Attached to this letter are the required findings made with respect to your application. The applicant shall not proceed with the construction, offering or development of this project until the certificate of need is issued. Further, the Department shall not issue the certificate of need until all applicable conditions of approval that can be satisfied before issuance of the certificate of need have been met pursuant to G.S. 131E-187(a). The conditions are as follows:

5. Prior to issuance of the certificate of need, Bio-Medical Applications of North Carolina, Inc. d/b/a BMA Southwest Wake shall acknowledge in writing to the Certificate of Need Section acceptance of and agreement to comply with all conditions stated herein.

Response to the above conditions should be submitted to the CON Section no later than 35 days from the date of the decision. Failure to respond within this time period may result in the CON Section making a determination not to issue a certificate of need for the project referenced above.

The conditional approval is valid only for a capital expenditure of \$0. If a cost overrun occurs that exceeds the approved capital expenditure amount, a new certificate of need may be required as determined by G.S. 131E-176(16)(e).

The applicant should be aware that according to the Certificate of Need Law any affected person shall have thirty (30) days after the date of decision to file a petition for a contested case on this approval. G.S. 150B-23 provides that a party filing a petition must also serve a copy of the petition on all parties to the petition. Therefore, if you file a petition for a contested case hearing, you must serve a copy of the petition on the Department of Health and Human Services by mailing a copy of your petition to:

The timetable for completion of the project is the timetable outlined in the certificate of need application, unless an adjustment has been made by the CON Section because the review period was extended.
