**DATE**

July 21, 2014
**Concerning proper cooking techniques:**

In-service cooks on the following:
- Proper way to cook meats and vegetables.
- Understanding that the residents like tender and well-cooked vegetables.
- Instructing cooks to taste everything that is served.

Persons responsible are cooks, corporate chef, dietary manager, assistant dietary manager, manager-in-training, and district manager.

Target date is continuous effort.

Update/Outcome/Date resolved is to make sure the food is palatable and the residents are satisfied.

**Concerning performing test trays:**

Performing five test trays per week for the next three weeks. The test tray tool will be used to perform this test.

Persons responsible are cooks, corporate chef, dietary manager, assistant dietary manager, manager-in-training, and district manager.

Target dates are May 26, 2014 through June 17, 2014.

Update/Outcome/Date resolved is residents satisfied with palatable food.
F 364  Continued From page 2
not eat it.

Review of Resident #80's quarterly Minimum Data Set (MDS) dated 2/26/14, revealed the ability to understand and be understood by others with intact cognition and identified by staff as alert and oriented.

During the initial tour on 4/28/14 at 6:30PM, Resident #80 indicated that the vegetables were mushy and tasteless and lunch and dinner meals did not come hot, it was barely warm. She added that her family has spoken with the kitchen staff several times about the food and nothing has changed in the past month.

During an observation on 5/1/14 at 2:15PM, Resident #80 indicated the pork with gravy was cold, hard and difficult to chew, the vegetables were lukewarm and the meal arrived late. You just get tired and eat what you can.

Review of Resident #79's quarterly Minimum Data Set (MDS) dated 2/18/14, revealed the ability to understand and be understood by others with intact cognition and identified by staff as alert and oriented.

During an interview on 5/1/14 at 8:49AM, NA# 3 indicated that when a resident has food concerns they were reported to nursing. She indicated that if a resident asked to reheat the food staff would go to the nourishment room to reheat the meal. She indicated some residents had reported concerns about the food temperatures.

During an interview on 5/1/14 at 10:30AM, NA#2 indicated that residents had complained about the food quality and missing items on tray.
Continued From page 3
indicated that most of the time staff had to call back to the kitchen to get a replacement or alternate. She added that if the resident asked for the food to be reheated staff would have to go to the nourishment room to reheat the item.

During an observation on 5/1/14 at 2:10PM, Resident #79 was attempting to eat the pork with gravy, stewed tomatoes and mashed potatoes. Resident #79 stated that she could not eat the pork with gravy because it was too tough, the stewed tomatoes were not edible and the mashed potatoes were cold. The family went to the kitchen to get Resident #79 a salad due to difficulty consuming the selected meal.

During an interview on 5/1/14 at 2:10PM, a family member indicated that she assisted Resident #79 with the daily meal selections. The family further stated that Resident #79 did not always get what was selected on the menu and the meats were tough and difficult to chew. The meal came cold sometimes and you have to ask for the meal to be reheated. In addition, the facility staff had been made aware of the food quality for several months. The family indicated that they had to go to the kitchen to get something Resident #79 could eat which was a salad.

During an interview on 5/1/14 at 12:20PM, the administrator indicated he was aware of the resident's food concerns. He further indicated that the expectation would be the DM develop an organized system to ensure the food concerns were resolved to the satisfaction of the residents. The DM was responsible for resolving resident council concerns regarding foods and report back to them monthly with the resolution. Residents should received their preference per the meal.

Concerning removal of spoiled/rotten food:

We will monitor all storage areas whether refrigerated or dry for spoiled/rotten foods. This is part of the opening and closing walk-through that is done on a daily basis.

Persons responsible are account manager, assistant account manager, manager-in-training, diet aids and cooks.

Target date is continuous effort.

Update/Outcome/Date Resolved is to ensure that no spoiled/rotten foods are in the dietary department.

Concerning cleaning storage racks and cards:

We will in-service the staff on the following:

- Wiping down cards after service.
- Following their daily cleaning assignments and asking for help when unable to accomplish.
F 371 Continued From page 5
The findings included:

1. During an observation of the kitchen on 4/28/14 at 7:40PM, the walk in refrigerator had 1 box of fresh tomatoes which contained spoiled/rotten tomatoes and onions that were mushy and molded.

   During an interview on 4/28/14 at 8:05PM, the dietary manager assistant (DMA) and registered dietitian (RD), dietary manager indicated the fresh produce should be checked when delivered and the spoiled/rotten produce should be discarded.

2. During an observation on 4/28/14 at 7:40PM, the walk in refrigerator had 1 meal cart that had fresh salad stored on the trays/shelves. The cart was dirty with dried food and liquids on the cart.

   During an interview on 4/28/14 at 8:05PM, the dietary manager assistant (DMA) and RD indicated that cart should be cleaned every night before foods were place on the cart and stored in the refrigerator.

3. During an observation on 4/28/14 at 7:40PM, the steamer box and hot plate cart had a large volume of grease and food/liquid build up on the inside and outsides of the units.

   During an interview on 4/28/14 at 8:05PM, the dietary manager assistant (DMA) and RD indicated that steamer box and hot plate cart should be cleaned every night.

4. During an observation on 4/28/14 at 7:40PM, the following items were found dented: 3 cans of pinto beans, 2 cans of diced mixed fruit and 1 can of slice peaches located on a shelf identified for a

F 371 This is part of the opening and closing walk-through that is done on a daily basis.

Persons responsible are account manager, assistant account manager, manager-in-training, diet aids and cooks.

Target date is continuous effort.

Update/Outcome/Date Resolved is to insure sanitation and cleanliness are kept up with on a day-to-day basis.

Concerning steamer and place warmer:

In-service the staff on the following:
- Instruct the cooks to change water in steamer after every meal.
- Follow the cleaning matrix to ensure steamer and plate warmer stay clean.
- Follow the daily cleaning assignments and ask for help when unable to accomplish.

This is part of the opening and closing walk-through that is done on a daily basis.

Persons responsible are account manager, assistant account manager, manager-in-training, diet aids, and cooks.

Target date is continuous effort.

Update/Outcome/Date Resolved is to insure sanitation and cleanliness are kept up with on a day-to-day basis.
**F 371** Continued From page 6
cookout dated 4/29/14 in the dry storage area.

During an interview on 4/28/14 at 8:05PM, the DMA and RD indicated that the dented cans should be returned to the vendor and removed from the general shelf of canned goods.

5. During an observation on 4/28/14 at 7:40PM, there were 2 packages of 12 count hamourger buns that had expired on 3/15/14 stored with fresh bread in the dry storage area.

During an interview on 4/28/14 at 8:05PM, the DMA and RD indicated that the bread should be checked upon delivery and the expired breads should be reported to vendor.

6. During an observation on 4/28/14 at 7:40PM, there were 30 wet silver serving pans stacked on top one another on the dry storage shelf.

During an interview on 4/28/14 at 8:05PM, the DMA and RD indicated that the pans should not be stacked wet and they should be separated to air dry.

During a follow-up observation on 5/1/14 at 11:00AM, the dented cans had not been removed. The dietary manager indicated that the cook was responsible for ensuring that the stock person checked refrigerator and dry storage for products that were dented, expired or spoiled prior to placement in these areas. The expired and dented items should be reported and returned to vendor. The kitchen equipment should be throughly cleaned before the end of the night shift and the dish room staff was responsible for ensuring the dishes/panns were not stacked or wet on top of one another. The pans

---

Concerning Dented Cans:

Monitor all stock that comes in and separate dented cans from ready-to-use cans. Manager follows up on a day-to-day basis to ensure no dented cans are mixed with ready-to-use cans. In-service all staff on proper procedure when dented cans are discovered. The dented can check list will be used to monitor this,

This is part of the opening and closing walk-through that is done on a daily basis.

Persons responsible are account manager, assistant account manager, manager-in-training, diet aids, cooks and district managers.

Target date is continuous effort.

Update/Outcome/Date Resolved is to ensure no dented cans are mixed in with ready-to-use cans.

Concerning labeling and dating:

In-service the staff on the following:

- Everything that is received needs a received date.
- Once a product is open it needs an open date.
- Following the time line of three days after the product is open.
- Make sure stock is rotated correctly.
- Have manager and district managers follow-up with sanitation inspections daily.
F 371 Continued From page 7
should be air dried on the drying rack.

F 371

This is part of the opening and closing walkthrough that is done on a daily basis.

Parties responsible are account manager, assistant account manager, manager-in-training, diet aids, cooks, and district manager.

Target date is continuous effort.

Update/Outcome/Date Resolved is to ensure products are labeled and dated so that no expired food is used/consumed.

Concerning wet nesting:

In-service the staff on the following:

- Proper way to stack dishes/ pans
- The importance of making sure no wet items go on shelves.
- Letting dishes/ pans air dry before putting them on the shelf.

This is part of the opening and closing walkthrough that is done on a daily basis.

Parties responsible are account manager, assistant account manager, manager-in-training, diet aids, cooks and district manager.

Target date is continuous effort.

Update/Outcome/Date Resolved is to ensure that wet nesting does not occur in the dietary department.
