D 310 Continued From page 50 11:31am. 2. Review of Resident #6's current FL2 dated 12/28/18 revealed: -Diagnoses included abnormal weight loss, muscle weakness, chronic obstructive pulmonary disease, bronchitis, and neuroleptic induced Parkinson's diseaseThere was an order for a carbohydrate controlled diet with cut meats. Review of Resident #6's subsequent physician's order dated 08/01/19 revealed an order for a carbohydrate controlled diet with cut meats. Review of the therapeutic diet list dated 02/08/19 posted in the kitchen revealed Resident #6 was listed to be served a carbohydrate controlled diet with cut meats. Review of the carbohydrate controlled diet menu for the lunch meal service on 09/12/19 revealed residents had a choice of sautéed pork chop with a starch/potato and bread, chef salad with a roll, cottage cheese and fresh fruit plate without a potato/starch or a roll, tossed salad, sugar free cookies, mandarin oranges, milk or a sugar free beverage. Observation of the lunch meal service on 09/12/19 between 12:00pm and 1:00pm revealed: -There were printed copies of the regular menu for the 09/12/19 lunch meal at each place setting which included fluffy rice, vegetable saladThere was not a therapeutic menu available for Resident #6 to choose her meal fromResident #6 ordered from the regular menuResident #6 was served chopped beef and	D 310
