{D 000}	Initial Comments The Adult Care Licensure Section conducted a follow-up survey and a COVID-19 focused Infection Control survey with an onsite visit on August 05, 2020 and a desk review survey on July 28, 2020 to July 31, 2020; August 03, 2020 to August 07, 2020 and a telephone exit on August 07, 2020.	{D 000}	Response to the cited deficiencies do not constitute an admission or agreement by the facility of the truth of the facts alleged or conclusions set forth in the Statement of Deficiencies or Corrective Action Report; the Plan of Correction is prepared solely as a matter of compliance with State law.	
{D 273}	10A NCAC 13F .0902(b) Health Care 10A NCAC 13F .0902 Health Care (b) The facility shall assure referral and follow-up to meet the routine and acute health care needs of residents. This Rule is not met as evidenced by: Non-compliance continues resulting in detriment to health, safety and welfare. TYPE B VIOLATION Based on interviews and record reviews, the facility failed to ensure notification of the primary care provider (PCP) for 3 of 5 sampled residents (#2, #3 and #4) when there was a 4 day delay of administering an antibiotic after a resident was evaluated and treated in the emergency department (#2), increased lower extremity swelling and weekly refusals to wear thrombo-embolic deterrent (TED) hose as ordered (#3) and a weight gain of 29lbs from June 2020 to August 2020 (#4). The findings are: 1. Review of Resident #2's current FL-2 dated 02/20/20 revealed: -Diagnoses included dementia, congestive heart	{D 273}	RCC and ED audited charts reviewing that all healthcare and follow-up orders were being met on 08/07/2020. Referrals and follow-ups were reviewed by RCC and the ED on 08/07/2020. Refusal Notifications have been completed for the ted hose and weights. In-services regarding healthcare referral and follow-up were provided on 08/07/2020, including notifications to the healthcare provider and family and properforms[redacted] notification forms will be completed to notify the physicians of changes in condition or functioning injury, altered behavior, etc. These forms include, but are not limited to: *Healthcare Notification forms, *Refusal Forms, *Behavioral Notification *Event Reports In addition to the completion of the

{D 273}	Continued From page 1 failure, neuromuscular dysfunction and iron deficiency anemia. -The resident was intermittently disoriented and wandered. Review of Resident #2's current Assessment and Care Plan dated 05/23/20 revealed: -The resident was intermittently disoriented and was forgetful requiring reminders. -The resident had an indwelling urinary catheter. (An indwelling urinary catheter is a flexible tube that passes through the urethra and into the bladder to drain urine). -The resident required limited staff assistance with ambulation, dressing, grooming and extensive staff assistance with toileting. Review of Resident #2's electronic progress notes dated 06/25/20 revealed the resident was sent to emergency department (ED) per the primary care provider's (PCP's) request due to an extended bladder and possible catheter malfunction. Review of an accident/incident report dated 06/25/20 at 2:31pm for Resident #2 revealed: -Resident #2 had no urine going into the urinary catheter bag. -The resident was seen by the PCP prior to being sent to the ED. -The form was generated by a medication aide (MA). -The Administrator was notified. -The form was completed by the Resident Care Coordinator (RCC). Review of an ED visit summary for Resident #2 dated 06/25/20 revealed: -The resident was seen in the ED for a urine catheter insertion or check.	{D 273}	forms, the physician is notified by the Med Tech/SIC, via telephone of the change in condition, with referral to emergency medical services in the event or an emergency, or being placed on the PCP's list to be seen upon their next visit. Documentation of action taken and follow-up provided will be by Physician Visit Summary, Hospital discharge records, and/or progress notes. The ED/DRC will monitor daily during standup, weekly during at risk and monthly during QA. Medication Compliance reports were ran to ensure no refusals have occurred within the past 24 hours. Refusal notifications will be completed as indicated. Medication Staff assigned to the medication carts are responsible for the medications/treatments scheduled during that time. If a treatment is refused, the refusal notification is completed. Medication compliance reports and compliance with refusal notifications will be reviewed daily by the SIC/RCC or ED; medication error reports will be

{D 273}	Continued From page 2 -The resident's indwelling urinary catheter was replaced, and urine was obtained "which appears to be possibly infected" . -The resident's laboratory tests included a urinalysis and a urine culture. -The resident was diagnosed with an obstruction of the urinary catheter and a urinary tract infection (UTI) with no blood in the urine. -The resident received Cipro at 7:52pm. (Cipro is an antibiotic used to treat bacterial urinary tract infections). -There were instructions to start Cipro 500mg twice daily for 7 days and to follow-up with the resident's PCP and urology for further management of the indwelling urinary catheter. -There was a printed stamped date of 06/29/20 at the bottom of the ED visit summary form. Review of Resident #2's electronic progress revealed: -On 06/29/20 at 1:49am, there was an entry the resident had a urology appointment at 1:30pm. -On 06/29/20 at 1:39pm, there was an entry the resident had an appointment today. The resident stated that he felt fine but "his appetite hadn't been that great" and had eaten "maybe" 40 percent of his breakfast, and 50 percent of his lunch, otherwise the resident had no concerns or complaints. Review of Resident #2's urologist visit note dated 06/29/20 revealed: -The resident was being seen for a follow-up. -The resident's indwelling urinary catheter was changed and he was to follow up in one month. -There was no documentation the resident had been evaluated at the ED on 06/25/20 and was ordered Cipro for a UTI. Review of Resident #2's electronic progress note	{D 273}	completed as indicated. Monitoring is performed by quick reference on the EMR dashboard, at anytime, but daily during standup. The RCC is responsible for ensuring follow-up of any items not addressed by the med tech/SIC. Inservices regarding medication administration and falls management were performed by the Divisional Director of Clinical services on 08/17/2020. Emphasis was placed on Health Care referral and follow-up notifications Refusals of medication/treatment/ADLs are documented by care staff and med techs at the time of refusal. The Med Tech/SIC makes appropriate notifications. Compliance is monitored by quick reference to the EMR's Dashboard. Compliance Reports are monitored by the RCC/ED daily during standup. Refusals not documented appropriately will be completed as indicated by the RCC. Refusals are

{D 273}	Continued From page 3 dated 06/30/20 at 10:21am revealed there was an entry the resident had fell and had "a lot of blood in his catheter bag", the resident was transported to the ED by emergency medical services (EMS) and the resident's PCP was notified. Review of an accident/incident report dated 06/30/20 at 7:39am for Resident #9 revealed: -The resident fell trying to get back into his bed and had blood in his urinary catheter bag. -The resident was taken to the ED. -In the "Record status of Resident after ER/Hospital" section of the form, to continue medication, the diagnosis was a UTI. -In the Evaluation Notes" section of the form, the resident would follow-up with the PCP at the next facility visit. -The form was generated by a MA. -The Administrator was notified. -The form was completed by the RCC. Review of an ED visit for Resident #2 dated 06/30/20 revealed: -The resident was seen in the ED for a fall, urine catheter insertion and blood in the urine. -The resident's laboratory tests included a urinalysis and a urine culture. -The resident was diagnosed with a fall, blood in the urine and prostate cancer metastatic to bone. -There were instructions to continue Cipro for a UTI and to follow-up with a urologist regarding the bleeding in the urinary drainage bag. Review of Resident #2's June 2020 electronic medication administration record (eMAR) revealed: -There was an entry for Cipro 500mg, twice daily scheduled at 8:00am and 8:00pm with a start date on 06/30/20 and a discontinued date as 07/04/20.	{D 273}	dicussed weekly during the at risk and monthly during QA. Upon hire and quarterly thereafter, all PCAs/CNAs/RMAs will attend a [redacted] webinar hosted by the Director of Clinical Compliance (DCC). Certificates of attendance will be placed in their employee file for review, based the attendance record sent from the DCC. Upon hire and monthly thereafter, the RCC/ED will attend a [redacted] webinar hosted by the Director of Clinical Compliance. Certificates of attendance will be placed in their employee file for review, based from the attendance record sent from the DCC. Only a Care Manager can verify and approve physician orders in the electronic medical record system. In the event there is a care manager onsite, the DDCS will be notified with orders scanned to her for approval in the EMR. All New Residents, or residents returning from the hospital will have their physician orders audited by the RCC. New admissions or residents returning from

{D 273}	Continued From page 4 -There were parentheses around the staff's initials documenting the Cipro 500 mg was not administered on 06/30/20 at 8:00am with a reason as the resident was unavailable. -There was documentation Cipro 500 mg was administered on 06/30/20 at 8:00pm. -There was no documentation that Cipro was administered starting 06/25/20 - 06/29/20 as ordered from the ED visit on 06/25/20. Review of Resident #2's PCP visit note dated 07/02/20 revealed: -The resident was being seen for an ED follow-up visit. -The resident had no complaints. -The resident's diagnoses included benign prostate trophy with urinary disruption and a UTI. -The resident would continue the present medications. Review of Resident #2's electronic progress notes revealed: -On 07/11/20, the resident had a fall trying to get to his breakfast tray, had blood in his catheter and was sent to the ED. -On 07/16/20, the resident was found on the floor, was confused and was sent to the ED. Review of a discharge summary for Resident #2 from a local hospital dated 07/24/20 revealed: -The resident was admitted on 07/16/20 and discharged to a skilled nursing facility on 07/24/20. -The residents discharge diagnosis was generalized weakness. Telephone interview with Resident #2's power of attorney (POA) on 07/31/20 at 6:07pm revealed: -The resident was out of the hospital and currently in a rehabilitation facility.	{D 273}	the hospital will be double checked by the DDCS. Orders that are Incomplete or conflicting those with multiple order forms or those not signed within 24 hours of administration, will be verfied by the RCC and/or DDCS within 24 hours of admission and documented in the resident's medical record. All residents charts were audited using the Adult Care Home Licensure Resident Record Review for Resident Monitoring. Clarification orders will be obtained as indicated. Once reconciled and clarified, will be signed and dated by the PCP prior to August 28,2020 and six months thereafter, including standing orders and orders for self-administration. Ongoing compliance will be ensured by the RCC/ED reviewing one resident chart per day, post standup, utilizing the Adult Care Licensure Resident Record Review. Clarification order will be obtained as indicated. Trends of non-compliance will be reviewed during at risk weekly, with more frequent monitoring implemented as

{D 273}	Continued From page 5 -The resident was diagnosed with a "severe" UTI. -The POA thought the UTI started the last part of June 2020. Telephone interview with a MA on 07/31/20 at 11:45am revealed the RCC was responsible for residents' medical appointments and referral and follow up needs. Telephone interview with a second MA on 07/31/20 at 3:20pm revealed: -Resident #2 had declined in the last month or two. -Resident #2 was diagnosed with a UTI and the antibiotic that was ordered was not working. -MAs were responsible to place all resident orders received in the RCC's box located on the wall in the medication room and the RCC would follow-up and process those orders. Telephone interview with the RCC on 07/31/20 at 3:37pm revealed: -She was responsible to follow up on all orders. -The facility used a "Bucket System" for processing and filing all orders to ensure all orders were implemented. -On 06/25/20, a MA informed her Resident #2 had not voided "much". -Resident #2's PCP was in the facility on 06/25/20, saw Resident #2 and told staff to send the resident out to be evaluated in the ED. Review of the facility's Bucket System revealed: -When an order was received, the order was faxed to the facility's contracted pharmacy provider and the order awaited approval in the eMAR system. -The order moved to an orange folder while the facility waited for the delivery of the medication until the delivery sheet was completed and the	{D 273}	indicated. The RCC will be responsible for overseeing the follow-up of any medication not given. The RCC will make sure the doctor is notified as ordered and follow-up to make sure any changes are done. The RCC will use the Bucket Systme to track down any orders given and make sure any follow-up is needed. This will also be followed up with chart audits and focuses of health care follow-up daily. D273 Addendum per telephone with Ms. Sonya Porter Administrator/ED on 09/14/20: In Services regarding healthcare referral and follow-up was also provided on 08/08/20, 08/10/20 and 08/12/20. Which included immediate notification to the healthcare provider of changes in condition, altered behavior, refusals of treatments etc. In Services were done by the Admin/ED. The Completion date should reflect 08/17/20 for this rule area.

D 358	Continued From page 23 Review of an accident/incident report dated 06/25/20 at 2:31pm for Resident #2 revealed: -Resident #2 had no urine going into the urinary catheter bag. -The resident was seen by the PCP prior to being sent to the ED. -The form was generated by a MA. -The Administrator was notified. -The form was completed by the RCC. Review of an ED visit summary for Resident #2 dated 06/25/20 revealed: -The resident was seen in the ED for a urine catheter insertion or check. -The resident's indwelling urinary catheter was replaced, and urine was obtained "which appeared to be possibly infected". -The resident's laboratory tests included a urinalysis and a urine culture. -The resident was diagnosed with an obstruction of the urinary catheter and a UTI with no blood in the urine. -The resident received Cipro at 7:52pm. -There were instructions to start Cipro 500mg twice daily for 7 days and to continue to follow-up with the resident's PCP and urology for further management of the indwelling urinary catheter. -There was a printed stamped date of 06/29/20 at the bottom of the ED visit summary form. Review of Resident #2's electronic progress notes revealed: -On 06/29/20 at 1:49am, there was an entry the resident had a urology appointment at 1:30pm. -On 06/29/20 at 1:39pm, there was an entry the resident had an appointment today. The resident stated that he felt fine but "his appetite hadn't been that great" and had eaten "maybe" 40 percent of his breakfast, and 50 percent of his	D 358	from Hospital Visit Continue to Follow Up on these Orders Once completed place in Green Folder Green Folder Ready to Scan to [redacted] to be file in Residents Chart Once scanned, this item will be stamped, scanned and placed in the current month bin. Cycle Fill Preview Report is sent monthly, reviewed by the RCC or ED and returned to the pharmacy within 48 hours, compared to current physician orders, verifying oral medications scheduled for dispensing. 7-day cycle Multi Dose Packaging is sent 3 days prior to Consumption Date. The SIC or RCC reconciles the mediations delivered, by the Delivery Manifest, within 24 hours of receipt, retaining a copy of the reconciled delivery manifest. Cycle fill should be placed on the cart for consumption on thirds shift, by the Med Tech/SIC, on the date of consumption. Medication hours of administration and meds on hand should be compared to current physician orders, prior to placing on cart. Medications unavailable

D 358	Continued From page 25 pharmacy provider and place the order in her box. Telephone interview with a pharmacy technician at the facility's contracted pharmacy on 08/03/20 at 8:33am revealed: revealed: -The pharmacy dispensed 14 Cipro 500mg tablets on 06/29/20 with instructions to take 1 tablet twice a day for Resident #2. -The order received 06/29/20 was a telephone order signed by a "nurse" and was the only order received for Cipro 500mg to be filled for Resident #2. -The Cipro 500mg would have been delivered the same day (06/29/20) or the next day if the order was faxed late on 06/29/20. Telephone interview with a personal care aide (PCA) on 08/05/20 at 5:09pm revealed Resident #2 had a few falls and needed more assistance with emptying his indwelling urinary catheter bag and had to be checked on more often after returning from the hospital. Telephone interview with the RCC on 08/06/20 at 11:09am revealed: -When a medication order was received, the MA on duty was responsible to fax the medication order to the pharmacy. -The MAs were responsible for placing the residents order in her box. -The residents' order would go through the facility's "Bucket System" until the order is processed and ready to be filed in the residents' record. -The facility's contracted pharmacy staff entered the medication orders in eMAR system. -The new medications added to the eMAR by the facility's contracted pharmacy would be labeled	D 358	removed from the cart until competency and compliance is demostrated. The LHPS RN performed a med pass observation on 08/13/2020. D358 Addendum Per telephone with MS. Sonya Porter Administrator/ED On 09/14/20: Ongoing monitoring of medication administration will be done by monthly chart audits using the MARS, physicians order sheets matching the medications on hand. Performed by the RCC, EDIadm, and the Divisional Director of Clinical Services. The Completion Date should reflect 08/11/20 for this rule area.

D 358	Continued From page 28 not sure why a printed date of 06/29/20 was on the bottom of the form. -Resident #2's Cipro 500mg was delivered to the facility on 06/30/20 at 12:10am and then he went back to the ED on 06/30/20. Review of the facility's Medication Administration policy revealed: -The form was labeled as the pharmacy services and procedures manual for the documentation of New or Changed Physician/Physician/Prescriber's Orders. -The form described processes related to new or changed medication orders for residents who were assisted with medication administration. -Physician/Prescriber medications orders were required for all medications. -The residents' prescription medications were accepted included a verbal order communicated in writing to the facility and an order faxed by the Physician/Prescriber's office and communicated in writing to the facility. Telephone interview with the Administrator on 08/07/20 at 11:50am revealed: -She would have expected the facility to have called the ED immediately to follow up on what treatment and follow up needs the resident had if there was no documentation returned to the facility with Resident #2 on 06/25/20. -When a medication was ordered for a resident, the medication order should be immediately faxed to the contracted pharmacy provider and the order should have been given to the RCC who would have processed the order through the "Bucket System" to assure follow up was done. Telephone interview with Resident #2's PCP on 08/06/20 at 1:12pm revealed: -He could not remember why Resident #2's	D 358

D 358	Continued From page 29 treatment regimen for Cipro was changed to Keflex 500mg on 07/04/20, but thought it was because he saw the resident's urine culture that showed the bacteria causing the infection in his urinary tract was resistant to Cipro. -Cipro 500mg was ordered for Resident #2 to treat an infection and when not treated for that infection, the resident could have continued to experience changes in his mental status, falls and confusion from the side effects of the infection. -Resident #2 would have been at risk for experiencing systemic problems such as fever, tachycardia and ultimately sepsis, however, he did not think the resident reached a point of becoming septic because of the infection and delay in starting the Cipro 500mg Based on interviews and record reviews, Resident #2 was not interviewable. The facility failed to administer medications to Resident #2, who was ordered to start Cipro after being treated on 06/25/20 at a local ED for a urinary tract infection (UTI). Resident #2 was evaluated and treated again for a fall and blood in his urine at the same local ED on 06/30/20 with written instructions to continue the same ordered antibiotic but, the resident was not administered Cipro for 4 days, missing 9 doses from 06/26/20-06/29/20. This failure resulted in a delay of treatment, an increased risk for UTI, continued falls, confusion fever, tachycardia and ultimately could have led to sepsis which was detrimental to the health, safety, and welfare of the residents and constitutes a Type B Violation. The facility provided a Plan of Protection (POP) in	D 358
