Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

F 880	<p>Continued From page 9</p> <p>hands before donning clean gloves. The Director of Nursing removed the dressing from Resident #62's (2) stage 3 sacral pressure ulcers then doffed her gloves and washed her hands with soap and water after the end of the treatment. Nurse #2 cleansed the pressure ulcers with wound cleanser-soaked gauze from the inside outward and then doffed her gloves and without sanitizing her hands, donned clean gloves. Nurse #2 then applied the ordered dressing and an island dressing then doffed her gown and gloves and washed her hands with soap and water, gathered her supplies and trash and left the room.</p> <p>Multiple attempts were made to interview Nurse #2 but the attempts were not successful.</p> <p>Interviews were conducted with the Director of Nursing (DON) and the Administrator simultaneously on 03/27/25 at 1:42 PM. The DON explained she did not realize that Nurse #2 did not sanitize her hands between glove changes and stated she should have sanitized her hands after doffing her gloves and prior to donning clean gloves.</p>	F 880
