F 602	<p>Continued From page 2</p> <p>approximately 8:30 PM I received a call from the Director of Nursing (DON) and asked if I had any of Resident #3's narcotics and stated that they could not be found on the medication cart. The DON asked me if the narcotic count was correct on 07/19/21 when I reported for duty at 3:00 PM and I told the DON that I was late coming to work that day and when I arrived at work was told that the medication cart had been counted by 2 nurses, so I took the keys and went down the hall to start my shift. "I said to myself let me write down the narcotics that are on this cart since I did not count with anyone" and I wrote them down along with amount of each medication. I worked from 3:00 PM on 07/19/21 to 7:00 AM on 07/20/21. At the 7:00 AM change of shift on 07/20/21 myself and Nurse #2 counted the narcotics, and everything was correct at that time. Attached is the narcotics that was on the medication cart on 07/19/21 3:00 PM to 11:00 PM shift. The handwritten statement was signed by Nurse #1.</p> <p>Review of another handwritten document provide by Nurse #1 read in part, on 07/19/21 I was handed the keys to the medication cart. No one counted the narcotics with me. I was late coming in around 4:00 PM. The list contained residents located on the 700 hall with a number next to each name. No medication name was included on the list and Resident #3's name did not appear on this list.</p> <p>An interview was conducted with Nurse #2 on 12/07/21 at 1:57 PM. Nurse #2 confirmed that she was working on 07/19/21 from 7:00 Am to 3:00 PM on the 700 hall and at 3:00 PM Nurse #1 was scheduled to be at work but had called and stated she would be late. Nurse #2 stated that</p>	F 602	<p>To ensure that this alleged noncompliance will not recur, each business day, the ADON or designee will review controlled substance tracking in the electronic medical record to ensure that change of shift procedures was completed and there is no evidence of narcotic diversion based on the narcotic count. F 602	Continued From page 3 Nurse #3 counted the 700-hall medication cart with her. Nurse #2 confirmed that on 07/19/21 at 3:00 PM Resident #3's narcotic pain medication was in the narcotic drawer and the medication count was correct between herself and Nurse #3. Nurse #2 stated after she counted and reported off, she left the facility and returned on 07/20/21 at 7:00 AM for her shift. She stated Nurse #1 had worked third shift and they began to count the 700-hall medication cart. Nurse #2 explained that the narcotic count was conducted by using the computer system and verifying the medication in the drawer. She further explained that the off going nurse would be at the computer screen and the oncoming nurse would be in the drawer verifying the number of each narcotic medication for each resident. The number of pills was entered into the computer until all the medications had been counted and then each nurse would electronically sign that the count had been complete. Nurse #2 stated the computer system would tell you if there were any discrepancies or not. She added that during this count on 07/20/21 at 7:00 AM Nurse #1 (off going nurse) was at the computer system and was calling out names and she (Nurse #2) was at the drawer calling out the amount and then Nurse #1 would enter the number into the system. Nurse #2 stated that Nurse #1 did not call out Resident #3's name and there were no medications for him in the drawer. Nurse #2 stated she did not question this at the time because she assumed that the DON had removed them from the drawer since Resident #3 had been discharged from the facility. Nurse #2 stated that she proceeded to work her shift and at 3:00 PM on 07/20/21 Nurse #3 reported to work, and they began to count the narcotics on the 700-hall medication cart. He explained that when he could not locate the medication, he began his investigation and began obtaining statements from the involved staff members. The DON stated that on 07/19/21 Nurse #1 was going to be late for work and when she arrived at work, she failed to count the medication cart with another nurse and assumed responsibility of the medication without verifying that the count was accurate. When the DON was asked why he had not removed the narcotic medication for Resident #3 for a week the Administrator stated that at the time they had a vacancy in Assistant Directive of Nursing role, and it was workload issue and the DON just did not have the time to remove the medications. The DON stated when he was notified of the missing narcotic, he immediately began his investigation which included obtaining statements from involved staff, notifying the appropriate agencies, and searching for and trying to locate the missing narcotic. He added that he educated the 3 involved nurses on the expectation of how to count and when to count the narcotics and since this incident they have no issues with any further diversions of narcotic medications. The WN stated it was the same dressing she applied on Friday, 12/3/21 when she provided wound care and she was off over the weekend and Monday, and returned to work that day, Tuesday, 12/7/21. The WN stated she could not explain why Resident #6 did not receive wound care on Saturday, 12/4/21, Sunday, 12/5/21 or Monday, 12/6/21. The WN stated wound care should be provided by the charge nurse when the WN was off and that supplies were available, one cart was kept in the medication room on one unit and another cart was kept outside the door to the WN office. The WN stated that she stocked both carts with supplies and that the nursing assignment sheet documented when the WN was off. The WN further stated that Resident #6 had 2 wounds to his right foot and that both wounds were improving as evidenced by smaller measurements. The WN also stated that the WD ordered daily treatments to these wounds.</p> <p>A phone interview with Nurse #5 occurred on 12/8/21 at 4:37 PM. During the interview, Nurse #5 stated that she was the nurse assigned to care for Resident #6 on Saturday/Sunday, 12/4/21 and 12/5/21, 3 PM to 11 PM shift. Nurse #5 stated that she documented the MAR in error that she provided wound care on 12/4/21 to Resident #6. Nurse #5 stated that she did not provide wound care to Resident #6 that weekend because she did not receive report from Nurse #8, the previous nurse, that wound care had not been provided. Nurse #5 stated that she only worked with Resident #6 on the 3 PM to 11 PM shift on weekends and only provided wound care to him if the nurse told her that wound care was not provided on the previous shift or the dressing</p>	F 684

Nurse #8 stated that the Director of Nursing (DON) was aware of the concern with available wound care supplies and that the wound care supply cart was often scarcely supplied. Nurse #8 stated that she advised the oncoming charge nurse, Nurse #5, that she did not provide wound care to Resident #6 on Sunday, 12/6/21 because she did not have the supplies to provide the care.</p> <p>An interview occurred with the Nurse Practitioner (NP) on 12/7/21 at 1:04 PM. The NP stated that wound care was ordered by the WD as daily treatments for a reason and that the order for daily dressing changes to these wounds should be followed. The NP also stated that if access to supplies was an issue, supplies could be ordered that were more readily available, but whatever was causing the challenge with meeting the order should be addressed and that the WD order for wound care should be followed.</p> <p>A phone interview occurred with the WD on 12/7/21 at 1:17 PM. The WD stated that the wounds to the right foot of Resident #6 were initially assessed by the WD on 11/16/21 with an etiology of pressure, but after the results of the arterial study returned on 11/20/21, the WD updated his notes on the 11/23/21 assessment with the results of the arterial study. The WD stated that he was now certain that the etiology of these wounds was arterial. The WD further stated that the greatest problem with severe vascular disease was that it did not take much pressure to develop wounds under these conditions. The WD stated he expected Resident #6 to receive wound care daily as ordered, but that for this Resident, surprisingly the arterial wounds to his right foot were improving as the measurements were currently smaller and the wounds were without signs of infection.</p> <p>An interview with the DON occurred on 12/7/21 at 3:24 PM. The DON stated that when the WN was off, he expected the charge nurse to provide the wound care. The DON stated that if the charge nurse on the 7 AM - 7 PM shift did not provide the wound care, the charge nurse should report to the oncoming charge nurse so that the wound care could be provided on the next shift. The DON stated that he had been made aware that some residents were not receiving wound care on the days the WN was off, but he could not recall when this was identified. The DON stated that when this was brought to his attention, the nurses identified as not providing wound care received verbal re-education and that he had not continued to see this as a problem.</p>	F 684
