0000	Initial Comments The Adult Care Licensure Section and the Bladen County Department of Social Services conducted an annual survey and complaint investigation on 10/22/21. The complaint investigation was initiated by the Bladen County Department of Social Services on 08/30/21. There was an additional complaint received on 10/22/21.	0000		
0079	10A NCAC 13F-0306(p)(5) Housekeeping and Furnishings 10A NCAC 13F-0306 Housekeeping and Furnishings (a) Adult care homes shall (5) be maintained in an uncluttered, clean and orderly manner free of all obstructions and hazards. This Rule shall apply to new and existing facilities. This Rule is not met as evidenced by TYPE B VIOLATION Based on observations, interviews and record reviews the facility failed to ensure the facility was free of hazards including in an unlocked storage and one common bath and shower room where personal care hygiene products, razor blades, antoets and an insecticide were left unsecured and unattended in the Special Care Unit with 18 residents residing. The findings are Observation of the Special Care unit (SCU) on 10/20/21 at 8:00 revealed: The rest room on the left side of the hallway was abled as an office. The office door was not locked, and entry was	0079	0079 The Resident Care Coordinator In-service staff to properly secure all chemicals and toiletries. The RCC also discussed monitoring all areas to ensure facility is free of Hazards. RCC will also begin weekly walks through the building to self-identify compliance with secured chemicals/toiletries and repair and maintenance needs. These procedures were completed on or before December 6, 2021.

IV bolus was started

- The resident had a weak carotid pulse and defibrillator pads were placed on the resident.
- The resident had a white chunky saliva coming out of the mouth and suctioning was performed

The resident's acuity was critical

Review of Resident #8's ED medical provider notes from a local hospital dated 09/26/21 revealed:

- The resident was brought into the ED with shortness of breath and was unresponsive
- There was an entry in the ED medical provider's physical exam that the resident was "non-appearing and pink-appearing"
- The resident's clinical impression was sepsis associated hypotension and the prognosis management comments included pneumonia, sepsis and thoracic status change.
- An admission consult was done with the hospital medical provider for Resident #8

Review of Resident #8's history and physical from the local hospital dated 09/28/21 revealed

The resident's prognosis was very poor.

Discussion was done with the resident's power of attorney (POA) and family and comfort care measures for the resident was decided

- The resident was also found to have a urinary tract infection
- There was documentation in the physical exam section the resident had stage I decubitus ulcers on both hips. (A stage II decubitus ulcer was a term used to describe tissue damage with partial thickness skin loss not but no deeper than the dermis layer of the skin)
- The resident would be admitted to the intensive care unit (ICU)

Review of Resident #8's "Patient Care Timeline"

D-273 Continued From page 32

- She reported her findings to the medication aide (MA) and Resident Care Coordinator (RCC)
- She provided instructions to continue barrier cream to the sacral area and placement of heels on pillow to the MA

Telephone interview with Resident #8's primary care provider (PCP) on 10/22/21 at 8:56am revealed:

- The PCP was not aware the resident had any skin wounds, or pressure ulcers
- It was expected that changes relating to skin breakdown be documented in the resident's chart and reported to the PCP.
- A hospice consult was ordered on 10/14/21 because the resident was generally declining

Interview with Assisted Living (AL) Shift Coordinator on 10/22/21 at 12:30pm revealed

- She was not aware of Resident #8 having a sacral wound or wounds on her heels
- It was expected for staff to notify the shift coordinators and document it in the residents' room
- She did not routinely check residents' skin unless an issue is reported
- The PCAs and MAs were expected to report findings to the AL Shift Coordinator
- The AL Shift Coordinator was expected to report findings to the RCC
- The RCC was responsible for notifying the PCP of changes in condition, including skin breakdown

Interview with Resident #5's guardian on 10/22/21 at 1:32pm revealed:

- She requested a hospice nurse consultation on around 10/13/21 due to the resident's weight loss.
- She was not aware the resident had wounds on her skin
