RE: Letter of support for J. Arthur Doshier Memorial Hospital's 2017 Spring Petition for Change in 2018 Proposed North Carolina State Medical Facilities Plan regarding Operating Room Methodology and Policies

Dear Dr. Ullrich and Ms. Bennett,

Please add my support to the petition from J. Arthur Doshier Memorial Hospital (Doshier) for new methodology and policy in the *2018 Proposed North Carolina State Medical Facilities Plan (SMFP)* regarding Operating Rooms.

As a property owner in Bald Head Island, I support Doshier's petition that will help protect Critical Access Hospitals across North Carolina. I am aware of a recent batch certificate of need applications regarding operating rooms in Brunswick County. Should approval be granted, Brunswick County will have what amounts to a third hospital. This will put unnecessary stress on Doshier's limited resources. Doshier's petition is a simple approach to protecting other Critical Access Hospitals from facing a similar fate.

I ask that the State Health Coordinating Council carefully consider Doshier's petition and the impact it could have to our state, and then approve this request.

Sincerely,

(Signature)
