Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

F 641	<p>Continued From page 2</p> <p>An interview with Resident #61 on 05/12/25 at 11:30 AM was conducted. Resident #61 stated he needed all the lights on so that he could see. He stated he was nearly blind. Resident stated he had a reaction to cancer treatment to his brain and it affected his vision.</p> <p>An interview was conducted with the Social Worker Assistant on 05/15/25 at 10:25 AM. The Social Worker Assistant stated he was the one who completed the MDS assessment for vision and hearing and coded Resident #61's vision as adequate. He stated he was not made aware by the Resident that he was blind. The Social Worker Assistant stated he did not complete the care area assessment so he did not realize the resident had triggered for a vision care plan. The Social Worker Assistant stated he thought he had asked Resident #61 if he wore glasses and if he had any problems with his vision and he did not recall the resident saying he did. The Social Worker Assistant stated he did not remember if he was aware of the Resident's diagnoses or past history.</p> <p>A follow up interview was conducted with Social Worker Assistant on 05/15/24 at 1:15 PM. He stated he interviewed Resident #61 and Resident #61 shared with him that he was visually impaired. The Social Worker Assistant stated he should have coded the resident has having impaired vision and added, the resident had an issue with vision, and it was triggered on the CAA as a problem and should be reflected accurately on the vision section of the MDS assessment.</p> <p>An interview was conducted with the Administrator on 05/15/25 at 4:45 PM. The Administrator stated she expected the MDS</p>	F 641	<p>on the Minimum Data Set assessment. Results of the audits will be presented by the Director of Nursing in the monthly Quality Assurance and Performance Improvement (QAPI) Meeting monthly for three months. The Quality Assurance and Performance Committee will review the audits and make recommendations to assure compliance is sustained ongoing.</p>

F 695	<p>Continued From page 11</p> <p>following was included: 1 pair of shoes, 3 bibs, 8 shirts, 9 pair of pants, 1 underwear, 9 socks, 3 tanks. In the equipment section of the form the list included a knee Brace, phone and charger. In the other personals section, the list included CPAP, electric razor, shoe horn and wedge. The form was not signed by staff or resident.</p> <p>A physician note written on 11/27/24 revealed, in part, resident was feeling okay overall and denied any shortness of breath. Resident knew his history and had been asking about his prescribed medications. Resident stated he had obstructive sleep apnea and has a CPAP machine next to his bed but did not use it last night because it was too far away for him to reach. Resident stated he has had the same settings on his CPAP for four years and used the machine while in hospital with no changes. Will recommend he start CPAP at night.</p> <p>The Minimum Data Set admission assessment dated 11/29/24 revealed Resident #189 was alert and cognitively intact. Resident #189 was coded as having shortness of breath and required extensive assistance with one staff physical assistance with bed mobility, and supervision with two staff physical assistance with transfers.</p> <p>A physician note written on 11/29/24 revealed, in part, resident stated he has not used his CPAP as yet. Discussed CPAP issue with nursing and they will be getting a hold of resident's pulmonary doctor to see what his settings are supposed to be. Resident denied any current shortness of breath or complaints of pain. Resident stated he has had same settings for four years and used the CPAP machine while in the hospital with no changes. Will recommend he start CPAP at night</p>	F 695

F 695	<p>Continued From page 12 and discussed with nursing to reach out to his pulmonary doctor.</p> <p>Review of the hospital emergency room (ER) admission note on 12/02/24 revealed the resident presented with increased confusion. Resident had a history of sleep apnea and reportedly uses CPAP at night but did not use it last night (12/01/24). The emergency note indicated that "the facility reported resident was refusing CPAP, resident reported facility denied giving CPAP." Under the Past Medical History section of the ER note sleep apnea was listed as a diagnosis with a sentence in italics "pt. states that he does not wear CPAP." There were no other notes regarding use of CPAP at this local hospital.</p> <p>An interview was conducted with the Physician who wrote the progress notes on 11/27/24 and 11/29/24 on 05/14/25 at 11:20 AM. The Physician stated that anytime a resident was on a CPAP machine, the settings for the CPAP had to be ordered by a Pulmonologist. The Physician stated the nursing staff had called the pulmonologist and were waiting to hear back from the office to get the settings so that the order could be entered. The Physician stated he was not able to set the settings and although Resident #189 was aware of the settings for his CPAP, the settings needed to be confirmed with a pulmonologist. The Physician stated the nurses did their due diligence to obtain the settings. The Physician stated Resident #189 was discharged to the hospital for acute kidney injury and it was not related to not using his CPAP. The Physician also added that the resident was known to be non-compliant with the CPAP. The Physician stated when the resident was sent to the local hospital on 12/02/24 there were notes indicating</p>	F 695

F 695	<p>Continued From page 13 that he was non-compliant.</p> <p>An interview with a family member via phone on 05/14/25 at 2:44 PM stated Resident #189 was using the CPAP machine at the hospital prior to his admission to the facility and he was admitted to the facility with his CPAP machine. The family member stated whenever she visited, the CPAP machine was unplugged and Resident #189 stated he had not been using it. The family member stated Resident #189 had been using the CPAP for 4 years and used it every night.</p> <p>An interview was attempted with Nurse #6 who worked with Resident #189 on the night of 11/27/24 and 11/29/24. A voicemail message and text message were left for a returned call on 05/15/25 at 10:17 AM. Nurse #6 did not response to voicemail message or text message.</p> <p>An interview was conducted with the Unit Manager on 05/15/25 at 12:45 PM. The Unit Manager stated there were no orders for the residents' CPAP so the nursing staff could not allow the resident to use it. She stated there were no orders written on the discharge summary from the hospital. The Unit Manager stated she believed the resident was not admitted with the CPAP and that the family member had brought it in a couple days after Resident #189 was admitted. She stated the family member gave her the number to the Pulmonologist. The Unit Manager stated she tried to contact the Pulmonologist to get the settings for the CPAP machine and had left a message but no one returned her call. The Unit Manager stated she only tried one time to reach the Pulmonologist. She stated she did not remember who the Pulmonologist was, which day she tried to call or</p>	F 695

F 695	Continued From page 14 the phone number of the pulmonologist, but that it was in Onslow County. The Unit Manager stated she should have followed up with the pulmonology office, but the resident was discharged after only a short stay at the facility.  An interview was conducted with the Director of Nursing on 05/15/25 at 4:30 PM. The Director of Nursing stated she believed that the family brought the CPAP in after the resident was at the facility for a few days and that he was not admitted with the CPAP. She stated she thought the nurses were making an effort to reach the Pulmonologist to get the settings for the CPAP machine and did not realize the Unit Manager only tried once. The DON stated she would have expected the nursing staff to follow up with the Pulmonologist until they obtained the settings for the CPAP.	F 695

F 880	<p>Continued From page 21</p> <p>Findings included:</p> <p>The facility's Guidelines for Preventing Intravenous Catheter-related Infections Policy dated April 2017 indicated in part that aseptic technique (a set of techniques used to prevent contamination of objects with microorganisms) shall be observed at all times when working with IV (intravenous) equipment and that all times equipment shall remain aseptic (free from microorganisms) and if it becomes contaminated it must be changed. Hand hygiene is to be completed either by hand washing or with alcohol-based hand rub before and after intravenous catheter care. Clean, non-sterile gloves are to be worn.</p> <p>The facility's Enhanced Barrier Precautions policy dated 3/20/24 revealed it was the policy of the facility to utilize Enhanced Barrier Precautions (EBP), an infection control intervention intended to prevent the transmission of multi-drug-resistant organisms (MDRO's) via contaminated hands and clothing to high-risk residents. Enhanced Barrier Precautions were indicated for high contact care activities for residents with wounds or indwelling medical devices including central lines and gastrostomy feeding tubes and required hand hygiene before and after leaving the room and the use of gloves and a gown.</p> <p>1. Observation of Resident #46's room on 5/13/25 at 2:50 PM revealed that there was no signage outside the resident's room indicating that Enhanced Barrier Precautions (EBP) were to be used.</p> <p>An observation was conducted with Nurse # 4, the nurse assigned to Resident #46 on 5/13/25 at</p>	F 880	<p>when providing care for residents on Enhanced Barrier Precautions.</p> <p>2. On or before 6/10/25 residents with PICC lines and residents who meet the requirement for Enhanced Barrier Precautions have been identified through medical record review by the Director of Nursing, Assistant Director of Nursing, Infection Preventionist, or designated member of the Nursing Administration Team as having the potential to be affected by this deficient practice. On 5/15/25 the DON or Infection Preventionist validated each identified resident had Enhanced Barrier Precautions signage on the resident room door.</p> <p>3. On or before 6/10/25 the Director of Nursing, Assistant Director of Nursing, Infection Preventionist, Unit Managers, or Nursing Administration Supervisors will educate Nursing staff including Licensed Nurses and Certified Nursing Assistants on adhering to Infection control guidelines for Enhanced Barrier Precautions, Prevention of Infection, and Usage of Gloves/Personal Protective Equipment. Competencies on Infection Prevention, use of gloves and hand-washing will be conducted by the Nursing Administration Team to include the Director of Nursing, Assistant Director of Nursing, Infection Preventionist, Unit Managers, or Nursing Administration Supervisors upon hire during orientation and annually for all Licensed Nurses and Certified Nursing Assistants. During orientation and</p>

F 880	<p>Continued From page 22</p> <p>2:50 PM. Nurse #4 entered Resident #46's room to administer the normal saline and heparin flushes, a procedure to maintain patency of the PICC line, following the completion of the intravenous antibiotic. Nurse #4 entered Resident #46's room with gloves on. Nurse #4 with gloved hands opened the drawer to resident's bedside table to obtain alcohol wipes and a cap for the resident's peripherally inserted central catheter. Nurse #4 did not change gloves after touching the items in the bedside table. Nurse #4 disconnected the intravenous tubing and administered the normal saline and heparin flush via the PICC line with the same gloves on, opened the new cap and applied it to the end of the tubing.</p> <p>An interview with Nurse # 4 on 5/13/25 at 3:00 PM revealed she was unaware that she was supposed to wear a protective gown while performing procedures involving a PICC line. Nurse #4 stated she went by the sign outside the door to know if a resident required any type of precautions while providing care. Nurse #4 stated she thought precautions were required for residents with wounds and Clostridium difficile (C. diff) but she did not know if a PICC line or any drains or tubes required precautions. Nurse #4 stated she did not realize she should have changed gloves after obtaining the items from the bedside table or that she should have had the needed supplies prior to beginning the procedure. Nurse #4 stated she received training on the computer and by the Infection Preventionist regarding Enhanced Barrier Precautions and that she worked at the facility since September of 2024.</p> <p>An interview with the Assistant Director of Nursing</p>	F 880	<p>annually Licensed Nurses will be assessed for PICC Line competencies skills by the Nursing Administration Team to include the Director of Nursing, Assistant Director of Nursing, Infection Preventionist, Unit Managers, or Nursing Administration Supervisors. As a new practice, Monday – Friday in the Clinical Morning Meeting the Director of Nursing, (DON), Assistant Director of Nursing (ADON) or Nursing Administration Designee will audit physician's orders to validate resident's with physician orders for PICC lines also have orders for Enhanced Barrier Precautions. Follow up will be conducted, as needed, by the Nursing Administration Team.</p> <p>4.Weekly for twelve weeks the Director of Nursing (DON), Assistant Director of Nursing (ADON) or Nursing Administration Designee will audit each resident with a PICC Line to validate the resident has physician orders for Enhanced Barrier Precautions. Weekly for twelve weeks the Director of Nursing (DON), Assistant Director of Nursing (ADON) or Nursing Administration Designee will perform random observation audits of two different Licensed Nurses caring for residents' who have PICC Lines to validate infection control protocols are followed when caring for a PICC line. Weekly for twelve weeks the Director of Nursing (DON), Assistant Director of Nursing (ADON) or Nursing Administration Designee will perform random observation audits of each resident with physician orders for Enhanced Barrier Precautions to validate Nursing staff is adhering to Enhanced</p>

F 880	<p>Continued From page 23</p> <p>was conducted on 5/14/25 at 5:00 PM. The Assistant Director of Nursing stated the staff should follow the EBP and wear the personal protective equipment as designated for care activities including intravenous catheter care and turning and repositioning as well as handling of bed linens.</p> <p>An interview with the Unit Manager on 5/15/25 at 10:15 AM revealed that precautions were determined based on the residents' condition. The Infection Preventionist determined what type of precautions were required and placed the signage outside the resident rooms. The Unit Manager stated that a resident with a PICC line should be placed on Enhanced Barrier Precautions and a mask, gown and gloves were required to provide PICC line care. The Unit Manager indicated that she did not know why Resident #46 was not placed on precautions.</p> <p>An interview was conducted with the Wound Care Nurse on 5/15/25 at 12:30 PM. The Wound Care Nurse revealed that residents with open wounds and invasive lines such as a PICC line required Enhanced Barrier Precautions. The Wound Care Nurse stated she reviewed the residents with wounds weekly with the Infection Preventionist to ensure that residents were placed on precautions as needed. The Wound Care Nurse indicated that Resident #46 should have been placed on Enhanced Barrier Precautions, and she did not know why he was not.</p> <p>An interview with the Infection Preventionist on 5/15/25 at 1:00 PM revealed that she was in the position for nearly a year. She stated she was also the Staff Development Coordinator (SDC) and was responsible for staff education and</p>	F 880	<p>Barrier Precautions during provision of care. While performing audits; if noncompliance has resulted, then immediate correction with be initiated and Licensed Nursing and or Nursing Assistants will be removed form assignment until and one on one education was provided by the Director of Nurses/Assistant Director of Nurse and or Nurse Management Designee to ensure compliance has been met in adherence to Enhanced Barrier Precautions Protocols. Results of the audits will be presented by the DON in the monthly Quality Assurance and Meeting monthly for three months. The QAPI Committee will review the audits and make recommendations to assure compliance is sustained ongoing.</p>

F 880	<p>Continued From page 24</p> <p>training. The Infection Preventionist stated the nursing staff were educated regarding Enhanced Barrier Precautions through in-person and on-line in-services. The Infection Preventionist stated Nurse #4 should have worn a protective gown while performing PICC line care for Resident #46.</p> <p>An interview was conducted with the Director of Nursing (DON) on 5/15/25 at 1:30 PM. The DON stated that she expected that appropriate personal protective equipment would be used when providing care to a resident with a peripheral intravenous central catheter. The DON indicated that the PICC line was invasive and presented an increased risk of infection therefore Enhanced Barrier Precautions should be maintained. The DON indicated that she was not aware of the training provided or verification of skill to provide intravenous care.</p> <p>2. A blue Enhanced Barrier Precautions (EBP) sign was noted outside Resident #7's door on 5/13/25 at 1:25 PM. The sign read in part, "Everyone must clean hands before entering and after leaving the room ...Wear gown and gloves for the following High Contact Resident Care Activities which include: Dressing, bathing/showering, Transferring, changing linens, changing briefs or assisting with toileting, and Device care or use; central lines, urinary catheter, feeding tubes, tracheostomy, Wound care: any skin opening requiring a dressing.</p> <p>An interview and observation was conducted on 5/13/25 at 1:30 PM with Nursing Assistants (NA) #2 and NA #4. Resident #7 requested to be moved up and repositioned in bed prior to eating her lunch. NA's #2 and NA #4 were observed entering Resident #7's room and did not wash</p>	F 880

F 880	<p>Continued From page 25</p> <p>their hands and did not don gowns or gloves. NA #2 and NA #4 approached Resident #7's bed with no Personal Protective Equipment (PPE) on and with one NA on each side of the bed used the draw sheet, a sheet placed under the resident's mid-section, standing close to the resident, grabbed the sheet and moved the resident up towards the head of the bed. The NAs adjusted Resident #7's pillows, elevated the head of the bed and exited the room. After exiting the room, the NAs applied alcohol based handrub to their hands. NA #2 and NA #4 stated they thought repositioning a resident using a draw sheet wasn't direct care and did not require PPE. NA #2 and NA #4 stated they had received training regarding Enhanced Barrier Precautions, but it was confusing which activities required PPE. Handling bed linens and high contact care activities required PPE according to the EBP signage.</p> <p>An interview with the Assistant Director of Nursing was conducted on 5/14/25 at 5:00 PM.
