department heads to make sure that rooms are kept in an orderly fashion and that any maintenance issues given daily to Maintenance Director. A new "Zones" program implemented to assist department heads in accomplishment of this task. Re-educate staff on use of Building Engines automated repair system to report maintenance issues found during their daily duties.</p> <p>The number of issues identified in the 100% audit is voluminous, and must be accomplished in a realistic time frame. Items that pose an immediate harm condition will be repaired immediately. In order to facilitate this, a priority ranking</p>

F 323	<p>Continued From page 89</p> <p>During an interview on 05/04/2015 at 4:09 PM nurse #10 stated Resident #105 required the assistance of one staff person with transfers due to his fall risk. Nurse #10 stated she remembered that Resident #105 fell twice in November 2014. Nurse #10 stated that after Resident #105 fell on 11/19/14, staff made sure he had shoes on and she placed a dycem to his wheel chair. Nurse #10 stated the use of the dycem was a recommendation she implemented at the time of the fall and it should have been recorded on the MAR for nurses to be reminded to check for placement. Nurse #10 further stated that if she did not record the dycem on the November 2014 MAR it may not have been in place routinely, because the nurses would not have known to check placement. Nurse #10 stated "If it (dycem) was used, it would be documented on the MAR." Nurse #10 stated Resident #105 also fell on 11/29/14, but she could not recall if the dycem was in place at the time of this fall. Nurse #10 stated she worked with Resident #105 routinely, but did not always check for placement of the dycem to his wheel chair.</p> <p>During an interview on 05/05/2015 at 06:38 PM, the director of nursing stated that when fall interventions like an alarm or a dycem are added for a resident after a fall, the interventions should be recorded on the MAR for nurse monitoring, placed on the care plan and added to the care guide used by the nursing assistants for communication/implementation.</p> <p>During an interview on 05/06/2015 at 10:49 AM nurse #11 stated she was the nurse for Resident #105 when he fell on 01/04/15. F 323	<p>Continued From page 95</p> <p>During an observation on 04/28/15 at 10:22 AM, the fan was sitting in the bathroom floor, with the fans motor running and the towels covered the front of the fan and the fans motor.</p> <p>During an interview on 04/28/15 at 10:32 AM, NA #4 stated she had not placed the towels over the fan and was unaware of who or when the towels were placed on the fan. She confirmed she had been in and out of the bathroom several times but had not removed the towels from the fan. She stated it was not unusual for the towels to be draped over the fan and she had not thought anything about it. NA #4 further stated she would have considered the towels that covered the fan to be unsafe and a hazard.</p> <p>During an interview on 04/28/15 at 10:41 AM, Nurse #3 stated she would have expected NA #3 to have removed the towels from the fan. Nurse #3 further stated the NAs were expected to remove towels and/or linens from a residents room after they're used and considered it a hazard and unsafe for the fan to be covered with towels.</p> <p>During an interview on 04/28/15 at 10:37 AM, the Director of Nursing stated she would have expected the towels to have been removed from the fan. She further stated she expected the fans to be used for air circulation and to keep the resident's cool and not as a towel dryer. She indicated she was unaware the towels were being placed over the fan and that she considered it to be a safety hazard.</p> <p>During an interview on 04/29/15 at 10:21 AM, the Maintenance Director indicated he would have expected the towels to have been removed from</p>	F 323

F 325	<p>Continued From page 97</p> <p>her usual meal intake was 50 % to 75 % and she received a therapeutic diet. This note stated her food preferences were obtained and review of this list revealed no dislikes.</p> <p>The Registered Dietician's (RD) nutritional evaluation dated 03/23/15 noted Resident #42 was on a therapeutic diet and her current intake ranged from 39 % to 47 %. The note included the recommendation to maintain her intake at greater than 50 % for all meals. The notes also included the need to monitor nutrition parameters with orders for nutritionally enhanced meals and follow up as needed.</p> <p>A review of the quarterly Minimum Data Set (MDS) dated 03/24/15 indicated Resident #42 was severely impaired in cognition for daily decision making. The MDS further indicated Resident #42 required extensive physical assistance of 1 person for bed mobility, eating, dressing, and personal hygiene, and 2 persons assist with transfers and toileting, and was totally dependent on staff for bathing. Further review of the MDS coded Resident #42 with no difficulty in chewing/swallowing, receiving a therapeutic diet, and weighing 114 pounds being 4 feet 7 inches tall.</p> <p>Per Resident #42's weight record, on 04/06/15 she weighed 111 pounds and on 05/05/15 she weighed 103.4 pounds (a one month 7.2 % significant weight loss).</p> <p>A care plan was developed on 04/14/15 with a focus of inadequate food/beverage intake related to dementia and significant weight loss. The goal was for the resident to maintain body weight through the next review. Interventions included to</p>	F 325	<p>Designee. Resident #42 and those residents identified as having need will be placed on a special focus feeding program. Residents identified as having the potential for weight loss will have other interventions such as weekly weights, larger portions, consults by the registered dietician and nutritional supplements put into place when deemed appropriate and ordered by the resident's physician.</p> <p>CRITERIA 3:</p> <p>An in-service will be completed by the Director of Nursing and/or her Designee to educate Assistive Feeding, Focus Feeding Program and Alternate Meals. Director of Nursing and/or her Designee will monitor one meal per floor weekly for four weeks, then one meal weekly thereafter to ensure proper feeding assistance. Care cards and care plans will be updated to reflect those residents identified for assisted feeding and focus feeding daily. Weekly weights will be implemented for those residents identified with significant weight loss/gain during the "AT RISK" Meeting weekly. Meal intake monitoring will be discussed at Clinical Startup daily by the clinical team.</p> <p>CRITERIA 4:</p> <p>Results of the monitoring will be brought to the QAPI committee for a minimum of three months to ensure quality process improvement and until it is no longer deemed necessary by the QAPI</p>

F 353	<p>Continued From page 101</p> <p>The findings included:</p> <p>A review of staffing schedules dated January 1, 2015 through May 7, 2015 revealed when staff called in and could not work their assigned shift the staff members name was marked off the schedule and the name of the staff that covered the shift was written on the schedule. There were shifts where there was only 3 nurse aides scheduled for the 200 hall on the 7AM-3PM shift due to staff calling in.</p> <p>Observations of the daily staffing schedules posted from 04/26/15 through 05/07/15 on 100, 200 and 300 hall nursing units revealed a census of 80 residents and daily staff were scheduled for the 3 units as follows:</p> <table border="1"> <thead> <tr> <th>Shift</th> <th>Hall</th> <th>Residents</th> <th>Nurses</th> <th>Nurse Aides</th> </tr> </thead> <tbody> <tr> <td>7AM-3PM</td> <td>100</td> <td>13</td> <td>1-Nurse</td> <td>2-Nurse Aides</td> </tr> <tr> <td>3PM-11PM</td> <td>100</td> <td>13</td> <td>1-Nurse</td> <td>2-Nurse Aides</td> </tr> <tr> <td>11PM-7AM</td> <td>100</td> <td>13</td> <td>1-Nurse</td> <td>1-Nurse Aide 2-staff</td> </tr> <tr> <td>7AM-3PM</td> <td>200</td> <td>43</td> <td>2-Nurses</td> <td>4 Nurse Aides 6-staff</td> </tr> <tr> <td>3PM-11PM</td> <td>200</td> <td>43</td> <td>2-Nurses</td> <td>3-Nurse Aides 5-staff</td> </tr> <tr> <td>11PM-7AM</td> <td>200</td> <td>43</td> <td>1-Nurse</td> <td>3-Nurse Aides 4-staff</td> </tr> <tr> <td>7AM-3PM</td> <td>300</td> <td>24</td> <td>1-Nurse</td> <td>2-Nurse Aides 3-staff</td> </tr> <tr> <td>3PM-11PM</td> <td>300</td> <td>24</td> <td>1-Nurse</td> <td>2-Nurse Aides 3-staff</td> </tr> <tr> <td>11PM-7AM</td> <td>300</td> <td>24</td> <td>1-Nurse</td> <td>2-Nurse Aides 3-staff</td> </tr> </tbody> </table>	Shift	Hall	Residents	Nurses	Nurse Aides	7AM-3PM	100	13	1-Nurse	2-Nurse Aides	3PM-11PM	100	13	1-Nurse	2-Nurse Aides	11PM-7AM	100	13	1-Nurse	1-Nurse Aide 2-staff	7AM-3PM	200	43	2-Nurses	4 Nurse Aides 6-staff	3PM-11PM	200	43	2-Nurses	3-Nurse Aides 5-staff	11PM-7AM	200	43	1-Nurse	3-Nurse Aides 4-staff	7AM-3PM	300	24	1-Nurse	2-Nurse Aides 3-staff	3PM-11PM	300	24	1-Nurse	2-Nurse Aides 3-staff	11PM-7AM	300	24	1-Nurse	2-Nurse Aides 3-staff	F 353	<p>that the facility is operated at levels which allow for adequate provision of care to all residents and meet or exceed facility standards of 3.10 hours of direct care per patient per day each day.</p> <p>A. On June 1, 2015 the Executive Director, Director of Nursing Services, Staffing Coordinator and Payroll Specialist reviewed the facility's direct care staffing, which is not limited to nursing personnel time and includes direct care provided by the Executive Director, Director of Nursing Services, Physical Therapist (PT), Physical Therapist Assistant (PTA), Occupational Therapist (OT), Occupational Therapist Assistant (COTA), Speech Language Pathologists (ST), dietary employees, housekeeping employees, etc. These staffing levels were reviewed to ensure adequate supervision, care and protection. Review of the past seven (7) days staffing revealed compliance with facility minimum staffing standards for per patient day direct care provided to each resident. This process has been put in place to ensure staffing levels are adequate and consists of an analysis of the census of the facility, the acuity of the patients being served, and a determination of how to adjust staffing and resources to those patient needs. The Executive Director and/or Designee will review staffing levels and allocations daily to ensure adequate staff present and allocated appropriately for continued compliance and reconcile those staffing levels to ensure adequate supervision, care and protection.</p>

F 353	Continued From page 104 During an interview on 05/06/15 at 8:54 AM with Nurse #6 she revealed she worked on the 300 hall on the 7AM-3PM shift. She revealed there was 1 nurse and 2 NAs on the 300 hall from 7AM-3PM for 24 residents. She revealed it was hard with just 2 NAs especially in the morning because the residents needed help getting up and dressed, there were residents that needed to be fed and there were more behaviors issues in the morning. She stated it would make a big difference to have one more NA in the mornings. During an interview on 05/06/15 at 9:00 AM with NA #6 he revealed he worked 7AM-3PM on the 300 hall. He stated the census was down, but it was still hard on the NAs to get the residents up and dressed, fed breakfast and deal with the behaviors in the morning. He revealed another NA would make the work load better, and when the census went back up there would be a need to have an extra NA. During an interview on 05/06/15 at 9:15 AM the staffing coordinator explained she was responsible for the staffing of all nurses and NAs. She revealed she completed a monthly schedule for each month and had a list of staff to call when staff was unable to work. She explained the facility nurses and NAs worked 8 hours shifts and if staff was unable to work their shift, the staff member was to call in at least 2-3 hours before their shift was to start. She explained there had been a time when the numbers had fallen below the staffing ratio and would happen especially on holidays, but usually occurred at least one per month. She explained if she had a NA call in and she was not able to replace the NA she would come in and work as a NA. She explained there	F 353

F 353	Continued From page 105 were no charge nurses on the units at night and the licensed nurse on the units would act as a charge nurse. During an interview on 05/06/15 at 11:49 AM with the Director of Nursing (DON) she revealed the facility was staffed according to the census. She explained on the 200 hall there was 2 nurses and 4 NA on first and second shift and 1 nurse and 2 NAs on third shift and on the 300 hall there was 1 nurse and 2 NAs for all three shifts. She stated if someone quit or turned in a notice she would notify the staffing coordinator. She explained staff would call her and the staffing coordinator if staff called in and they both would try and cover the call in. She explained she was concerned about staffing on the 200 hall on the 3PM-11PM shift and she explained there needed to be another NA working on the 200 hall on 3PM-11PM shift. She explained she wanted more NAs working on second and third shift. She states she can't fix something if she doesn't know it is broken. She stated there was no supervisor on and the nurse on the halls at nights was the charge nurse for that hall. She stated she expected her staff to reposition residents 4 times a shift and was not aware that the residents on the 200 hall were only being repositioned 3 times a shift due to there not being enough NAs. She stated she expects all 3 shift to reposition and change the residents every 2 hours or 4 times a shift and as needed.	F 353

F 514	Continued From page 129 She stated the physician's order was for Ativan 0.5 mg by mouth every 12 hours PRN for anxiety but she had transcribed it incorrectly for pain. During an interview on 05/07/15 at 4:31 PM with the Director of Nursing she confirmed the Ativan order for Resident #12 had been transcribed incorrectly by Nurse #9 she explained the order was originally written as a telephone order but it was transcribed incorrectly to give for pain instead of anxiety. She stated third shift nursing staff were supposed to check resident's charts for orders received during the last 24 hours and compare them to the transcribed orders and were supposed to correct any errors they found but nobody caught the transcription error for the Ativan. F 520	<p>Continued From page 133</p> <p>During the November 2013 recertification survey and complaint investigation, the facility was cited for failure to have an effective QA program to supervise wandering residents. The facility was recited during the current recertification survey and complaint investigation for failure to implement and maintain an effective QA program regarding 4 repeat deficiencies in the areas of choices, accidents, dietary services and QA during two federal surveys of record.</p> <p>During an interview on 05/07/2015 at 06:19 PM, the administrator stated that he attributed the repeat deficiencies in the areas of choices, accidents, dietary services and QA to a faulty QAA program, which did not occur under his direction. The administrator further stated that whatever QAA systems were to be implemented in January 2014 were not followed and monitored. The administrator stated he read the minutes from resident council meetings, but he was not aware that residents had current concerns related to resident choice or dietary services. He stated he reviewed the accident/incident event reports daily and was concerned about the large number of incidents occurring. The administrator stated that he had not had the opportunity to track/trend the accidents/incident events to determine what to attribute the large number of events to, but that was something he planned to discuss at the facility's next QAA meeting. The administrator stated that he had reviewed the sanitation inspection report since coming to the facility in March 2015 and with the consultant dietitian in the facility 3 times weekly, he had not been made aware of any unresolved dietary concerns.</p>	F 520

F 156	<p>Continued From Page 1</p> <p>This REQUIREMENT is not met as evidenced by: Based on record review and staff interview the facility failed to provide a Medicare Non-Coverage letter and rights to appeal for 1 of 1 sampled resident who was discharged from Medicare services (Resident #95). The findings included: A record review of the Liability Notice of Medicare Provider Non-Coverage forms revealed Resident #95 was not provided notification of Medicare Non-Coverage by the facility and given the right to appeal. The facility was not able to verify through documentation that Resident #95 received notification in writing. Interview conducted with the Nurse on 05/04/15 at 4:20 PM reported she was responsible for providing the Medicare Non-Coverage notices to residents and families. She stated Resident #95 was not provided a Medicare Non-Coverage letter and was unable to explain the reason. During the interview, she stated the expectation was for Medicare Non-Coverage forms to be issued and given a right to appeal.</p>
