A Life Safety Code (LSC) survey was conducted as per The Code of Federal Register at 42CFR 483.70(a); using the 2000 Existing Health Care section of the LSC and its referenced publications. In the exit conference all deficiencies noted were discussed with administration. Facility is using delayed egress system.

Stories: 2
Construction Type III
Constructed: 1988
Fully Sprinkled - Yes
At time of survey the:
Certified Beds: Medicare/Medicaid - 150
Census - 115

The requirement at 42 CFR, Subpart 483.70(a) is NOT MET as evidenced by:

K 017 5/8/15
SS=D LIFE SAFETY CODE STANDARD

Corridors are separated from use areas by walls constructed with at least ½ hour fire resistance rating. In sprinklered buildings, partitions are only required to resist the passage of smoke. In non-sprinklered buildings, walls properly extend above the ceiling. (Corridor walls may terminate at the underside of ceilings where specifically permitted by Code. Charting and clerical stations, waiting areas, dining rooms, and activity spaces may be open to the corridor under certain conditions specified in the Code. Gift shops may be separated from corridors by non-fire rated walls if the gift shop is fully sprinklered.)

This **STANDARD** is not met as evidenced by:

1. **Based on observations, on 03/26/2015 at approximately 8:30 AM onward,** the following deficiencies were noted:
   1. Power strip being used in room's 228 and 310 for refrigerator and TV's.
   2. Exhaust fan for bathroom 125 not working.
   3. Outlets by sink's in beauty shop are not GFCI protected.

**NFPA 70**

This deficiency affected three of four smoke compartments. Failure to comply with minimum standards as referenced increases the risk of death or injury due to fire and/or smoke.

The power strips in room 228 and 310 have been removed. We will identify any other power strips in use and remove them. The exhaust fan in 125 has been repaired, and the outlets in the beauty shop have been replaced with outlets that are GFCI protected rounds will be made weekly for 4 weeks and monthly for 2 months to monitor for compliance. Results brought to the QA committee for review.
