D 000	Initial Comments  The Adult Care Licensure Section conducted a complaint investigation survey onsite on July 1, 2020 with a desk review survey on July 2-9, 2020 and a telephone exit on July 9, 2020.	D 000	Facility implemented new screening sheets that consist of employee screening sheet which includes COVID questionnaire and visitor questionnaire and screening. attachment A + B Screening sheets placed at front door within instructions posted. Front door is locked with door bell to ring for entrance. Person that opens door is to check temperature and ask COVID questions and to note on screening sheets. If any COVID symptoms, person is not allowed to enter and must see their physician. Also any outside providers, such as home health and vendors, Hospice will be screened and noted on visitor log. All staff and visitors are required to wear PPE which consist of gown, gloves facemask and face shield	7-30-20
D 338	10A NCAC 13F .0909 Resident Rights  10A NCAC 13F .0909 Resident Rights An adult care home shall assure that the rights of all residents guaranteed under G.S. 131D-21, Declaration of Residents' Rights, are maintained and may be exercised without hindrance.  This Rule is not met as evidenced by: TYPE A2 VIOLATION  Based on observations, record reviews, and interviews, the facility failed to ensure recommendations and guidance established by the Centers for Disease Control (CDC), the North Carolina Department of Health and Human Services (NCDHHS), and directives from the local health department (LHD) were implemented and maintained to provide protection of the residents during the global coronavirus (COVID-19) pandemic as related to appropriate screening of visitors and staff, appropriate use of personal protective equipment (PPE) by staff, and infection control procedures including practicing basic hand hygiene and safety precautions to reduce the risk of transmission and infection.  The findings are:  Review of the Center for Disease Control (CDC) guidelines for the prevention and spread of the coronavirus in long term care (LTC) facilities revealed: -Personnel should always wear a face mask in	D 338

D 338	Continued From page 2  for by a consistent group of designated facility staff.  Review of the facility's Infection Control Policy revealed: -All employees must wash hands prior to shift, before caring for each resident, before feeding, or before getting clean linen. -Hands should be washed before and after each glove use. -Wear a new pair of gloves before caring for each resident. -Change gloves between residents, even when using blood testing devices and single use auto disabling fingerstick devices.  Telephone interview with a Registered Nurse (RN) from the local health department (LHD) on 07/07/2020 at 10:05am revealed: -The LHD was notified by the Administrator on 06/19/20 that a facility staff had a confirmed positive test result for COVID-19. -A nurse from the LHD emailed and called the facility regarding basic infection control guidelines, including all staff wearing masks and isolating any COVID-19 positive residents. -She and another RN from the LHD entered the facility on 06/23/20 and tested all residents and staff (113 tests). -She was not screened or had her temperature checked when she entered the facility on 06/23/20. -There were 24 of 29 residents in the Special Care Unit (SCU) and 8 of 36 residents in assisted living who tested positive for COVID-19. -There were 15 staff who tested positive for COVID-19. -She returned to the facility on 06/29/20 and observed facility staff wearing the same PPE throughout the facility among COVID-19 positive	D 338	of resident rights and infection control. Facility plans to do weekly review with staff of appropriate PPE and wearing correctly. RCC will check beginning of shift to assure staff is abiding by and practicing infection control. RCC will stock PPE areas daily to assure adequate PPE for staff.  In addition facility implemented disinfecting schedule for each shift of disinfecting doffing areas and empty trash cans. Attachment F.  Facility placed positive signs on COVID residents doors and list A or B or both signs placed on donning and doffing areas of location. Also facility implemented cool down rooms on assisted and self for staff that

D 338	Continued From page 24  -The staff were asking the COVID-19 positive residents to keep their doors shut and to stay in their rooms but they could not make the residents do either of these. -The facility had one medication cart for the assisted living and one medication cart for the SCU but they only had one cart that was used to check fingerstick blood sugars (FSBS). -The cart used to check FSBS was stored in the SCU and used throughout the facility. -He had not realized he needed to monitor the use of the water fountain in the common areas. -The housekeepers were responsible for sanitizing and cleaning the facility, including washing handrails daily and emptying the trash. -He had an outside cleaning company come and spray the facility. -The cleaning company had sprayed and sanitized the water fountain. -The RCC and the SCU Coordinator were responsible for making sure the staff was wearing the PPE correctly.  The facility failed to ensure staff were following infection control guidelines during a viral pandemic related to the screening of visitors and staff, appropriate use of personal protective equipment (PPE) by staff, and infection control procedures including practicing basic hand hygiene and safety precautions to reduce the risk of transmission and infection which placed the residents at risk of contracting a serious viral illness constitutes a Type A2 violation.  The facility was given a directed plan of protection on 07/02/20 in accordance with G.S. 131D-34 for this violation.  CORRECTION DATE FOR THE TYPE A2 VIOLATION SHALL NOT EXCEED AUGUST 8,	D 338

To be free of mental and physical abuse, neglect, and exploitation.</p> <p>This Rule is not met as evidenced by: Based on observations, interviews, and record reviews, the facility failed to ensure residents were provided the necessary care and services to maintain their physical health as related to resident rights.</p> <p>Based on observations, record reviews, and interviews, the facility failed to ensure recommendations and guidance established by the Centers for Disease Control (CDC), the North Carolina Department of Health and Human Services (NCDHHS), and directives from the local health department (LHD) were implemented and maintained to provide protection of the residents during the global coronavirus (COVID-19) pandemic as related to appropriate screening of visitors and staff, appropriate use of personal protective equipment (PPE) by staff, and infection control procedures including practicing basic hand hygiene and safety precautions to reduce the risk of transmission and infection[Refer to Tag 338, 10A NCAC 13F .0909 Resident Rights (Type A2 Violation)].</p>	D914		

Brockford Inn CoVid Questionnaire  
SARS-CoV-2 "CORONAVIRUS"

1. Have you recently traveled to any geographical area with high cases of Covid within the last 14 days?
2. Are you experiencing any symptoms of respiratory infection, such as: cough, fever, sore throat, flu-like symptoms?
3. Have you been in contact with anyone who has been "laboratory-confirmed" for SARS-COVID-19?

**If any person answers "yes" to any of these questions, they are not permitted in the building.**

## FREQUENTLY ASKED QUESTIONS?

**Q. What is the difference between a gown and coveralls**

**R.** *Gowns are easier to put on and, in particular, to take off. They are generally more familiar to healthcare workers and hence more likely to be used and removed correctly. These factors also facilitate training in their correct use. Coveralls typically provide 360-degree protection because they are designed to cover the whole body, including the back and lower legs, and sometimes the head and feet as well. Surgical/isolation gowns do not provide continuous whole-body protection (e.g., they have possible openings in the back, and typically provide coverage to the mid-calf only). The level of heat stress generated due to the added layer of clothing is also expected to be less for gowns when compared to coveralls due to several factors, such as the openings in the design of gowns and total area covered by the fabric.*

**Q. What do we do if we don't have any gowns?**

**R.** *In situation of severely limited or no available isolation gowns, the following pieces of clothing can be considered as a last resort for care of COVID-19 patients as single use. However, none of these options can be considered PPE, since their capability to protect HCP is unknown.*

Preferable features include long sleeves and closures (snaps, buttons) that can be fastened and secured:

- Disposable laboratory coats
- Reusable (washable) patient gowns
- Reusable (washable) laboratory coats
- Disposable aprons

*Combinations of clothing: Combinations of pieces of clothing can be considered for activities that may involve body fluids and when there are no gowns available:*

- Long sleeve aprons in combination with long sleeve patient gowns or laboratory coats
- Open back gowns with long sleeve patient gowns or laboratory coats
- Sleeve covers in combination with aprons and long sleeve patient gowns or lab coats

***Facilities should also provide training about how to don (put on) and doff (take off) all PPE including gowns.***

ALL STAFF ARE INSTRUCTED TO CARRY SMALL CONTAINERS OF HAND SANITIZER AND USE FREQUENTLY ON THEMSELVES AND RESIDENTS AS NEEDED.

SMOKERS ARE INSTRUCTED TO LIMIT SMOKE BREAKS TO 10 MINUTES AND ONLY ONE RESIDENT IN THE DESIGNATED AREA AT A TIME.

HALL 1: ENCLOSED AREA OFF DINING ROOM

HALL 2: HALL 2 COURTYARD AREA

HALL 3: HALL 3 ENCLOSED COURTYARD AREA.

AREA WILL BE CLEANED/SANITIZED AFTER EACH USE

A NOTICE IS PLACED ON THE DOOR OF ANY ROOM OCCUPIED BY A COVID POSITIVE RESIDENT AND RESIDENT INDICATED BY BED ASSIGNMENT.

HSK ARE INSTRUCTED TO CLEAN/SANITIZE EMPLOYEE BREAK ROOMS & SMOKING AREAS FREQUENTLY THRU OUT THE DAY

## DISINFECTING SCHEDULE

APPOINTEE: \_\_\_\_\_ DATE: \_\_\_\_\_ Shift: \_\_\_\_\_

2 ROUNDS MUST BE PERFORMED EACH SHIFT.

### FOR EACH ROUND YOU MUST:

1. DISINFECT THE BREAK ROOM ON THE BACK **AND** THE TIMECARD ROOM UP FRONT.
2. DISINFECT SMOKE AREAS
  - a. OUTSIDE 100-200 DINING ROOM
  - b. EMPLOYEE SMOKE AREA DOWN 200
  - c. UNIT SMOKE AREA
3. EMPTY TRASH ON DOFFING AREAS
  - a. 100-200 LAUNDRY ROOMS
  - b. 300 LAUNDRY ROOM
4. DISINFECT FACE SHIELDS IN THE DOFFING AREAS THOROUGHLY AND THEN PLACE IN DONNING AREAS
  - a. **DOFFING** AREA: 100-200 LAUNDRY ROOM
  - b. **DOFFING** AREA: SPECIAL CARE UNIT LAUNDRY ROOM
  - c. **DONNING** AREA: TIMECARD ROOM
  - d. **DONNING** AREA: SPECIAL CARE UNIT BREAK ROOM
