Re: Notice of Exempt Development of Physician Office Building 1305 Lees Chapel Road, Unit or Suite 102, Greensboro 27455-2601 (Guilford County)

Dear Mr. Smith:

I am writing on behalf of Carolina Kidney Associates, PA regarding the planned development of a physician office building at 1305 102 Lees Chapel Road, Greensboro, NC 27455-2601. The purpose of this letter is to provide the Certificate of Need ("CON") Section with prior written notice, pursuant to N.C. Gen. Stat. 131E-184(a)(9), of these plans to develop the physician office building.

No new institutional health services will be offered or developed in the facility without first obtaining CON approval. The physicians plan to obtain and utilize a used portable C-arm unit (x-ray) that has a fair market value of $173,964 as seen in the enclosed quote. This imaging equipment would not be considered a new institutional health service due to its minimal capital cost. Further, this imaging equipment is not attached to the building.

Based on this information, Carolina Kidney Associates, PA requests that the Agency confirm that the development of a physician office building at 1311 Lees Chapel Road, Suite 102 Greensboro, NC 27455-2601 (legal description of Common CPB 13-127 NORTH RIDGE VLG COND) does not require CON review.

If you require additional information on this matter, please do not hesitate to contact me at 336 349-6250.

Sincerely,

President

Customer is responsible to develop and implement interfaces from the Licensed Software running on the client workstation to any third party Radiology Information System (“RIS”) or Mammography Information System (“MIS”) or to contract with the RIS and/or MIS vendor to have them perform these interface obligations on Customer’s behalf. Interfacing the solution from the solutions server is not permitted. Philips shall provide Customer an API toolkit for the Licensed Software to aid Customer to perform such interface tasks. The successful and reasonably timely completion of these projects takes good faith efforts on the part of both Philips and Customer, especially when Customer has third party interfaces to develop and implement. A project implementation plan is based on completion dates mutually agreed by the parties that should be
reflective of the obligations of both parties. These dates are entered into the project implementation plan for this solution (the "Project Implementation Plan"). In the event Customer has not fulfilled its interface obligations by the dates set forth in the Project Implementation Plan, Customer will sign Philips' acceptance (MDR) document for the Philips deliverables sold and pay the final payment described in Subsection 1.1(c), provided that Philips has installed the Philips deliverables and provided the interfaces Philips is responsible for pursuant to Subsection 6.1, and that the Philips deliverables substantially meet Philips' published specifications.

Philips shall have no obligation to validate any other third party operating system or anti-virus software. Customer shall not install or use (a) operating system patches, updates or upgrades; (b) anti-virus updates (except to the DAT files, i.e., virus definitions); or, (c) upgrades to anti-virus search engines, collectively (a)-(b) prior to validation testing and approval by Philips ("Unauthorized Updates"). 6.4 Customer's Network Connectivity Obligations. Customer must have network connectivity between the IntelliSpace Breast solution server, the client workstation, and the optional DynaCAD server of not less than 1GB/s, and all three systems must be on the same subnet. A connection of no less than 500 MB/s is required between the IntelliSpace Breast solution and the hospital network. However for optimal performance a 1GB/s network between the IntelliSpace Breast and the hospital network is recommended.

6.5 RSN Warranty Condition Requirement. As a condition to receiving warranty service on this solution, Customer agrees it shall use Philips Remote Service Network ("RSN") service to enable Philips to access the system to perform its support obligations.

Examination of the returned tube may necessitate its destruction, but Philips' liability shall, in any case, be limited to repair or replacement as described, only if its sole opinion the tube has been properly used, installed and applied and has not been subjected to neglect, accident, or improper installation, or use. Transportation charges and risk of loss, both ways, of returned or replaced tubes shall be at the expense of the Customer.

SYSTEM SOFTWARE AND SOFTWARE UPDATES

The software provided with the System will be the latest version of the standard software available for that System as of the 90th day prior to the date the System is delivered to Customer. Updates to standard software for the System that do not require additional hardware or equipment modifications will be performed as a part of normal warranty service during the term of the warranty.

All software is and shall remain the sole property of Philips or its software suppliers. Use of the software is subject to the terms of a separate software license agreement. Customer must sign all such license agreements prior to or upon the delivery of the product. No license or other right is granted to Customer or any other party to use the software except as set forth in the license agreements.

Any Philips maintenance or service software and documentation provided with the product, and/or located at Customer's premises, is intended solely to assist Philips and its authorized agents to install and test the System, to assist Philips and its authorized agents to maintain and service the System under a separate support agreement with Customer, or to permit Customer to maintain and service the System. Customer agrees to restrict the access to such software and documentation to Philips' employees and those of its authorized agents, and to authorized employees of Customer only.

WARRANTY LIMITATIONS

Philips' obligations under the System are limited, at Philips' option, to the repair or the replacement of the System or a portion thereof, or to a credit or refund of a portion of the purchase price paid by Customer. Certain of the parts used in the manufacture or installation of, or in the replacement parts for, this System may contain refurbished components. If such components are used, they will be subject to the same quality control and inspection procedures as all other components in the System. Any System warranty is made on condition that Philips receives written notice of a System defect during the warranty period, and within thirty (30) days following the discovery of the defect by Customer. Philips' obligations under the System warranty do not apply to any System defects resulting from: Improper or inadequate maintenance or calibration by Customer or its agents, Customer or third party supplied software, interfaces, or supplies, use or operation of the product other than in accordance with the instructions, or damage in transit; Improper site preparation; unauthorized maintenance or Philips applicable product specifications and written instructions; abuse, negligence, accident, modifications to the System; or, to viruses or similar software interference resulting from the connection of the product to a network. The obligations of Philips described above are Philips' only obligations and Customer's sole and exclusive remedy for a breach of a warranty. Repairs or replacement parts do not extend the term of this warranty.

1. GENERAL

Philips shall provide to Customer the uptime guarantee specified below ("Uptime Guarantee") on the System listed in the quotation or Attachment A as having uptime as an entitlement ("Uptime System"). Uptime System does not include peripherals, such as external printers, archiving devices, external display monitors, or attached cameras. If Customer does not meet its responsibilities described in Section 6 of Exhibit 1, then Customer is not entitled to the benefits of this Uptime Guarantee.

If an item of Uptime System fails to achieve the Uptime Percentage (as defined below) set forth on Schedule 3(a) below, then Customer, as its sole and exclusive remedy, will receive a discount of future Agreement payment(s), as described in Section 3 below.

2. DEFINITIONS

a. Measurement Period: The measurement period for determining Uptime Percentage is 12 months beginning on the effective date of the Agreement and thereafter on the annual anniversary date of the effective date.

b. Base Hours means the hours/day and days/week over which Uptime Hours and Downtime will be calculated during the Measurement Period. The Base Hours will be the contracted hours of coverage provided for under the Agreement for each particular piece of Uptime System.

c. Downtime means the time that the Uptime System is unable to produce diagnostic images during the Base Hours of any given Measurement Period solely due to Philips’ design, manufacturing, materials, or Service performance failure. Measurement of Downtime commences when the Customer notifies the Philips customer service center that the Uptime System is unable to produce diagnostic images. Downtime does not include time due to planned maintenance service, ovens replenishment, installation of upgrades and updates, x-ray tube replacement, or an occurrence or condition excluded under the Agreement. Philips may verify Downtime and adjust calculations accordingly.

d. Uptime Hours is determined by subtracting the total Downtime from the Base Hours for a particular piece of Uptime System [Uptime Hours = Base Hours – Downtime].

e. Uptime Percentage is determined by dividing the Uptime Hours by the Base Hours, and multiplying the result by 100 [Uptime Percentage = (Uptime Hours/Base Hours) x 100].

3. ADJUSTMENT SCHEDULE

If the Uptime Percentage specified in Schedule 3(a) is not achieved for Uptime System then the specified discount will be applied to all payments due during the next Uptime Measurement Period for the Uptime System that did not achieve the Uptime Percentage

4. UPTIME PERCENTAGE DETERMINATION

The Uptime Percentage is determined according to the following formula: Uptime Percentage = (Uptime Hours/Base Hours) x 100. Below are examples of how Uptime Percentage is determined:

a. MEASUREMENT EXAMPLE # 1:
   Base Hours = 8 AM to 5 PM Monday through Friday over the 12 month Measurement Period.
   9 hours x 5 days x 52 weeks = 2,340 Base Hours
   2,340 Base Hours – 60 Downtime hours = 2,280 Uptime Hours
   \[
   \frac{2280}{2340} \times 100 = 97.4\% \text{ Uptime Percentage}
   \]

b. MEASUREMENT EXAMPLE # 2:
   Base Hours = 8 AM to 5 PM Monday through Friday over the 12 month Measurement Period.
   13 hours x 5 days x 52 weeks = 3,360 Base Hours
   3,360 Base Hours – 60 Downtime hours = 3,300 Uptime Hours
   \[
   \frac{3300}{3360} \times 100 = 98.2\% \text{ Uptime Percentage}
   \]

5. REPORTS

Uptime Percentage performance reports will be provided at the Customer’s request for any Measurement Period while this Uptime Guarantee remains in effect. To receive any applicable discount, Customer must notify Philips in writing that the Uptime Percentage was not achieved for a particular System within 60 days after the end of a Measurement Period.

6. WARRANTY DISCLAIMER

Philips full Uptime Guarantee obligations to Customer are described in this Exhibit. Philips provides no warranties under this Uptime Guarantee. NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE APPLIES TO THIS UPTIME GUARANTEE.

7. LIMITATIONS OF REMEDIES AND DAMAGES

Philips total liability, if any, and Customer’s exclusive remedy with respect to this Uptime Guarantee and Philips performance hereunder is limited to the remedies stated herein.
