D 079	Continued From page 11 8/31/16 at 9:30am revealed: -A resident had fell on the toilet paper holder in the shower room near resident room #611. -The toilet paper holder had been removed to prevent anyone else from getting hurt. -The PCA did know anything else about the incident. -The PCA did not know if the broken toilet paper holders in resident rooms #606, #613 and #616 were going to be replaced also. Interview with a housekeeper on 8/30/16 at 11:44am revealed: -The housekeeper normally worked on the Assisted Living (AL) side and did not usually work in the Memory Care Unit (MCU). -The housekeeper had not noticed the broken towel rack in resident room #611. Interview with a second housekeeper on 8/31/16 at 9:45am revealed: -Staff was expected to report housekeeping needs to the housekeeper or the Maintenance person. -The broken toilet paper holders had been that way for more than 4-5 months. Interview with the Maintenance person on 8/30/16 at 12:15pm revealed: -He had worked at the facility for the last 4 years and had become the Maintenance person 3 months ago. -He was not aware of the broken towel rack and toilet paper holders. -Staff normally made the Maintenance person aware of repair issues and concerns. Interview with the Maintenance Person on 9/1/16 at 8:55am revealed: -He could not recall the details but he did	D 079	POC continued from page 11 New Licensee implemented a centrally coordinated building maintenance program, which consists of an electronic work request that's submitted into an Mpulse system by the Executive Director or designee. This system generates a work order for maintenance personnel. Capital repairs are coordinated by the Maintenance District Manager and Capital Asset Manager. Emergency repairs are managed in a quick efficient manner to ensure the health and safety of residents. System implemented on 10/1/16 and will be monitored by the Executive Director, Maintenance District Manager and the Maintenance Regional Director to ensure timely repairs. Concerns will be addressed with the Regional Director of Maintenance. System implemented:	9/9/16

D 079	Continued From page 12 remember being instructed to remove the toilet paper holder out of the shower room so no one else would get hurt. -He could not remember who instructed him or which resident got hurt. -He was instructed to remove the toilet paper holder and place a new one further back on the wall more than a month ago during the morning meeting. Interview with the Resident Care Coordinator (RCC) on 9/1/16 at 2:00pm revealed: -The RCC requested Maintenance remove the toilet paper holder and place a new one because Resident #15 was injured on the old toilet paper holder. -Resident #15 was in the bathroom with the personal care aide (PCA) when she lost her balance and hit the toilet paper holder resulting in a skin tear to her arm. -The RCC was not aware of any concern with the broken toilet paper holders in resident rooms #606, #611, #613 and #616. 2. Observations on 8/31/16 between at 9:56am revealed: -There was 1 light switch and 4 electrical outlets without a protective cover in resident room #508. Interview with the Maintenance Person on 8/31/16 at 4:45pm revealed: -He was aware of the missing light switch and outlet covers in resident room #508. -He was aware of the potential danger of exposed wiring. -The covers were removed for insect extermination purposes last week (8/24/16). -The Maintenance person had a number of ongoing repair issues he was attending to.	D 079	POC continued from page 12 Maintenance work order requests are available for staff to complete and submit to the Executive Director which will be entered into the Mpulse System. Upon notification, the New Licensee immediately inspected and replaced the electical outlet covers in room #508. The light switch cover had already been replaced.	10/1/16 9/3/16

D 079	Continued From page 13 Observation on 9/2/16 at 3:15pm revealed: -The light switch cover and 1 outlet cover had been replaced in resident room #508. -There were 3 electrical outlets still without a cover in resident room #508. Interview with the Maintenance Person on 9/2/16 at 4:51pm revealed: -He was aware the outlet covers needed to be replaced in resident room #508. -He had started replacing them and got pulled away for another repair. 3. Observations on 8/31/16 at 9:30am revealed: -The toilet in resident room #612 had urine, stool and tissue in it. -The common shower room near resident room #611 had an "out of order" sign on the door. Observation on 9/1/16 at 5:28am revealed: -The "out of order" sign remained posted on the common shower room near resident room #611. -The door to the common bathroom was unlocked. -There was a toilet lying on its side on the bathroom floor detached from the plumbing. Observation on 9/2/16 at 4:51pm revealed the Maintenance Person was working on the toilet in the common bathroom near resident room #611. Interview with a personal care aide (PCA) on 8/31/16 at 9:30am revealed: -The PCA was not aware the toilet was obstructed with stool and tissue in resident room #612. -The resident put things in the toilet "stopping it up all the time." Interview with a second housekeeper on 8/31/16	D 079	POC continued from page 13 Executive Director and Department Heads will monitor to ensure bathrooms, toilets are maintained in good working order. Routine repairs will be handled through the Mpulse system and urgent needs with be called into the District Maintenance Manager to address.	10/1/16

D 269	Continued From page 22 care to residents according to the residents' care plans and attend to any other personal care needs residents may be unable to attend to for themselves. This Rule is not met as evidenced by: TYPE A1 VIOLATION Based on observations, interviews and record reviews, the facility failed to provide personal care assistance with transferring, ambulation, toileting, bathing and mouth care for 6 of 15 sampled residents (#1, #2, #4, #5, #11 and #15) resulting in a resident found with partially dried feces in her mouth, a high volume of unwitnessed falls in resident bathrooms and bedrooms with related injuries (broken bones, lacerations and hematomas), skin breakdown and residents with body odor, dirty nails and unclean clothing for several days at a time. The findings are: Telephone interview with a family member of a resident on 9/6/16 at 4:01pm revealed: -The family member observed there were residents who did not eat dinner frequently. -Residents would sit at the table and not eat anything. -Staff would ask the resident if they were going to eat and the resident would say no. -Staff would just throw the food away without trying to encourage or assist the resident to eat. Confidential interview with a staff revealed: -Staff on all shifts did not do what they were supposed to do to care for residents and frequently left it for the next shift.	D 269	POC continued from page 22 10 A NCAC 13F .09019(a) Personal Care and Supervison The state complaint investigation and follow up survey was inititated prior to the new licensee assuming responsibility for daily and clinical operations. New Licensee realigned structure, supervision & monitoring of daily operations as of 9/1/16. Monitoring will include, but not limited to: RN's, LPN's, Clinical Support Team,Quality Assurance Team, Regional Director of Operationsand Vice President of Quality Assurance and Regulatory Compliance.	Completion Date: 10/9/16

D 269	Continued From page 23 -Staff would start their shift and find residents' incontinence briefs were soaking wet; so you knew they had not been changed in a while. -These concerns were reported to the Supervisor on duty and/or the Resident Care Coordinator (RCC). -There was nothing to do about residents being soaking wet because the staff had already left and it would just be the same thing the next day. -Staff in general were drained because they were forced to stay and work 12 and 16 hours a day to cover short shifts. -The facility had a lot of falls which came from staff not taking care of and observing the residents. -There was a pattern at the facility where so many residents had fallen and had not come back [died] from their injuries. Interview with a personal care aide (PCA) on 9/1/16 at 6:32am revealed: -The normal 3rd shift routine was to check residents every 2 hours. -Residents were checked to make sure they were still breathing and they were not soaking wet. -Residents were checked when the PCAs first came on duty at 11:00pm, then at midnight, 2:00am, 4:00am and 6:00am. -Residents were showered according to the shower schedule. Interview with a second PCA on 9/6/16 at 4:35pm revealed: -The PCA would still attempt to provide care for any resident who may not like the PCA. -If a coworker was having trouble with a resident, the PCA would help them with that resident and the coworker would help the PCA with one of their residents. -Residents were checked every 30 minutes.	D 269	POC continued from page 23 New Licensee immediately began an intense recruitment, orientation, training regimen,implemented new policies, procedures and programs to address the needs of residents. Exisiting and new employees are required to participate in these training programs as required and determined by position. The training program includes, but are not limited to: -Personal hygiene, dignity & respect -Resident Rights reviewed -Toileting, bathing, nail & oral hygiene -Memory Care orientation -Bathing without a battle/dementia care -Accepting the challenge/dementia care -Nutrition and skin care -Transferring, ambulation, fall preventative measures, environmental contributing factors -Fall Management Program -Fall risk assessments & identification -Incident and accident reporting and health care follow up Training initiated on 9/1/16 and continued thru 10/9/16. Additional training continued on page 25. CORRECTION DATE:	10/9/16

D 270	Continued From page 93 wheelchair and staff were to assist. -The resident had limited range of motion in upper extremities. -The resident was incontinent of bowel and bladder and staff had to assist with incontinence care. -The resident complains of pain and inability to stand up. -The resident required extensive assistance with bathing, dressing, toileting, grooming, personal hygiene, and ambulation (staff assists with wheelchair). -The resident's ambulation was limited ability due to fall risk and unsteady gait. -The resident was always disoriented and had significant memory loss and must be redirected. Review of the special care unit progressive profile for Resident #6 revealed: -On 08/11/15, the resident was noted to have a history of falls. -On 05/25/16 and 08/11/16, the resident was noted to fall frequently. Review of facility progress notes for Resident #6 revealed: -08/24/16 (11 - 7 shift): The resident was observed on the floor by her bed. The resident's right hip was turned outwards. Vital signs were unable to be taken. The family and physician were notified. Emergency Medical Services (EMS) was called and the resident was taken to the hospital. -08/24/16 (1:00 p.m.): The nurse at the hospital called the Resident Care Coordinator (RCC) regarding the resident. The resident was a candidate for surgery due to right broken leg. The RCC voiced that the resident transferred self from bed to chair and from chair to chair as nurse asked about ambulation. D 270	Continued From page 100 Risk Management RN on the Quality Assurance Report. Interviews with the Interim / Acting Administrator on 8/31/16 at 5:15 p.m. and 6:31 p.m. revealed: -The facility's policy and procedure for managing and preventing falls was no longer available in the facility. -The bottom of the incident / accident reports had a list of interventions and the staff were supposed to document the interventions on that form. -Staff do not always document like they were supposed to. -They also have a family intervention discussion agreement that was completed upon admission for all residents. -All staff at the facility [Assisted Living and Memory Care] were expected to check residents at least every 2 hours. -The MCU staff to resident ratio was 1:8, so they were expected to always know where the residents were. -If a resident was a fall risk, staff wassupposed to be doing 30 minute checks and documenting. -There was always 1 supervisor on duty for the entire facility [Assisted Living and Memory Care]. -The Supervisor was responsible for making sure staff knew what to do and that they were doing it. Interview with the former Interim / Acting Administrator on 9/2/16 at 9:02am revealed: -Facility incident reports were sent to the Registered Nurse (RN) in charge of Risk Management at the headquarter offices. -The incident reports were entered into a computer system along with any intervention recommended by the Risk Management RN. -If the intervention was documented in capital letters that indicated the Risk Management RN contacted the facility by phone to discuss. D 270	Continued From page 101 -The Risk Management RN, Administrator and Resident Care Coordinator (RCC) conducted a meeting each month to review incident reports and recommended interventions. Interview with the former Interim / Acting Administrator on 9/9/16 at 12:55pm revealed: -The Administrator would do a walk through in the MCU at least daily and if any concerns were observed, the Administrator would address it at that time. -The Administrator had concerns about the residents in the MCU being in the common areas with no supervision while staff was in residents' rooms performing resident care. -The Administrator expected staff to supervise residents in the MCU in the common areas at all times. -She addressed this concern with staff in the MCU at least once or twice. -The Administrator was not aware of the number of falls and serious outcomes from January 2016 through June 2016. -The Administrator was only aware of the incidents which occurred after she started working at the facility 6/20/16. -The Administrator became aware of the total number of falls when printing the Risk Management report on 8/31/16. -Staff were expected to document all falls, complete an incident report and notify the family. Review of the facility's Plan of Protection dated 8/31/16 revealed: - Supervision will increase to every 30 minutes for memory care residents effective 8/31/16. -Fall management program will be implemented to include and not limited to: - Fall risk assessments by nurse on all memory care residents. D 273	Continued From page 113 -On 09/15/15, the resident was noted to ambulate unassisted at time and to fall frequently. -On 08/11/16, the resident was noted to require a device for ambulation and assistance with ambulation. Review of facility progress notes for Resident #3 revealed: -04/30/15: The resident fell today around 4:30 p.m. and was sent to the emergency room (ER). The resident had no injuries and per hospital, a seizure caused the fall. -08/20/15: The resident slipped out of a chair in the television (tv) room and had no injuries. Review of an emergency medical services (EMS) report dated 01/05/16 for Resident #3 revealed: -The dispatch call was received at 9:30 a.m. and EMS arrived on scene at 9:37 a.m. -The resident was lying prone on the floor beside her bed with blood under her head. -The resident was alert but did not speak which was normal for her per facility staff. -Facility staff stated they did not know how long she had been on the floor or if she had lost consciousness. -The chief complaint was hematoma with laceration on head from fall from bed. -The resident had a small ½ inch laceration on the top right of her head with bleeding and mild swelling at the site. -The resident was transported to the hospital. Review of the incident log sheet for all residents from January 2016 - September 2016 revealed: -On 01/05/16, Resident #3 was observed lying face down and there was blood on the floor. -The resident was transported to ER and returned with staples to her wound. D 273	Continued From page 114 Review of a physician's order dated 01/27/16 for Resident #3 revealed: -The resident had increased and frequent falls. -The physician ordered a hospital bed with rails. Review of facility progress notes for Resident #3 revealed: -01/28/16 ((7 - 3 shift): The resident received order for hospital bed. -01/29/16 (7 - 3 shift): A medical supply company was called for clarification on reason why the resident needed bed. The physician was called and the nurse stated for the medical supply company to fax the form for them to sign. Review of a physician's order request form for Resident #3 dated 02/01/16 revealed: -The Memory Care Coordinator (MCC) faxed the form dated 02/01/16 to the physician. -The medical supply company needed reason why the resident needed a hospital bed. -The MCC instructed the physician to document the reason the resident would be receiving a hospital bed. -The physician's office responded and noted for the facility to have the medical supply company to fax the paperwork to the physician with the fax number included. Review of facility progress notes for Resident #3 revealed: -02/17/16 (1:00 p.m.): Physical therapy (PT) evaluation was done and the resident had poor rehab potential due to cognitive impairment, inability to communicate and follow instructions. The resident was not admitted to PT services. -06/30/16 (3 - 11 shift): The resident was starting to bruise around her right eye due to a fall on first shift.	D 273	POC continued from page 114

D 273	Continued From page 116 Review of a hospice nursing visit note report for Resident #3 dated 07/11/16 revealed: -The resident was in bed and lethargic. -The resident's bruise to the right eye was almost completely healed. -The resident was unable to sit up independently. Review of facility progress notes for Resident #3 revealed: -08/12/16 (9:00 a.m.): The resident was sitting at the dining room table in her wheelchair. The medication aide heard "a thump" and saw the resident laying on the floor on her right side. A quarter size bump started to form in the middle of her forehead. The medication aide contacted hospice nurse who will come to the facility to see the resident. POA and RCC were notified. -08/12/16 (3 - 11 shift): The resident was in the wheelchair and started jerking movement. The resident's face was swollen. Hospice was made aware and nurse will come back to check on resident. Review of a hospice nursing visit note report for Resident #3 dated 08/12/16 revealed: -The resident required assistance with all activities of daily living. -The resident was unable to sit up independently. -The nurse was called for a prn (as needed) visit due to a fall. -The nurse completed an assessment and the resident had a large mass to forehead. -The nurse reviewed fall precautions with facility staff. -The nurse would continue to monitor for fall prevention compliance. -Facility staff was instructed to call with any concerns or questions. D 273	Continued From page 118 -The resident was lying in bed asleep. -There was a straight back chair and the resident's wheelchair pushed up against one side of the bed and the other side of the bed was against the wall. -The right side of the wheelchair was locked the left side was not locked and moved when touched. Interview with a personal care aide (PCA) on 08/31/16 at 9:40 a.m. revealed: -The PCA had worked at the facility for about a month. -The resident's family had requested staff to put chairs beside the bed to keep the resident from rolling out of the bed. -Each time she had observed the resident in bed, the chairs had been pushed against the bed. Interview with a second PCA on 08/31/16 at 9:58 a.m. revealed: -She had worked at the facility about 4 years and usually worked on first shift. -The chairs were sometimes put against Resident #3's bed because the PCA was afraid the resident might roll out of bed. -She thought the resident had some falls but could not recall when or how often. -The resident was "real stiff" and the PCA was not sure if the resident was capable of turning herself in bed because staff usually turned her. -The resident did not have a hospital bed or bed rails. Observation of Resident #3 on 08/31/16 at 10:22 a.m. revealed: -The resident was still lying in bed. -Both chairs were still pushed up against the resident's bed.	D 273	POC continued from page 118

D 273	Continued From page 129 Review of the incident log sheet for all residents from January 2016 - September 2016 revealed: -On 02/19/16, Resident #6 was observed on the dining room floor. She was trying to transfer to a dining room chair and slipped and hit her face on the table and her right leg was scratched in the fall. -The resident was transported to ER and returned with hematoma to right side of eye. Review of a routine visit note for Resident #6 with the PCP on 02/24/16 revealed: -The resident had no complaints and the PCP noted the resident was stable. -There was no documentation in the note regarding Resident #6's ER visit on 02/19/16 or leg wound. Review of facility progress notes for Resident #6 revealed: -03/23/16 (3 - 11 shift): The resident slept most of the shift. The resident's legs were swollen and red and warm to the touch. Medication aide (MA) was notified. Review of a routine visit note for Resident #6 with the PCP on 03/24/16 revealed: -The resident had no complaints and the PCP noted the resident was stable. -There was no documentation in the note regarding Resident #6's legs. Review of facility progress notes for Resident #6 revealed: -03/28/16 (3 - 11 shift): The resident was complaining of left leg. Her leg was red and swollen and warm to the touch. MA was notified. -03/28/16 (11:00 p.m.): The resident's left leg was red and swollen. Memory Care Coordinator	D 273	POC continued from page 129

D 273	Continued From page 130 (MCC) was called. The resident's temperature was 95.3 degrees F and MCC would follow-up in the morning. The resident was talking and alert. Review of a physician order request form for Resident #6 dated 03/29/16 revealed: -The MCC on 03/29/16 faxed a request to Resident #6's physician. -The resident's leg was red, warm to touch, and swollen. -The resident had "stitches from a previous fall x 1 month". -The PCP responded by ordering an antibiotic on 03/29/16. Review of facility progress notes for Resident #6 revealed: -04/02/16 (7 - 3 shift): The resident was sent out to the ER due to swelling in the left leg. The POA, MCC and NP were called. The resident was admitted to the hospital for cellulitis in the left leg. Review of a hospital discharge report for Resident #6 dated 04/02/16 revealed: -The resident was admitted to the hospital on 04/02/16 for left lower extremity (LLE) cellulitis. -The resident presented with LLE erythema, warmth, and swelling. -The resident was quite demented and unable to tell her name so history was obtained from chart and ER attending (physician). -The facility was called to obtain further history but hospital staff was left on hold by the facility. -The resident apparently had sutures placed in February 2016 and those sutures had not been removed so the resident now presented with erythema, swelling, warmth of the lower aspect of the extremity almost up to the left knee. -The sutures were removed by the ER attending and she had intravenous antibiotics. D 273	Continued From page 140 -The resident's past medical history noted the resident was at high risk for falls and had a small subarachnoid hemorrhage due to a fall in 11/2014. -The FNP rated the resident's fall risk as low and the resident was not a good rehab candidate. -The FNP noted the resident's gait was fair and the resident did not have a walking device. -The resident's overall cognitive function was poor and he was only oriented to person. Review of facility progress notes for Resident #11 revealed: -02/16/16 (12:00 p.m.): Resident got a bit agitated when told not to put his hands on the dinner glasses. He knocked over a glass of tea and was directed out of the dining area to the library for calmness. Resident calmed down at this moment. -02/19/16 (11 - 7 shift): Resident was fighting the PCA, refused to be assisted, and stayed up until 3:00 a.m. Review of a visit form with Resident #11's psychiatric NP dated 02/24/16 revealed: -This was a routine follow-up visit. -Staff reported the resident's behavior was now under control and the resident was sleeping and eating well. -The medications seem to be controlling evening agitation. -No medication changes needed today. Review of facility progress notes for Resident #11 revealed: -03/01/16 (3 - 11 shift): Resident had been unzipping his pants and showing his penis. Resident had been observed holding hands with another resident. Staff redirected.	D 273	POC continued from page 140

D 273	Continued From page 141 Review of a visit form with Resident #11's primary Family Nurse Practitioner (FNP) dated 03/07/16 revealed: -The resident was seen for dry irritated skin on his lower legs and feet and a cream was ordered. -There was no documentation related to the resident's behaviors. Review of facility progress notes for Resident #11 revealed: -03/10/16 (7 - 3 shift): Resident hit a female staff twice. Staff informed resident that he could not hit other residents. Review of a visit form with Resident #11's psychiatric NP dated 03/23/16 revealed: -This was a routine follow-up visit. -Staff reported the resident's behavior was now under control and he was eating and sleeping well. -The medications seemed to be controlling evening agitation. -No medication changes needed today. Review of facility progress notes for Resident #11 revealed: -04/06/16 (7 - 3 shift): Resident had been told multiple times to "stop touching on a female resident". Female resident was removed from his reach and he followed her and continued to try to touch her. -04/10/16 (7 - 3 shift): Resident was trying to hit PCAs when they were trying to change him. It took 3 PCAs and the MA to get resident changed. Interview with a medication aide (MA) in the MCU on 09/02/16 at 4:55 p.m. revealed: -The resident would get upset or agitated mostly in the evenings and at night. -The resident was combative with care but he	D 273	POC continued from page 141

D 273	Continued From page 144 the resident's behavior was under control. -Staff never reported any behavior issues during the visits on 01/27/16, 02/24/16, 03/23/16 or afterwards otherwise she would have documented it and made medication changes. -Facility staff had the NP's phone number and should have called to report any concerns or behaviors. -Resident #11 was due to be seen again one month after the visit on 03/23/16 or sooner if any behaviors had been reported. B. Review of Resident #11's current assessment and care plan dated 08/18/15 revealed: -The resident required extensive assistance with bathing, dressing, toileting, grooming, and personal hygiene. -The resident's skin was noted to be normal. -The resident was always disoriented and had significant memory loss and must be redirected. Review of facility progress notes for Resident #11 revealed: -08/12/15 (7:30 p.m.): While putting on the resident's bedtime clothes, the PCA discovered cracks on the resident's ankles that were bleeding. The medication aide was notified. -01/22/16 (3 - 11 shift): Resident received new order for Eucerin cream apply to dry irritated skin bilateral lower legs and feet daily. Order was faxed to pharmacy. Review of a visit form with Resident #11's primary Nurse Practitioner (NP) dated 01/22/16 revealed: -The resident had dry irritated skin on his lower legs and feet. -There was an order for a steroid / emollient cream to be applied to his lower legs and feet daily. D 273	Continued From page 154 revealed: -Resident #15's family member took the resident to the hospital on 5/30/16. -Other staff had reported Resident #15 had a fractured neck. -Resident #15 had been left sitting by staff with her head drooped down for a prolonged period of time. -When the family member came to visit, they knew right away something was not right. -Whatever happened, happened on 2nd shift and the family member came the next day. Telephone interview with a second MA on 9/9/16 at 9:35am revealed the MA did not remember noticing anything different about Resident #15, 5/28/16 -5/30/16. Telephone interview with the physician on 9/9/16 at 11:45am revealed: -Resident #15 presented for her appointments with the physician with bruises on her face and body. -The bruises were "reportedly from falls." -The physician had concerns about the bruises and how the resident obtained them. -Resident #15's last physician's office visit was on 5/5/16. -The incident on 5/23/16 was not reported. -Notification of the neck fracture came from the hospital on 6/2/16. Telephone interview with the Resident Care Coordinator (RCC) on 9/8/16 at 7:02pm revealed: -The family of Resident #15 reported to the RCC that Resident #15's neck was in an awkward position. -An incident report was completed and sent to the Risk Management RN and the Department of Social Services. D 273	Continued From page 156 Resident #15 fell back on the toilet and cut her arm. -A note for 7am-3pm on 4/26/16 which documented that Resident #15's "bowel was backed up," the MA was notified and Resident #15 needed something to help her go to the bathroom. -A note for 7am-3pm on 4/28/16 which documented Resident #15 had a bowel movement, please try to help keep her hydrated on all shifts. Review of hospital notes for Resident #15 revealed: -Resident #15 was seen in the Emergency Room (ER) on 5/23/16 for evaluation of a laceration. -ER staff documented Resident #15 was being disimpacted when she jumped forward and struck her forearm on the toilet paper holder. -ER staff documented Resident #15 requested to be disimpacted in the ER which was done. Interview with a Personal Care Aide (PCA) on 9/7/16 at 5:40pm revealed: -Resident #15 had a hard time moving her bowels. -The Medication Aides (MAs) would give Resident #15 Miralax and it would help.(Miralax is a laxative used to treat constipation.) Interview with a MA on 9/6/16 at 5:25pm revealed: -Resident #15 had issues with constipation. -Miralax had been ordered daily as needed by the physician. -The PCA would notify MA if Resident #15 was constipated and the MA would give a laxative. -The MAs usually referred physician requests to the Memory Care Coordinator (MCC)and the MCC contacted the physician. D 273	Continued From page 157 -The physician would come to the facility and see the resident and then write an order. Telephone interview with a second MA on 9/9/16 at 9:35am revealed the MA did not remember Resident #15 having any problems with constipation and needing dis-impaction. Interview with a medication aide (MA)/Supervisor on 9/7/16 at 5:00pm revealed: -The facility had standing orders for Milk of Magnesia for constipation. -Once the resident had signed (by the physician) standing orders, the MAs could give the Milk of Magnesia without further orders. -The MAs could have notified the physician/NP themselves but the RCC wanted to do that herself. Review of Standing Orders for Resident #15 revealed orders included Milk of Magnesia 30ml daily as needed for constipation signed by the physician on 4/7/16. Telephone interview with the Resident Care Coordinator (RCC) on 9/8/16 at 7:02pm revealed: -Resident #15 had standing orders which were initiated on admission to the facility. -Standing orders included an order for Milk of Magnesia daily as needed for constipation. Review of Resident #15's April and May 2016 eMARs revealed there was no Milk of Magnesia administered. Review of a Physician's orders dated 4/21/16 for Resident #15 revealed an order for Miralax 17grams in 8 ounces of fluid daily as needed for constipation.	D 273	POC continued from page 157

D 273	Continued From page 158 Review of Resident #15's electronic medication record (eMAR) for April 2016 revealed: -An entry for Miralax 17gms in 8 ounces of water once daily as needed for constipation. -The Miralax was documented as administered on 4/22/16 at 5:25pm, 4/26/16 at 12:29pm and 4/27/16 at 7:47pm. Review of Resident #15's electronic eMAR for April 2016 revealed: -An entry for Miralax 17gms in 8 ounces of water once daily as needed for constipation. -The Miralax was documented as administered on 4/29/16 at 4:38pm. Second interview with a MA on 9/8/16 at 2:47pm revealed: -The MA did not consider administering Milk of Magnesia from the standing orders for Resident #15. -Whenever the PCA reported Resident #15 was constipated the MA administered the Miralax once Resident #15 had an order for it. In summary, Resident #15 had severe constipation requiring frequent disimpaction and went without a laxative being administered from 4/15/16 until 4/22/16 and again from 4/30/16 until 5/23/16 when she was disimpacted in the ER. Telephone interview with the physician on 9/9/16 at 11:45am revealed: -Resident #15 did not have issues with constipation requiring disimpaction prior to her admission to the facility. -The physician was not aware that Resident #15 was experiencing severe constipation requiring disimpaction while she was at the facilitiy. -Staff had not reported Resident #15 needing disimpaction. D 273	Continued From page 160 -The MAs usually referred physician requests to the Memory Care Coordinator and they contacted the physician. -The physician would come to the facility and see the resident and then write an order. Telephone interview with the physician on 9/9/16 at 11:45am revealed: -There was no skin breakdown reported. -Resident #15's last physician's office visit was on 5/5/16. 8. Review of Resident #2's FL-2 dated 7/18/16 revealed diagnoses included Alzheimer's Dementia, Osteoporosis, Hypertension, Hyperlipidemia, Emphysema, Hypothyroidism, Bipolar Disorder and Glaucoma. Observation on 8/30/16 at 1:05pm revealed Resident #2 had a hospital gown on which had fallen away from her back side revealing significant redness to both buttocks and a raw area at the gluteal fold. Observation on 9/2/16 at 3:14pm revealed: -Resident #2 had increased redness to the sacral and buttocks area with increased rawness to the gluteal fold since 8/30/16. -There was a new dime sized area of rawness to the right upper buttock that was not present on 8/30/16. Review of Nursing Assistant Notes for Resident #2 revealed: -A note at 2:30pm on 7/17/16 documenting that Resident #2 had reddened buttocks with no breakdown signed by the Resident Care Coordinator (RCC). -There was no further documentation related to the redness on Resident #2's buttocks. D 273	Continued From page 162 -The NP checked in with the RCC on arrival and again before leaving the facility. -The NP communicated any plans or changes to orders prior to leaving the facility. Telephone interview with Home Health agency staff on 9/2/16 at 4:18pm revealed: -There was a skilled nurse evaluation on 6/21/16 for Resident #2. -There were no other home health services for Resident #2. Interview with Resident #2 on 8/30/16 at 1:23pm revealed staff applied a cream to her buttocks twice a day in the morning and at night. Telephone interview with a family member of Resident #2 on 8/31/16 at 4:23pm revealed: -The family member was aware of the skin breakdown on Resident #2's bottom. -It had started approximately 1 week ago [8/24/16]. -Staff at the facility were applying cream to the area. Interview with a personal care aide (PCA) on 9/2/16 at 8:52am revealed: -The PCA noticed Resident #2 had skin breakdown on her buttocks last week [8/25/16]. -The Medication Aides (MA) started applying cream to Resident #5's buttocks last week [8/25/16]. Interview with a MA on 8/30/16 at 1:12pm and 8/31/16 at 10:02am revealed: -Resident #2 had an area of breakdown on her buttocks a while ago. -The area had since "technically healed" and was almost gone. -Resident #2 had a cream applied to her buttocks	D 273	POC continued from page 162

D 273	Continued From page 166 -There were no further staff entries regarding the right foot wound. -There were no further HH notes. -There was a Nursing Assistant Note for 3pm-11pm on 8/9/16 which documented that Resident #13 was found cold, temperature was 89.9 degrees Fahrenheit and Emergency Medical Services was called signed by a MA. Review of facility incident report dated 8/9/16 for Resident #13 revealed Resident #13 was in the common room when she was found cold at 8:30pm. Review of hospital records for Resident #13 revealed: -Resident #13 arrived in the Emergency Room on 8/9/16 with body temperature of 89.2 degrees Fahrenheit and a blood pressure of 56/34. -Hospital physician documented there was evidence of septic shock possibly due to ulceration on Resident #13's right foot versus aspiration pneumonia. -Hospital physician noted there was skin breakdown on the gluteal area and an ulcerated area involving the right heel with some drainage and necrosis. b. Review of physician visit notes for Resident #13 revealed: -A visit note dated 7/11/16 with an order to obtain a urine specimen for urinalysis and culture signed by the former Nurse Practitioner. -A visit note dated 7/18/16 with an order to obtain a urine specimen for urinalysis and culture signed by the former Nurse Practitioner. Record review for Resident #13 revealed there were no urinalysis or urine culture results for 7/11/16 or 7/18/16.	D 273	POC continued from page 166

D 273	Continued From page 167 Interview with the Interim Administrator (New Company) on 9/7/16 at 2:10pm revealed the lab company did not have urinalysis results for Resident #13 for July 2016. Telephone interview with the former NP on 9/9/16 at 10:07am revealed: -A urinalysis was ordered on 7/11/16 to check for a urinary tract infection (UTI) because Resident #13 had increased confusion. -Resident #13 was sent to the ER on 7/12/16 and the ER usually would just treat for a UTI which is why the urinalysis was not done on 7/11/16. -Resident #13 was treated empirically for UTI's because staff was unable to get a urine sample. -The NP spoke to the Resident Care Coordinator (RCC) about the urine specimen on 7/18/16. Telephone interview with the Resident Care Coordinator on 9/8/16 at 7:02pm revealed the urinalysis for 7/18/16 should have been in Resident #13's record. --- Review of the facility's Plan of Correction dated 9/2/16 revealed: - Resident charts from previous licensee will be re-developed, then audited by th clinical support team in coordination with quality assurance nurses. - Primary care providers (PCP) will review and verify exisiting orders. - PCPs will be consulted to address any concerns identified from the audit. - Training will be provided on "New Order Tracking System", 24 hour communication log, documentation, notification of PCP, family members and other health care providers. - Daily stand up meetings will be conducted to	D 273	POC continued from page 167

D 451	Continued From page 179 - The resident stated she was trying to transfer self from the recliner to wheelchair without assistance. - The facility's Resident Care Coordinator checked the resident and the resident was picked up from the floor and placed in the wheelchair. - The personal care staff reported the resident continuously complained of pain when they moved her and would holler out in pain when they tried to get her out of bed. - The resident's family member was at the facility 3 days later and was concerned about the resident's severe pain. - The family member insisted the facility transfer the resident to the local hospital for evaluation. - The resident passed away in an out of county hospital a few days later. - A incident report was completed by the RCC and documentation was done in progress notes but all documentation concerning the fall and the resident's complaint of pain was removed from the resident's record after the resident was hospitalized. Interview with the RCC on 9/1/16 at 11:45am revealed: - She did not remember Resident #9's fall in February 2016. - She did not know what happened to the documentation regarding a fall, including incident report and progress notes. Interview with the facility's former Administrator on 9/7/16 revealed: - There should be documentation of any accidents, follow-ups and assessments in the resident's records. - Any accidents which require the resident to be sent to the ER should be reported to the county department of social services.	D 451	POC continued from page 179 QA Nurse and Clinical Support Team will monitor submission of Incident/Accident reports for Residents who require treatment greater than first aid during routine visits. D 451	Continued From page 186 was disoriented at all times. -The resident was ambulatory but her gait was very unsteady and the resident was a fall risk. -The resident required extensive assistance with mobility, ambulation and transfers. Review of the special care unit progressive profile for Resident #3 revealed: -On 09/15/15, the resident was noted to ambulate unassisted at time and to fall frequently. -On 08/11/16, the resident was noted to require a device for ambulation and assistance with ambulation. Review of an emergency medical services (EMS) report dated 01/05/16 for Resident #3 revealed: -The dispatch call was received at 9:30 a.m. and EMS arrived on scene at the resident at 9:37 a.m. -The resident was lying prone on the floor beside her bed with blood under her head. -The resident was alert but did not speak which was normal for her per facility staff. -Facility staff stated they did not know how long she had been on the floor or if she had lost consciousness. -The chief complaint was hematoma with laceration on head from fall from bed. -The resident had a small ½ inch laceration on the top right of her head with bleeding and mild swelling at the site. -The resident was transported to the hospital. Review of facility progress notes for Resident #3 revealed: -08/12/16 (9:00 a.m.): The resident was sitting at the dining room table in her wheelchair. The medication aide heard "a thump" and saw the resident laying on the floor on her right side. A quarter size bump started to form in the middle of her forehead.	D 451	POC continued from page 186

D 451	Continued From page 192 -The area on the report to document when the report was faxed to DSS was blank. Review of the incident log sheet for all residents from January 2016 - September 2016 revealed there was no entry for an incident report for Resident #6's fall on 08/24/16. Telephone interview with a former medication aide (MA) in the MCU on 09/07/16 at 3:10 p.m. revealed: -She had worked at the facility from March 2015 until 08/30/16. -She was on duty as the MA in the MCU on third shift when Resident #6 fell. -Staff heard the resident holler out and they found her on the floor. -The resident was lying on her back and her leg was straight forward but her knee was twisted. -The resident's wheelchair was facing the bed and it looked like the resident had tried to get up out of bed. -The resident had just been checked 30 minutes prior to this and the resident was lying in bed. -The MA filled out an incident report for the fall and faxed it to the PCP office and called the family. -The MA put the incident report in the RCC's folder behind the desk, -The RCC was supposed to handle the incident report from that point. -The MA did not know if the RCC faxed the report to the Department of Social Services (DSS). Interview with an Adult Home Specialist (AHS) for the local DSS on 09/08/16 at 3:25 p.m. revealed DSS had not received an incident report for Resident #6's fall on 08/24/16. Refer to interview with a personal care aide	D 451	POC continued from page 192

D 466	Continued From page 196 -The RCC would go to the MCU periodically during the day at different times. -The RCC was usually in the MCU for a total of at least 1 and ½ hours a day each day Monday through Friday. -When she was in the MCU, the RCC was mingling with the residents and making sure staff were doing their duties and taking care of the residents. Interview with the RCC on 08/31/16 at 11:20 a.m. revealed: -She had been trying to work in the memory care unit (MCU) some since the MCC position was vacant. -She felt like staff in the MCU did not communicate as much with the residents in the MCU unless there was some oversight or management overseeing the staff. Interview with the Vice President of Quality Assurance and Regulatory Compliance with the new corporation on 08/31/16 at 3:15 p.m. revealed: -She had just sent the RCC from the AL side to the MCU to work as the MCC until the new corporation could hire a new MCC. -The RCC was currently in the MCU working as the MCC. Observation on 08/31/16 at 3:15 p.m. in the MCU revealed the RCC from the AL side of the facility was in the nurses' station in the MCU. Additional interview with the former Interim / Acting Administrator on 09/01/16 at 8:15 a.m. revealed: -The RCC was supposed to be working in the MCU 8 hours a day as the MCC until they could hire someone new.
