Agency Report on the Petition  
Petition

Related to Projected Home Health Need Determinations

Table 12A: Home Health Data by County of Patient Origin – 2007  
Data

Table 12B: Average Annual Rates of Change in “Patients” and “Use Rates per 1000 Population”

Table 12C: 2010 Need Projections for Medicare-Certified Home Health Agencies or Offices

Based on application of the current methodology and use of current population estimates and projections, there would not be a need determination for a new Medicare-Certified Home Health Agency or Office anywhere in the State.

Based on application of Policy HH-3, there would be a need determination for a new Medicare-Certified Home Health Agency or Office in Granville County.

---

**HOME HEALTH TASK FORCE**  
**Report to Long-Term and Behavioral Health Committee of the**  
**North Carolina State Health Coordinating Council**  
**May 16, 2008**

On September 26, 2007, based on the recommendation of its Long-Term and Behavioral Health Committee, the State Health Coordinating Council authorized the formation of a Home Health Task Force to make recommendations for the 2009 State Medical Facilities Plan.

A seven member Task Force was formed and met twice. The group included Council member Charles Hauser as Chairman, and Council members Senator Tony Foriest and Jerry Parks. Also represented was Medicare-Certified Home Health, Licensed Home Care (not Medicare-Certified), and the medical community. Timothy Rogers, Council member and Chief Executive Officer of the Association for Home and Hospice Care of North Carolina served as a home health industry expert resource. Resource people were also available representing the Division of Aging and Adult Services, Division of Medical Assistance, and the Division of Health Service Regulation Certificate of Need and Acute and Home Care Licensure and Certification Sections. The meetings were open to and attended by members of the public

At its first meeting, the Task Force considered a variety of information and topics. The Task Force wishes to thank, in particular, Mr. Rogers for arranging for presentation of an Overview of the Home Health Industry and Medicare Reimbursement by William Dombi, Vice-President for the National Association for Home Care and Hospice and Director of the Center for Health Care Law. Also provided for Task Force consideration was information on: the Basic Principles Governing Development of the State Medical Facilities Plan (SMFP), the current SMFP Home Health Service Policy and Methodology, utilization trends; methodologies from other states; recent petitions for changes in the methodology, policy or need adjustments; and, the Program for the All-Inclusive Care of the Elderly and Medicaid utilization. The Task Force heard from Mr. Ivans Belovs who had submitted three petitions over the past few years. Information needs were identified including: an analysis of the outcome if recommendations of the Council's 2004 Home Health Task Force had not been adopted; and, identification of counties served by each Home Health Agency based on data reported in the 2008 SMFP. Also, a sub-group was identified to look at a proposal that had been considered by the 2004 Task Force regarding need determinations, under defined conditions, in counties with large populations.

At its second meeting, the Task Force formulated the following recommendations. It is noted that the three basic principals governing development of the State Medical Facilities Plan were considered in the development of these recommendations. The principals concern promotion of cost effective approaches, expanding services to the medically underserved, and encouraging quality services. Further, development of the recommendations included discussion of county versus regional need determinations, need determinations focused on counties with the largest population size and special need populations. It is noted that the Task Force elected not to make any recommendations with regard to Policy.

### Recommendation Regarding Methodology

The deficit threshold has been 400 patients since 2005. From 1996 to 2005, the deficit threshold had been 250. Viability of a Home Health agency was a factor considered in selecting 250 patients as the threshold for a need determination for the 1996 Plan as was 400 patients for the 2005 Plan. The Task Force considered changes in the reimbursement system and information related to viability. Viability of existing and new agencies can contribute to cost effective care to the under served in a quality manner.

Recommendation: The Task Force unanimously recommends: 1. the methodology be revised to lower the deficit threshold for a need determination and the "placeholder" adjustment for a new agency from 400 patients to 275; 2. the need determination threshold be reviewed again in five years; and, 3. an item "d" be added to item 8 of the Basic Assumptions of the Method to read, "address special needs populations."

The Task Force views 275 as a reasonable threshold for a need determination in a county based on the standard methodology. Regarding the recommendation, it is noted: if the deficit threshold had been 275 versus 400 since 2005, there would have been need determinations in Mecklenburg and Wake counties which are the same two counties that had need determinations at the 400 patient deficit threshold; 275 recognizes the need for consideration of financial feasibility; new home health agencies may increase their patient population over time; a 400 patient deficit may be viewed by some as a relatively high target that could affect the ability for need determinations to be identified; based on data reported in the 2008 SMFP, there are approximately 20 agencies that reported serving between 200 and 299 patients in the county in which their agency office is located and that the average number of patients for this group was 267; and, it may be possible for an agency to operate without being affiliated with or a part of a larger organization.

The Task Force considers it worthwhile to encourage home health applicants to address special needs populations. Factors that may be considered could include clinical, economic and societal factors within a particular proposed service area. Therefore, the Task Force recommends that an item "d" be added to item 8 of the Basic Assumptions of the Method to read, "address special needs populations."

Item 8 of the Home Health Services Basic Assumptions of the Method currently reads as follows:

8. The North Carolina State Health Coordinating Council encourages home health applicants to:
  - a. provide an expanded scope of services (*including nursing, physical therapy, speech therapy, and home health aide services*);
  - b. provide the widest range of treatments within a given service; and
  - c. have the ability to offer services on a seven days per week basis as required to meet patient needs.

## **AGENCY Report:**

### **Proposed 2009 Plan**

Notes related to **Home Health Petition** from Granville-Vance District Home Health Agency

---

#### **Request**

Granville-Vance District Home Health Agency submitted a Petition requesting:

*" . . . a policy amendment to allow home health agencies that operate within a multi-area District Health Department to have the option of having their office located in the county which best serves both them and their clients. . . . I strongly recommend that you amend the present policy to allow District Health Department home health agencies to be considered located in each county served regardless of physical location."*

#### **Background Information**

The 2008 State Medical Facilities Plan has one policy, Policy HH-3, regarding Medicare-Certified Home Health Agencies. The Policy is located on page 26 of the Plan. The Policy describes circumstances that will result in a need determination being made for a Medicare-Certified Home Health Agency in a county. Based on the Policy, there will be a need determination in the Proposed 2009 Plan for Granville County. This need determination is based on the fact that Granville County does not currently have a Medicare-Certified home health agency office physically located within the county's borders and the population is more than 20,000 people. The population of Granville County is projected to exceed 56,000 people by 2010 which is the plan year for the Proposed 2009 Plan.

Policy HH-3 was first introduced in the 2005 State Medical Facilities Plan. Prior to 2005, the Plan contained two policies regarding need determinations for new home health agencies in counties that did not or would not have a home health agency office located in the county due to closure of the only agency in the county. Under the prior policies, need determinations would be made regardless the size of the county's population or distance from an agency in another county. If these policies had remained in effect, need determinations would be identified in three counties that do not currently have an agency or office located in the county. The counties are Graham, Granville and Pamlico.

#### **ANALYSIS OF PETITION**

There are six district health departments in the State covering 21 counties. They are: Albemarle (Bertie, Camden, Chowan, Currituck, Gates, Pasquotank, Perquimans); Appalachian (Alleghany, Ashe, Watauga); Granville-Vance; Martin-Tyrrell-Washington; Rutherford-Polk-McDowell; and, Toe River (Avery-Mitchell-Yancey). The role of the district health departments in the provision of home health services is substantial. In as many as 14 of these 21 counties the district health department affiliated home health agency is the only agency physically located in the county.

In order for there to not be a need determination in the Proposed 2009 Plan for a new Medicare-Certified Home Health Agency office in Granville County, the 2008 Plan would need to be amended. Chapter 2 of the 2008 Plan indicates that after the Plan has been signed by the Governor, it will be amended only as necessary to correct errors, to respond to statutory changes, amounts of legislative appropriations or judicial decisions. The petition does not appear to address these circumstances. Further, the process for amendment calls for a public hearing to be held and the Council to recommend changes it deems appropriate for the Governor's approval.

Agency Recommendation

The Agency supports the current Policy. The Agency recommends that the petition be denied. It is noted that the Petitioner can submit a petition following publication of the Proposed 2009 Plan requesting that the need determination for a new home health agency office in Granville County be removed from the 2009 Plan.

## Petition for Amendment and Revision to the State Medical Facilities Plan

W. Rodwell Drake, Jr., MD  
Granville-Vance District Health Director  
[rdrake@gvdhd.org](mailto:rdrake@gvdhd.org)  
252-492-7915 or 919-693-2144

North Carolina Division of Health Service Regulations  
Medical Facilities Planning Section  
2714 Mail Service Center  
Raleigh, NC 27699-2714

Granville-Vance Home Health Agency, a division of the Granville-Vance District Health Department, is requesting a policy amendment to allow home health agencies that operate within a multi-area District Health Department to have the option of having their office located in the county which best serves both them and their clients. The present policy does not properly address home health agencies operating in Health Districts.

Our Agency changed its physical location in January 2007 from Granville County to Vance County because of need for space, both in home health and in the health department. This has proven to be a cost-effective, efficient move for both and has not affected access to client care. Since care is provided in the home, it is not necessarily dependent upon office location and in fact, in our case we can just as easily provide services from our current location as well as actually increase services in Granville and Vance Counties because of more appropriate office space and increased efficiency. Our location is in the former Vance County Mental Health facility and was offered to us rent free. We are located 3.5 miles from the Granville County line and only 10 minutes from our former office.

We continue to maintain the same services in Granville County as we have for the last 34 years. The number of patients served in Granville County is twice the number served in Vance County and over the thirteen months since our location change the ratio has remained the same. I strongly recommend that you amend the present policy to allow District Health Department home health agencies to be considered located in each county served regardless of physical location.

We notified DFS of our plans and address change prior to our move which, of course, was no problem because we are licensed to provide services in both counties. Not until thirteen months later were we informed of the possibility that our move might precipitate a "determination of need" which could allow another home health agency to locate in Granville County. Since no change in "need" was created by our move it would seem appropriate to amend the policy, which in this case does not seem to be very sensible. I appreciate your consideration of this petition.

W. Rodwell Drake, Jr., MD  
Granville-Vance District Health Director

\* Adjustments for "Active Duty Military Personnel" have been applied to the "Age 18-64" population projections for these counties.

\*\* A projected deficit of 400 patients is the threshold of need for a new home health agency or office.
