Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

F 550	<p>Continued From page 2</p> <p>belongings. Resident #67 was unable to recall the name of the staff member who assisted her. She stated the staff member removed her drawer and placed it on her bed. She indicated that when she was finished with the drawer she asked her assigned second shift Nursing Assistant (NA), NA #6, to put her drawer back into dresser as she was unable to complete this task independently. Resident #67 stated that NA #6 told her, "you got it out, you put it back". Resident #67 stated that this "made me feel like I was worthless". She indicated that she spoke to Nurse #6 about the incident and she gave permission for Nurse #6 to report the incident to the Director of Nursing (DON).</p> <p>A phone interview was conducted with Nurse #6 on 12/18/18 at 4:15 PM. Nurse #6 confirmed that she was working this past weekend at the facility as the weekend Nurse Supervisor. She stated that over the past weekend (12/15/18 or 12/16/18) Nurse #7 reported to her that she overheard Resident #67 ask NA #6 to put her drawer back into her dresser. She indicated Nurse #7 informed her that NA #6 said something like "it 's your drawer you put it back" to Resident #67. NA #6 then reportedly told the resident she was going on break. Nurse #6 reported that Resident #67 was not able to put the drawer back without assistance. She indicated that after the incident was reported to her by Nurse #7, she spoke to Resident #67. She stated that Resident #67 was tearful during this conversation and that she confirmed Nurse #7 ' s report of the incident with NA #6. She indicated that after speaking with the resident she reported the incident to the DON by phone. Nurse #6 stated that she also spoke with NA #6 and provided re-education on assisting residents timely and treating residents</p>	F 550	<p>no catheter bag covers were missing. Non-interviewable residents were observed on 01/17/2019 by the DON and Clinical Supervisors to insure they were being treated with dignity and respect and had catheter bag covers in place if needed.</p> <p>Observations were conducted by the Corporate Director of Clinical Services on 1/18/19 5(five) staff members of first shift and 5 (five) staff members on second shift and by the Nurse Management team on 3rd shift and weekends. All Residents indicated they were treated with dignity and respect.</p> <p>In-service education programs were conducted with all licensed and non-licensed staff on all shifts, including part-time and weekend staff on treating residents with dignity and respect to include providing care for each resident in an environment that promotes and protects their rights by the Corporate Director of Clinical Services and the Administrator on 01/25/2019. All staff will be in-serviced prior to working the floor.</p> <p>The social worker will conduct additional interviews on 5 potentially affected residents daily times 5 days, and then 5 potentially affected residents weekly times 4 weeks using the facility's Resident Satisfaction Survey form to insure residents are being treated with dignity and respect. Observations will be conducted by the Nurse Management to ensure Resident's are being treated with</p>

F 580	Continued From page 10  Review of a dietary note dated 8/21/18 read Resident #10's weight was 141.6 pounds and that his weights had remained stable for the past four weeks. The note read Resident #10 had a history of removing his feeding tube and recent acute illness. The note read Resident continued his bolus tube feedings. There was no documentation that the Physician was notified of Resident #10's recent weight loss. The note read Resident #10 would continue to be monitor weekly weights. This note was documented by the DM.  Review of a Physician History and Physical Examination note dated 8/24/18 made no mention of any weight loss.  Review of a Physician History and Physical Examination note dated 9/20/18 made no mention of any weight loss.  Review of Resident #10's quarterly Minimum Data Set (MDS) dated 9/25/18 indicated severe cognitive impairment, no behaviors and total assistance with all of his activities of daily living. He was coded with known weight loss, a feeding tube and weight of 135 pounds.  Review of a dietary note dated 9/26/18 read Resident #10's weight was 134.5 pounds. The note read Resident #10 had experienced weight loss since the last dietary note. The note read Resident #10 had a recent hospitalization and he would be referred to the RD on his next visit. The note read Resident #10 had a history of removing his feeding tube and recent acute illness. The note read Resident continued his bolus tube feedings and his weight would continue to be	F 580

His tube feeding was connected and running Isosource 1.5 at 60 ccs per hour continuous with 35 ccs of water per hour.</p> <p>In an interview on 12/18/18 at 3:10 PM, Nurse #4 stated Resident #10 had been very sick on and off since admission. She stated he was living at home with his wife prior to admission to the facility in March 2018. Nurse #4 stated Resident #10 frequently removed his feeding tube and required frequent hospitalizations.</p> <p>In an interview on 12/18/18 at 3:26 PM, the Dietary Manager (DM) stated the Registered Dietician (RD) comes to the facility once a month and as needed. She stated Resident #10 was on weekly weights due to his known weight loss associated with his multiple hospitalizations due to illness with multiple incidents of removing his feeding tube. The DM stated Resident #10 was discussed at the Patients at Risk meetings and she contacted the RD for direction about Resident #10's weight loss. The DM stated the RD could make visits as needed but that she consulted with the RD for recommendations regarding Resident #10's weight loss. The DM stated she did not inform the Physician.</p> <p>In a telephone interview on 12/18/18 at 5:15 PM, the RD stated Resident #10's weights were stable at 172 pounds up until sometime in July 2018 when he hospitalized several times. The RD stated bolus tube feedings were implemented at one time because it was felt he would be less likely to remove his feeding tube but when his weights continued to decline, the Physician changed Resident #10 back to continuous feedings. The RD stated he was at the facility</p>	F 580

He stated the DM contacted him about Resident #10's weight loss and he thought the Physician was aware of Resident #10's weight loss but he did not notify the Physician.</p> <p>Review of a dietary note dated 12/19/18 read Resident #10's weight continues to trend downward due to multiple hospitalizations and a history of removing his feeding tube. His current weight on readmission was 125 pounds and continued to trend downward despite adjustment to address his weight loss. New orders dated 12/19/18 for Isosource 1.5 at 65 ccs per hour continuous with 35 ccs of water per hour. There was no documentation that the Physician was notified of Resident #10's recent weight loss. This note was documented by the DM.</p> <p>In an observation on 12/19/18 at 8:20 AM, Resident #10 was lying in bed with his tube feeding running continuously as the ordered rate. He was observed to be alert and able to answer yes/no questions without difficulty. He was not observed attempting to removing his feeding tube but rather moving his arms in a continuous upward motion.</p> <p>In an interview on 12/19/18 at 11:02 AM, Unit Manager #1 stated the DM was in contact with the RD about Resident #10's weight loss. She stated she contacted the Physician about changing Resident #10's tube feedings to bolus feedings back in June 2018 to keep Resident #10 from removing his feeding tube. The Unit Manager stated Resident #10 was being followed in the Patients at Risk meetings and it was her impression that the Physician was aware of Resident #10's weight loss.</p>	F 580

F 580	Continued From page 14  In an interview on 12/20/18 at 9:10 AM, the Medical Director stated he was aware of at least nine hospitalizations since being admitted to the facility and multiple incidences of Resident #10 removing his feeding tube. The Medical Director stated some weight loss was to be expected but he was not notified of the continued unintended, significant weight loss. The MD stated it was his expectation that the facility would have notified him of Resident #10 continued unintended significant weight loss. He stated Resident #10 may require a higher calorie tube feeding to prevent further weight loss and he would follow up with the facility RD.  In an interview on 12/20/18 at 10:15 AM, the Director of Nursing stated it was her expectation that the Physician of continued weight loss by the Unit Manager or the RD so that other interventions could have been considered to prevent continued unintended, significant weight loss. F 641	Continued From page 24  8) Resident #42 was admitted to the facility 7/17/18 with diagnoses that included CVA (stroke), dysphagia (difficulty swallowing), aphasia (unable to express speech), tracheostomy and gastrostomy status.  A review a physician note dated 7/19/18 revealed Resident #42 was not able to smile or follow simple commands and did not move any extremities.  During a review of a care plan conference form dated 7/20/18 it was indicated that the resident was in a vegetative state and required total assistance with all ADL's (Activities of Daily Living).  A review of a nursing note dated 7/24/18 revealed the resident was in a vegetative state and all needs were anticipated by staff.  The most recent comprehensive MDS (Minimum Data Set) coded as an admission assessment and dated 7/24/18 revealed the resident had impaired memory and was unable to make self-known or to make decisions. She was coded as receiving extensive assistance of two staff members for all ADL's except for bathing and eating in which she was dependent on one to two staff members. She was coded as having limited range of motion to bilateral upper and lower extremities.  A review of the most recent MDS coded a Quarterly assessment and dated 10/18/18 revealed the resident had impaired memory and was unable to make self-known or make	F 641

There was no care plan related to the use of antipsychotic medication.</p> <p>An interview was conducted with MDS Nurse #1 on 12/19/18 at 3:30 PM. She indicated she was responsible for updating care plans related to psychotropic medications. She stated that a care plan was implemented within one to two business days when an antipsychotic medication was initiated for a resident who was not previously on an antipsychotic medication. The 12/6/18 physician 's order for PRN Haldol for Resident #73 was reviewed with MDS Nurse #1. The active care plan for Resident #73 that had not addressed the use of antipsychotic medication was reviewed with MDS Nurse #1. She revealed a care plan related to antipsychotic medication use should have been implemented for Resident #73 as she had not previously received an antipsychotic medication during her stay at the facility.</p> <p>An interview was conducted with the Director of Nursing (DON) on 12/20/18 at 10:15 AM. She stated she expected all antipsychotics to have an adequate clinical indication for use. She additionally indicated that agitation was not an appropriate clinical indication for the use of PRN Haldol. The DON reported that all PRN antipsychotic medications were to have behavior monitoring documented on the MAR or in the nursing notes for each administration to justify the use of the medication. She indicated that side effect monitoring was also to be documented on the MAR.</p> <p>3. Resident #31 was admitted to the facility on 11/18/16 with multiple diagnoses including left above the knee amputation. (AKA). The quarterly Minimum Data Set (MDS) assessment dated</p>	F 656	<p>will be kept in the DON's office.</p> <p>The Director of Nursing will report findings to the Quality Assurance Committee monthly meetings until such time as consistent substantial compliance has been achieved.</p> <p>Completion Date 01/31/2019</p>

F 692	Continued From page 50  In an observation on 12/19/18 at 8:20 AM, Resident #10 was lying in bed with his tube feeding running continuously as the ordered rate. He was observed to be alert and able to answer yes/no questions without difficulty. He was not observed attempting to removing his feeding tube but rather moving his arms in a continuous upward motion.  In an interview on 12/20/18 at 9:00 AM, Nurse #3 stated Resident #10 was known to remove his feeding tube and required frequent hospitalizations. She stated he often acted out after visits from his family.  In an interview on 12/20/18 at 9:10 AM, the Medical Director stated he was aware of at least nine hospitalizations since being admitted to the facility and multiple incidences of Resident #10 removing his feeding tube. The Medical Director stated some weight loss was to be expected but he was not notified of the continued unintended, significant weight loss. The MD stated the facility tried an abdominal binder at one time, but he started to develop skin issues, so it was discontinued. He stated he also changed his feedings from continuous to bolus on few instances in hopes that it would deter Resident #10 from removing his feeding tube. The MD stated it was also his expectation that the facility attempts other interventions to prevent Resident #10 from removing his feeding tube. He stated Resident #10 may require a higher calorie tube feeding to prevent further weight loss and he would follow up with the facility RD.  In an interview on 12/20/18 at 10:15 AM, the Director of Nursing stated it was her expectation	F 692

F 758	<p>Continued From page 64</p> <p>Resident #73 ' s agitation and psychotic symptoms were impacting her participation in therapy as well as causing the resident to have several falls due to repeated attempts to get out of bed unassisted. She revealed the PRN Haldol calmed Resident #73 and made her less restless. She was asked what type of interventions were implemented prior to the administration of PRN Haldol for Resident #73. She indicated the interventions included redirection, verbal consoling, increased monitoring, and offering her a glass of wine as ordered by the physician. Nurse #2 was asked where documentation of behavior monitoring and side effect monitoring related to the administration of Resident #73 ' s PRN Haldol was located. She indicated it was documented on the MAR or in the nursing notes. She was unable to recall if Resident #73 ' s MAR included behavior monitoring and side effect monitoring related to the PRN Haldol.</p> <p>An interview was conducted with Unit Manager (UM) #2 on 12/19/18 at 2:25 PM. She reported Resident #73 was admitted to the facility for rehabilitation following a hospitalization related to a fracture. She indicated Resident #73 had agitation, restlessness, and rejection of care which was affecting her rehabilitation. She explained that Resident #73 would not stay still and let herself rest. UM #2 stated that the PRN Haldol was prescribed for agitation. She explained that PRN Ativan had previously been prescribed for agitation, but it was not consistently effective. She revealed the PRN Haldol had helped to calm Resident #73 and also resulted in the resident being more cooperative. She stated that according to her primary care physician, Resident #73 ' s only psychiatric diagnosis prior to her admission to the facility was depression.</p>	F 758

F 758	Continued From page 65  An interview was conducted with Resident #73 ' s physician on 12/20/18 at 9:15 AM. He stated he was the Medical Director at the facility as well as the attending physician for Resident #73. The physician stated he gave the order for PRN Haldol after staff phoned him and said the PRN Ativan wasn ' t working and they had not known what to do. He explained that the PRN Ativan was previously prescribed for Resident #73 to calm her behaviors of hollering out and being physically combative with staff.  An interview was conducted with the Pharmacy Consultant by phone on 12/19/18 at 4:00 PM. The monthly drug regimen review for Resident #73 related to PRN Haldol prescribed for agitation was reviewed with the Pharmacy Consultant. He stated that he had not requested for the physician to provide a qualifying diagnosis on this initial review of the PRN Haldol as he expected it to be used minimally and on a short-term basis related to Resident #73 ' s adjustment to the facility. He indicated if Resident #73 was still on the Haldol at the time of his next review he would have asked for a specific diagnosis as there may have been an underlying reason for her agitation. The Pharmacy Consultant stated that he had requested behavior monitoring be added to the MAR for the use of the PRN Haldol.  An interview was conducted with the Director of Nursing (DON) on 12/20/18 at 10:15 AM. She stated she expected all antipsychotics to have an adequate clinical indication for use. She additionally indicated that agitation was not an appropriate clinical indication for the use of PRN Haldol.  2. Resident #40 was admitted to the facility on	F 758

F 758	<p>Continued From page 66</p> <p>10/5/18 with multiple diagnoses including dementia. The admission Minimum Data Set (MDS) assessment dated 10/12/18 indicated that Resident #40 had memory and decision making problems. The assessment further indicated that Resident #40 had received an anti-psychotic medication for 7 days during the assessment period.</p> <p>Resident #40 had a physician's order dated 10/5/18 for Risperdal (an anti-psychotic drug) 1 milligrams (mgs) by mouth twice a day.</p> <p>Resident #40's care plan dated 10/5/18 was reviewed. One of the care plan problems was Resident #40 was at risk for negative effects from anti-anxiety and anti-psychotic medications use. The goal was Resident #40 will have no negative effects from medications use through the next review. The approaches included DISCUS (dyskinesia identification system condensed user scale) per policy.</p> <p>Review of Resident #40's medical records including electronic records revealed that DISCUS was not completed to assess for EPS on admission.</p> <p>On 12/18/18 at 11:20 AM, Unit Manager (UM) #1 was interviewed. UM #1 stated that the facility's policy for completing the DISCUS was on admission and then quarterly. She indicated that she was responsible for ensuring that residents on anti-psychotic medication had DISCUS completed by the admitting nurse. UM #1 verified that DISCUS was not completed for Resident #40. She indicated that she failed to check behind the admitting nurse to ensure that DISCUS was completed.</p>	F 758

The RP refused to send Resident #10 out to the emergency Dentist but rather opted to have Resident #10 seen on the next scheduled visit of the in-house Dentist. Unit Manager #1 stated it was at the time, she thought she spoke with the SW and asked her to add Resident #10 to the dental list to be seen at the next scheduled visit in May 2018 and if he was in the hospital at the time of the Dentist visit in May 2018, he would have been added to the next Dental visit in June 2018.</p> <p>In an observation on 12/19/18 at 8:20 AM, Resident #10 was lying in bed. He confirmed he was not experiencing any tooth pain at present but refused visualization. There was no noted mouth odor detected.</p> <p>In an interview on 12/19/18 at 3:00 PM, Nursing Assistant (NA) #4 stated Resident #10 was not always cooperative with his oral care.</p> <p>In an interview on 12/20/18 at 9:00 AM, Nurse #3 stated she was not aware that Resident #10 was experiencing tooth pain but if he was, she would report it to Unit Manager #1.</p> <p>In an interview on 12/20/18 at 8:24 AM, The MDS Nurse stated she resolved the tooth pain care plan on 11/28/18 because she was not aware of any recent complaints of tooth pain and that the Anbesol order was discontinued on 11/23/18. She stated she spoke to Resident #10 in November 2018 and he expressed no tooth pain and he had not required the use of any ice packs since July 2018.</p> <p>In an interview on 12/20/18 at 9:10 AM, the Medical Director stated it was his expectation that</p>	F 791

F 804	<p>Continued From page 77</p> <p>7/18/18. Her quarterly Minimum Data Set (MDS) assessment dated 10/19/18 indicated her cognition was fully intact.</p> <p>The Resident Council minutes and concern follow up form dated 11/14/18 indicated Resident #30 stated that her grits were cold. This form was addressed to the Dietary Manager and indicated the cooks were spoken to related to food concerns.</p> <p>An observation and interview were conducted with Resident #30 on 12/19/18 at 8:09 AM. Resident #30 had been served breakfast in her room and she was eating independently. She had scrambled eggs and grits on her tray. She stated that her food was not warm enough indicating that she ate her french toast, but she was unable to eat the remaining items as they were not served at an appetizing temperature. She indicated that her food was consistently served at an unappetizing temperature when she ate in her room.</p> <p>An interview was conducted with the Activities Director on 12/18/18 at 2:45 PM. She stated she facilitated the Resident Council meetings. She indicated she was aware that the temperature of food served on the halls had been a concern mentioned in the resident council meetings in the past. She stated that the residents were reminded at every meeting that they could ask for staff to heat up their tray if it the food was not warm enough.</p> <p>An interview was conducted with the Administrator on 12/18/18 at 2:50 PM. He revealed he was aware that "cold food" was an issue since he began working at the facility in</p>	F 804	<p>has purchased new Heat Keeper Insulating Base and Dome Systems to extend the temperature holding time by twenty (20) minutes or more. 3 dozen were ordered on 01/02/19 and 3 dozen were ordered on 01/22/19. This solution maintains meals at safe temperatures during short distance deliveries.</p> <p>The facility has determined that all residents receiving meals have the potential to be affected.</p> <p>Audit was conducted on 1/17/2019 by the Nursing Management team using the audit tool on all residents lunch meal to ensure food is at an appetizing temperature and food is palatable to Resident's liking. All residents were satisfied with temperature and palatability of food.</p> <p>An in-service was provided by Dietary Manager on 1/23/2019 to the nursing assistants including all shifts, part time and weekends. Focusing on the proper/timely way to handle the meal delivery system and the importance of getting the meal trays to the residents as quickly as possible. All were in-serviced prior to working scheduled shifts.</p> <p>The Dietary Manager will conduct five (5) resident tray audits using an audit tool weekly across all three meals including weekends for six (6) weeks to ensure compliance. All audits will be kept in the Director of Nursing's office.</p>

He revealed he was aware that "cold food" was an issue since he began working at the facility in September of 2018. He reported that this issue was primarily concerning food served on the halls. He indicated that the facility had been looking into a new meal tray delivery system that would help sustain the temperature of the food, so it was served at a more appetizing temperature. He revealed that the current meal tray delivery system was not working well enough. The Administrator stated he was unsure when a</p>	F 804

F 867	Continued From page 90 facilitate flow of urine for 3 of 3 sampled residents reviewed for indwelling urinary catheter (Residents #40, #45 and #135).  In an interview on 12/20/18 at 11:12 AM, the Administrator stated he had only been the Administrator at the facility for 3 months and he was in the process of revamping the QAA process. He stated he was uncertain why there were repeat citations and it could possibly be a personal issue, but he had to accept the responsibility.	F 867	Supervisor, Social Worker, Director of Nursing, Medical Records Director, Dietary Manager, Housekeeping Supervisor). The next meeting was scheduled for 1/30/2019 to review outcomes.  The facility has determined that all residents have a potential to be affected.  The Corporate Director of Clinical Services did an in-service with the licensed and unlicensed staff including part time and weekend staff regarding the facility's QAPI (Quality Assurance & Performance Improvement) plan on 01/24/2019. The Administrator will meet with all new hires during orientation to educate them on the facility's QAPI program. The QAPI Committee will meet monthly to discuss action plans related to the repeat deficiencies at F641 and F690 and all items on the QAPI agenda. The Medical Director will be physically present no less than quarterly at the meetings. Results of these meetings will be kept in the Administrator's office.  This plan of correction will be continuously evaluated by the Administrator and the QAPI committee until such time as consistent substantial compliance is achieved.  Completion Date 01/31/2019
