F 000 INITIAL COMMENTS

The facility was found to be in compliance with the Medicare/Medicaid Long Term Care regulations, 42 CFR part 483, subpart B during the recertification survey of 6/6/2013.
NFPA 101 LIFE SAFETY CODE STANDARD

Smoking regulations are adopted and include no less than the following provisions:

1. Smoking is prohibited in any room, ward, or compartment where flammable liquids, combustible gases, or oxygen is used or stored and in any other hazardous location, and such area is posted with signs that read NO SMOKING or with the international symbol for no smoking.

2. Smoking by patients classified as not responsible is prohibited, except when under direct supervision.

3. Ashtrays of noncombustible material and safe design are provided in all areas where smoking is permitted.

4. Metal containers with self-closing cover devices into which ashtrays can be emptied are readily available to all areas where smoking is permitted. 19.7.4

As of June 26, 2013, the date of the inspection, smoking is no longer permitted in the area cited. All smoking related materials have been removed and the area now has signs stating it is non smoking.

TITLE: Administrator

DATE: 7/26/2013

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
