D011	Continued From page 15  and full recognition of his or her individuality as evidenced by the failure to have individual assessments regarding the provision of knives for eating and using a blanket physician order to prohibit the provision of knives based on residents' diagnoses of mental health and no individual assessments, and failed to ensure placement for one resident in the secured unit was appropriate.  The findings are:  1. Based on observations, interviews, and record reviews, the facility failed to assure the place setting for all residents included a knife, fork, and spoon without an assessment of each resident and exceptions made on an individual basis [Refer to Rule 10A.NCAC 13F .0904(b)(2)].  2. Based on observation, interview and record review, the facility failed to ensure placement of one resident (#2) to the secured unit was appropriate as evidenced by the resident's diagnoses and cognitive functioning [Refer to Rule 10A.NCAC 13F .0909 (Type B Violation)].	D911	- Full place settings are provided, now - until physician provides individual assessments for each resident, individually. Someone/staff always in dining room of course - during service to supervise.  - Better care + research will be done during potential admit/admit process. Currently working with Administrator regarding appropriate placement tool. Looking at age demographic, diagnosis, history + physical as well as cognitive functioning screen.	7/22/16  7/22/16
