consultation with all smoking residents to ensure that residents' behaviors align with facility's Smoking Policy that is consistent with Resident's Rights.
3). Smoking Cessation classes will be available for residents, and residents will be encouraged to use smoke cessation products

The administrator continues to seek guidance from county and state regulatory agencies, as well as resident advocates, to determine the best method to deal with residents who because of their addiction to cigarettes continue to impede the orderly implementation of the facility's smoking policy.

The following steps will be taken to monitor for adherence to the policy beginning immediately:

- Day & night shift staff will continue to make their routine visual census check (hourly for day shift & every two-hours at night). During this check staff will be aware of smoking policy. A resident found smoking or suspected of smoking will be intensely monitored for 12 hours. The twelve hour monitoring will be documented every 15 minutes (for first 2 hours to 4 hours immediately after the incident); every 30 minutes (for 5 hours); then hourly monitoring for the remainder of the 12 hours. Staff will keep a log to be shared with the administrator and supervisor to ensure compliance. Staff and administrator will also use cameras to monitor hallways and public areas for adherence to the policy.
- No residents will be permitted to leave the facility after 11:00 p.m.
- Guests will be informed of the smoking policy during their first visit to the facility & be required to sign a document acknowledging an understanding of the policy.
- Administrator will review staff census checks monthly to monitor for adherence to the revised smoking policy and make adjustments as needed.

D 000 Initial Comments

The Adult Care Licensure Section and Robeson County Department of Social Services conducted a follow up survey and compliant investigations on February 21, 22, 25, and 26, 2019. A complaint investigation was initiated by the Robeson County Department of Social Services on January 17, 2019.

D 270 10A NCAC 13F .0901(b) Personal Care and Supervision

10A NCAC 13F .0901 Personal Care and Supervision
(b) Staff shall provide supervision of residents in accordance with each resident's assessed needs, care plan and current symptoms.

This Rule is not met as evidenced by:
TYPE B VIOLATION

Based on observations, interviews, and record review, the facility failed to assure supervision was provided for a resident (Resident #4) with a known behavior of smoking in the facility.

The findings are:

Review of Resident #4's current FL-2 dated 11/14/18 revealed:
-Diagnoses included anxiety unspecified, asthma unspecified, and aftercare following surgery muscular.
-Resident #4 was ambulatory with assistance of a

Med Tech Supervisor does a biweekly review of each resident's records that includes currency of medication administration (MAR), storage, treatments, prescriptions, non-prescriptions and procedures. This bi-weekly review of the resident's record includes a one-on-one conversation with the resident to ensure that his/her needs are being expressed to the Prescribing Practitioner, staff and or family members. A written update of each resident's record is provided to the administrator weekly by the med tech. All new orders are to be maintained and reviewed in the above described manner. Any orders that exceeds 6 months or a year (bi-annual and annual follow- ups) will be documented and filed using color coding to ensure its timely implementation. The Medical Provider's reminder phone call or text will be highlighted by the transportation coordinator to ensure that the administrator has at least a 48 hour notice of bi-annual and annual confirmations..The administrator will meet with the Med Tech weekly to monitor for adherence to the revised procedures and make adjustments as needed.</p> <p>Evaluation Component for D 358 (see below)</p>	<p>Corrective action to be implemented by 3/27,2019 w/ weekly meetings between administrator & med tech specialist to highlight any changes in the resident's review and implement immediate corrective action based on that review.</p>

Evaluation component for D358

The following evaluation component will be implemented to determine the efficiency of the revised policy to ensure compliance with 10A NCAC 13F .1004 Medication Administration

(b) An adult care home shall assure that the preparation and administration of medications, prescription and non-prescription, and treatments by staff are in accordance with:

- (1) orders by a licensed prescribing practitioner which are maintained in the resident's record; and
- (2) rules in this Section and the facility's policies and procedures.

A). Administrator and med tech supervisor will meet b-weekly to determine if review of resident's records are complete, on-going and information is distributed to staff in a timely manner. (Timely manner is defined within 24 hours of physician order or prescription medication or addition.)

Information that was forwarded beyond 24 hours will be reviewed to determine cause in review and distribution of medication. Corrective action will be immediately implemented.

B). A monthly review of Physician reminder phone calls will be made by the administrator and med tech supervisor to determine if administrator received 48 hour advance notice of scheduled doctor's appointment, both in-house and in the doctor's office. Any scheduled visit that occurred without administrator receiving 48 hour advance notice will be reviewed to determine break-down in communication. Corrective action will be immediately implemented.
