The findings are: 1. Review of Resident #2s current FL-2 dated 06/09/23 revealed diagnoses included dementia, Type II diabetes mellitus, primary hypertension, hypomagnesemia, hyperlipidemia, and coronary arteriosclerosis.	D 273	Vital Parameters were set on the EMAR system on 10/11/2023. A notification is sent to the Director and the Rcc any time a vital is out of range. This includes weights, pulse, respirations, o2 levels and blood glucose levels. Director/RCC also receive notifications of any medication not administered and on all chart notes written. Notifications are checked daily by Director or RCC. PCP receives a daily update of any issues or concerns with any resident if there are any. Facility PCP also has access to the EMAR system and can monitor medications any time she chooses.
