Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

| F 644  | <p>Continued From page 1</p> <p>facility failed to ensure a Preadmission Screening and Resident Review (PASRR), level II was completed after new mental health diagnoses for 1 of 3 residents (Resident # 80) reviewed for PASRR.</p> <p>The findings include:</p> <p>Review of Resident #60's medical record revealed the resident was admitted to the facility on 8/18/21 and a PASRR level I was completed. The resident was diagnosed with adjustment disorder with depressed mood on 05/30/23 and bipolar disorder on 06/19/23. No PASRR level II was completed.</p> <p>During an interview on 11/30/23 at 11:07 AM with the Social Worker (SW) she revealed a PASRR level II should be completed upon admission for residents with a mental health diagnosis and when a resident has had a change of condition or a newly added mental health diagnosis. She stated Resident #60 had been admitted to the facility from the hospital with a past diagnosis of bipolar disorder and assumed this diagnosis had been included in the preadmission Level I PASRR completed by the hospital. The SW revealed she was not aware the facility physician had made Resident #60 bipolar diagnosis active on 06/19/23 or her diagnosis of adjustment disorder with depressed mood on 05/30/23. She stated based on Resident #60's recent diagnosis of adjustment disorder and bipolar disorder a PASRR level II should have been completed.</p> <p>During an interview on 11/30/23 at 11:15 AM with the Administrator she revealed a PASRR level II should be completed in a timely manner upon admission for a resident with a mental health</p> | F 644   | <p>the time of findings. A new PASRR was obtained with corrected assessments on 12/7/2023.</p> <p>A 100% audit was completed on 12/1/2023 by the Social Worker and Administrator to identify any residents with newly evident or potential serious mental disorders, intellectual disabilities, related conditions, or with a significant change in assessment for a Level II PASRR review. Any residents identified with needing a Level II PASRR were reviewed and new FL2s and Screening Tools will be completed and submitted to NCMUST for review by 12/28/2023.</p> <p>Admissions Coordinator, Social Worker and the MDS Coordinators were educated 11/30/2023 by the Administrator on resident assessments and the requirements for PASRR screenings prior to a resident's admission to a Skilled Nursing Facility. A three step identification process was implemented on 12/4/2023 to ensure all residents admitting will have a correct PASRR. The three step process includes the following: 1. Admissions Coordinator reviewing new admit PASRRs, 2. SW monitoring all residents receiving psych visits/services for new diagnosis and ensuring admit PASRRs have correct listed diagnosis, 3. MDS notifying SW of significant changes on resident assessment. Any significant changes in assessment, residents receiving visits from psych services, or diagnosis of mental disorders, intellectual disabilities, or related conditions will be</p> |                      |   |
