Immediate Jeopardy began on 01/06/16 when Nurse #1 observed a nurse aide place his penis in Resident #1's mouth, shut the door without intervening while the abuse was occurring, and then Nurse #1 and Nurse #2 allowed the perpetrator to move about the facility unsupervised while they called administration for instructions. Immediate Jeopardy was removed on 01/15/16 at 11:06 AM when the facility provided and implemented an acceptable credible allegation of compliance. The facility remains out of compliance at a lower scope and severity of D (isolated, no actual harm with potential for more than minimal harm, that is not immediate jeopardy) to complete education and to ensure monitoring systems put into place are effective related to protecting residents from being abused.

The findings included:

The facility policy "Abuse, Neglect, or Misappropriation of Resident Property Policy", with a revised date of 11/01/06, included in part:
*Any employee who witnesses or suspects that abuse, neglect, or misappropriation of property has occurred, will immediately report the alleged incident to their supervisor, who will immediately report the incident to the Administrator;
*Measures will be initiated to prevent any further potential abuse while the investigation is in progress;
*Protection: Employees accused of being directly involved in allegations of abuse, neglect, or misappropriation of property will be suspended immediately from employment pending the outcome of the investigation.
The policy did not include that the resident affected by the abuse would be assessed for

Nurse #1 stated she and Nurse #2 got the drug screen out of the medication room and walked to find NA #1 together. NA #1 was found on the 100 hall. Nurse #1 stated she was taught to stop a perpetrator if she witnessed verbal or physical abuse. When Nurse #1 was asked why she left Resident #1 in the presence of NA #1 when she witnessed sexual abuse, Nurse #1 stated she did not feel Resident #1 was safe but did not stop NA #1 as he did martial arts and was afraid for herself and Resident #1. When asked if she would do anything differently if she had to do it over again, she stated no because she was afraid with NA #1's hand on the resident's head, NA #1 may have easily hurt the resident if she barged into the room since Resident #1 was a frail resident.

Nurse #2 was interviewed on 01/12/16 at 12:06 PM. Nurse #2 stated she arrived for work at the facility on 01/06/16 at 3:00 AM. Nurse #1 and #2 proceeded to Resident #1's room on the 200 hall. The door to Resident #1's room was open and NA #1 was not in the room.

When confronted with the witness report alleging sexual abuse, NA #1 acted shocked and denied any abuse. She informed NA #1 she needed to investigate and call the police. The Administrator stated she instructed the DON and the ADON to complete a head to toe assessment on Resident #1. After the assessment was completed, the Administrator and the DON interviewed NA #1 who was consistent in his denial of abuse. The Administrator stated she had the ADON notify the police around 6:45 AM. Once the police arrived, the Administrator stated she had no more dealings with NA #1. The Administrator stated she spoke with Nurse #1 who stated she could not open the door all the way and once she saw the abuse, she shut the door and proceeded to find Nurse #2. something was going to happen to Resident #1 and she went to get help. When the nurses arrived back to the resident's room, NA #1 had already left the room. Upon follow up interview with the DON on 01/13/16 at 6:23 PM, she stated the decision to call the police was up to the Administrator.

NA #1 was not interviewed.

Another interview on 01/13/16 at 6:25 PM with the Administrator revealed she did not tell Nurse #1 to call the police when she spoke to her on the phone because she wanted to go to the facility and see what had transpired and be sure Nurse #1 saw what she reported she saw. The Administrator stated she had never called the police before unless she actually suspected a crime had been committed. She stated she did what she always did which was to assess and determine whether the situation warranted the call to the police. The Administrator then stated it was obvious the police needed to be called because of what she saw. When asked what she saw, she said she saw a white crusty something on Resident #1's neck. She stated the details were in her red file, again not part of the medical record, and she did not want such an allegation to be in the medical record where uninvolved persons would have access to the information. She stated the information should be vague due to the nature of the incident. She further stated that any professional needing to know about the abuse, i.e. psychologist would be informed verbally. She further stated that staff may have been waiting on direction from the legal department to write a nursing note. She stated she did not like written addendums in the nursing notes and it was such a crazy day, the resident was out of the facility before a nursing note could be written. She ended by stating that Nurse #1 did not ask her about writing a nursing note. She stated she expected the physician to note something about Resident #1's transfer to the hospital in his discharge summary which was not yet available as they are dictated.<br><br>On 01/14/16 at 12:02 PM, the DON stated the assessment she completed on Resident #1 included looking in her mouth which she found clean and her face was clean except for the one spot on her collarbone.
