<td><strong>Correction for the alleged deficient practice noted as the facility has mixed oxygen cylinders on the empty side where full cylinders were observed to be stored.</strong>&lt;br&gt;Was to immediately sort and properly store the cylinders in appropriate spaces. An in-service was made available to all staff on proper storage of oxygen containers and importance of ready availability. The Maintenance Director will check all oxygen storage spaces in the facility for proper signage and continued compliance with spot checks and regular weekly checks for the next three months. All findings and documentation will be presented to and discussed during the next three monthly Safety Committee meetings. Continued reviews will continue quarterly thereafter until next annual survey.</td>
