D 000	Initial Comments The Adult Care Licensure Section conducted an annual survey on 10/12/22 – 10/13/22.	D 000		
D 358	10A NCAC 13F .1004(a) Medication Administration 10A NCAC 13F .1004 Medication Administration (a) An adult care home shall assure that the preparation and administration of medications, prescription and non-prescription, and treatments by staff are in accordance with: (1) orders by a licensed prescribing practitioner which are maintained in the resident's record; and (2) rules in this Section and the facility's policies and procedures. This Rule is not met as evidenced by: Based on observations, interviews, and record reviews, the facility failed to ensure medications were administered as ordered for 3 of 5 residents (#6, #7, #8) observed during the medication pass including errors with a medication for constipation (#6, #7); a topical pain patch (#7); and a calcium supplement (#8); and for 1 of 5 sampled residents (#1) including errors with an antipsychotic, a medication to lower cholesterol, and two vitamin supplements (#1). The findings are: 1. The medication error rate was 14% as evidenced by 4 errors out of 27 opportunities during the 8:00am medication pass on 10/13/22. a. Review of Resident #6's current FL-2 dated 06/13/22	D 358

D 358	Continued From page 1 revealed: -Diagnoses included atrial fibrillation, history of falling, iron deficiency, and back pain. -There was an order for Senna 8.6mg take 2 tablets once daily, hold for diarrhea. (Senna is a laxative used to treat and prevent constipation.) Observation of the 8:00am medication pass on 10/13/22 revealed: -The medication aide (MA) prepared and administered 1 tablet of Senna 8.6mg to Resident #6 at 8:07am. -The resident was administered 1 Senna 8.6mg tablet instead of 2 tablets as ordered. Review of Resident #6's October 2022 medication administration record (MAR) revealed: -There was an entry for Senna 8.6mg take 2 tablets every day, hold for diarrhea. -Senna was scheduled for administration at 8:00am. -Senna was documented as administered from 10/01/22 – 10/13/22. Observation of Resident #6's medications on hand on 10/13/22 at 11:50am revealed: -There was a supply of Senna 8.6mg tablets dispensed on 10/01/22 with instructions to take 2 tablets every day, hold for diarrhea. -There were 5 of 60 tablets remaining. Interview with the MA on 10/13/22 at 11:54am revealed: -She usually administered 2 Senna 8.6mg tablets to Resident #6. -She administered 1 Senna 8.6mg tablet to Resident #6 that morning (10/13/22) because she forgot to administer 2 tablets. D 358	Continued From page 2 -The resident had not complained of any issues with constipation or diarrhea. Interview with Resident #6 on 10/13/22 at 3:54pm revealed: -The resident was unsure which medications she received. -She had no current issues with constipation or diarrhea. Interview with the Director of Resident Care (DRC) on 10/13/22 at 12:20pm revealed: -The MAs should read and double check the MARs and the medication labels when administering medications. -Resident #6 should have received 2 Senna tablets instead of 1 tablet that morning on 10/13/22. Telephone interview with Resident #6's primary care provider (PCP) on 10/13/22 at 3:05pm revealed: -Resident #6 should have received 2 Senna tablets instead of 1 tablet. -The resident's bowels had been stable and she was not aware of any current issues with constipation. b. Review of Resident #7's current FL-2 dated 01/13/22 revealed: -Diagnoses included chronic diarrhea and cognitive deficits. -There was an order for Lidocaine 4% topical patch apply 1 patch to the left hip daily, remove after 12 hours. (Lidocaine is a topical patch used to treat pain.) Review of Resident #7's physician's orders dated 06/06/22 revealed: -There was an order for Lidocaine 4% patch apply topically once daily.	D 358

D 358	Continued From page 3 -The order did not specify where the patch should be applied. Review of Resident #7's physician's orders revealed no documentation the incomplete order for the Lidocaine 4% patch was clarified. Observation of the 8:00am medication pass on 10/13/22 revealed the medication aide (MA) applied 1 Lidocaine 4% patch to Resident #7's right lower back/hip area at 8:55am. Review of Resident #7's October 2022 medication administration record (MAR) revealed: -There was an entry for Lidocaine 4% patch apply topically once daily. -Lidocaine patch was scheduled to be applied at 8:00am and removed at 8:00pm. -Lidocaine patch was documented as administered from 10/01/22 – 10/13/22. Observation of Resident #7's medications on hand on 10/13/22 at 12:03pm revealed: -There was a box of Lidocaine 4% patches dispensed on 09/06/22. -The instructions on the label were to apply topically once daily. Interview with the MA on 10/13/22 at 12:02pm revealed: -She usually applied Resident #7's Lidocaine patch to either the resident's left or right hip because that was where the resident wanted the patch applied. -She had not noticed the instructions on the MAR and the medication label did not specify where the patch was to be applied. D 358	Continued From page 4 Interview with Resident #7 on 10/13/22 at 4:33pm revealed: -The MAs usually applied the Lidocaine patch to her right lower back. -She thought the patch helped a little with her pain. Interview with the Director of Resident Care (DRC) on 10/13/22 at 12:20pm revealed: -She had not noticed Resident #7's current order for the Lidocaine patch did not include a specific location for the patch to be applied. -The order should have been clarified. -The MAs should notify her or the Wellness Nurse if clarification was needed. -The MAs could also contact the provider for clarification of the order. -Orders for topical medications should include a specific location for administration. -The resident usually wanted the path applied to her right lower back/gluteal area. Telephone interview with Resident #7's primary care provider (PCP) on 10/13/22 at 3:05pm revealed: -The facility had not contacted her to clarify Resident #7's Lidocaine order. -Resident #7 had chronic back pain and used Lidocaine patches to treat the pain. -She would clarify the order today, 10/13/22. c. Review of Resident #7's physician's order dated 03/15/22 revealed an order for Metamucil powder take 1 scoop daily. (Metamucil is a fiber laxative that may be used to treat constipation or diarrhea.) Observation of the 8:00am medication pass on 10/13/22 revealed:	D 358

D 358	Continued From page 6 Metamucil was 2 teaspoons. -The resident had a bowel movement with loose stool on 10/01/22 but no problems with diarrhea or constipation since then. Interview with Resident #7 on 10/13/22 at 4:33pm revealed: -She did not know if she received Metamucil every day. -She was sometimes a little constipated but not often. Interview with the Director of Resident Care (DRC) on 10/13/22 at 12:20pm revealed: -The Metamucil container usually had a scoop that the MAs should use to measure the proper amount to be administered. -If there was no scoop, the MAs should use the information on the label which usually indicated how much Metamucil powder was in one scoop. -She was not aware the current supply of Metamucil did not have a scoop. -The MAs should have notified her. Telephone interview with Resident #7's primary care provider (PCP) on 10/13/22 at 3:05pm revealed: -The MAs should measure and administer the correct dose of Metamucil to Resident #7. -Receiving too much Metamucil may cause the resident to have more bowel movements. d. Review of Resident #8's current FL-2 dated 05/17/22 revealed: -Diagnoses included osteoporosis. -There was an order for Calcium 1200mg daily. (Calcium is a supplement used to treat osteoporosis or thinning of the bones.)	D 358

D 358	Continued From page 7 Observation of the 8:00am medication pass on 10/13/22 revealed: -The medication aide (MA) administered one Calcium 600mg/Vitamin D 500IU) softgel to Resident #8 at 9:01am. -The MA did not administer 1200mg of Calcium as ordered. Observation of Resident #8's medications on hand on 10/13/22 at 9:05am revealed: -There was an over-the-counter (OTC) supply of Calcium with Vitamin D in the original manufacturer's container for Resident #7. -The manufacturer label on the front of the bottle had Calcium 1200mg/plus Vitamin D3 1000IU per serving. -The manufacturer label on the back of the bottle had 2 softgels were one serving size and 2 softgels contained 1200mg of Calcium and 1000IU of Vitamin D3. Review of Resident #8's October 2022 medication administration record (MAR) revealed: -There was an entry for Calcium 600mg take 2 tablets (1200mg) every day scheduled at 8:00am. -Calcium was documented as administered from 10/01/22 – 10/13/22. Interview with Resident #8 on 10/13/22 at 4:28pm revealed she thought she took Calcium and Vitamin D but she was not sure how much she received each day. Interview with the MA on 10/13/22 at 11:57am revealed: -The resident's family brought the resident's OTC medications to the facility. -She usually administered 1 softgel from the OTC Calcium bottle on hand. D 358	Continued From page 13 Telephone interview with Resident #1's family member on 10/13/22 at 3:44pm revealed: -She took Resident #1 to PCP appointment on 09/27/22. -She left the facility without the normal appointment folder due to being rushed. -She left the paperwork from the PCP with the receptionist or the Wellness Nurse. -She could not remember for certain. -The PCP discontinued the medications because Resident #1 was declining and no longer needed the medications. -The PCP was not concerned about any toxicity or side effects. Interview with the Wellness Nurse on 10/13/22 at 12:57pm revealed: -She found the orders dated 09/27/22 for Resident #2 on 10/12/22 when she was checking resident charts. -Normally, when family members took residents to outside providers, they brought a facility folder for the resident to the appointment and returned the folder and new orders. -The resident appointment folder was supposed to be returned to one of the medication aides (MAs). -Sometimes the folder might have been left with the receptionist who was usually good about notifying either the MA or her. -The MA was responsible for transcribing medication orders and faxing the orders to the pharmacy. -The MA was responsible for documenting the orders on a tracking sheet and she checked tracking sheet to follow up on all new orders. -The box was on the wall but due to construction at the facility, the box had been taken down. D 358	Continued From page 14 Telephone interview with the facility's contracted PCP on 10/13/22 at 4:45pm revealed: -She became aware last week (10/06/22) Resident #1 had two PCP's: she and an outside PCP. -A family member continued taking Resident #1 to see her PCP from prior to admission. -The out of state Power of Attorney (POA) agreed to transfer Resident #1's care to her, the facility's contracted PCP. -Her initial visit with Resident #1 was shortly after the resident was admitted to the facility (07/11/22). -She made decisions for the resident based on her records. Interview with the Wellness Nurse on 10/13/22 at 4:45pm revealed: -The facility's contracted PCP was Resident #1's PCP. -The outside provider the family took the resident to was a geriatric neurology specialist. Interview with the Director of Resident Care (DRC) on 10/13/22 at 12:57pm revealed: -A family member took Resident #1 to the PCP visit on 09/27/22. -The family member must have given the after-visit forms and new orders to one of the personal care aides (PCAs) instead of the MA. -The orders were filed in Resident #1's chart without being transcribed on the MAR or faxed to the pharmacy. Attempted telephone interview with Resident #1's original PCP on 10/13/22 at 4:16pm was unsuccessful.	D 358

D 406	Continued From page 16 October 2022 medication administration records (MARs) revealed: -There were preprinted entries for meclizine 12.5mg twice daily. -There was documentation doses were administered 08/01/22 through 10/12/22 except on 10/10/22 (at the hospital). Interview with Resident #2's primary care provider (PCP) on 10/13/22 at 3:05pm revealed: -She did not recall seeing the medication review recommendations dated 05/26/22 for Resident #2. -She last saw the resident on 09/12/22 and her visit note said to continue current regimen so she probably would not have changed any of the orders. -She was usually at the facility every Monday. -Normally, medication reviews were placed in her folder on each floor of the facility by staff. -She signed the medication review recommendations and placed signed forms in the folder for staff to fax to the pharmacy. -Sometimes she handed the signed forms to a medication aide (MA) if they were not busy. Interview with the Wellness Nurse on 10/13/22 at 4:54pm revealed: -She was responsible for following up on quarterly medication reviews. -She had not seen the pharmacy consultant's recommendations for the reviews done in May and August 2022 until 10/12/22. -She had been working often on the medication cart and providing direct care to residents. -The pharmacy consultant did not usually discuss the outcome of quarterly medication reviews with her. -The pharmacy consultant usually only came to her	D 406

D 406	Continued From page 17 with questions. -She did not know who at the facility the pharmacy consultant sent the quarterly medication review summary and recommendations to. Interview with the Director of Resident Care (DRC) on 10/13/22 at 5:07pm revealed: -The pharmacy consultant completed an exit process with her after each quarterly medication review. -The pharmacy consultation report and recommendations were emailed to her and the Wellness Nurse. -She or the Wellness Nurse placed the recommendations in the PCP's folder to be signed. -Signed recommendation forms were faxed back to the pharmacy. -She had not kept signed and faxed recommendations for residents. Interview with the Administrator on 10/13/22 at 5:07pm revealed she was responsible for ensuring the DRC and Wellness Nurse followed up on quarterly medication review recommendations. Attempted telephone interview with the facility's contracted pharmacy consultant on 10/13/22 at 4:25pm was unsuccessful.	D 406
