<td>483.25(a)(3) ADL CARE PROVIDED FOR DEPENDENT RESIDENTS</td>
<td>1/8/15</td>
</tr>
</tbody>
</table>

A resident who is unable to carry out activities of daily living receives the necessary services to maintain good nutrition, grooming, and personal and oral hygiene.

This REQUIREMENT is not met as evidenced by:

Based on observation, staff interview and record review, the facility failed to ensure that one of three residents who required assistance with feeding was fed at the same time as other residents in the dining room (Resident #23).

Resident #23 was admitted 10/7/14 with a diagnosis of dementia.

The admission Minimum Data Set (MDS) dated 10/14/14 noted Resident #23 to be severely impaired for cognition, and needed extensive assistance for eating with the physical assistance of one person. The Care Area Assessment indicated that the resident needed attention to nutritional status, and this area went to care plan.

On 12/8/14 at 12:38 PM, an observation was made of a staff member serving Resident #23 his plate of food. Two other staff members were observed feeding two other residents at the same table at this time. Upon finishing feeding one of the two residents at the table, one of the staff members began to feed Resident #23 at 1:10 PM.

On 12/10/14 at 3:11 PM, in an interview, the Director of Nursing (DON) stated that her

Bayview Nursing & Rehabilitation Center acknowledges receipt of the Statement of Deficiency and proposes the plan of correction to the extent that the summary of findings is factually correct and in order to maintain compliance with applicable rules and the provision of quality care to residents.

The below response to the Statement of Deficiency and plan of correction does not denote agreement with the citation by Bayview Nursing & Rehabilitation Center. The facility reserves the right to submit documentation to refute the stated deficiency through informal appeals procedures and/or other administrative or legal proceedings.

F312

Resident #23 was observed being assisted with his lunch by the surveyor at 1:10 pm.

To ensure all residents seated at the same table are fed at the same time nursing staff (C.N.A.s and Nurses) were reeducated to ensure all residents seated at the same table are assisted if they require assistance at the same time. Staff will be assigned to the dining room

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
### Summary Statement of Deficiencies

Continued from page 1

Expectations were that Resident #23 would be fed at the same time as the other residents at the table.

---

**F 312**

For each meal to ensure there are enough staff members to assist the residents requiring help with eating. A Department Head will be assigned to monitor the dining room for compliance with resident assistance for all three meals five days a week (M-F) for the first 2 weeks, at least two meals a day five days a week (M-F) for the next month, and one meal a day (M-F) thereafter. The Manager on Duty will monitor the dining room for one meal a day on the weekends for this time period. Outcomes of compliance with the dining room monitoring will be reviewed at the Quality Assurance Committee Meeting on January 21st, 2015. Any problems found during the monitoring will be addressed immediately by the Department Head/Director of Nursing Services or designee. The Department Heads monitoring the dining room will report on the outcomes of compliance with the dining room monitoring Monday through Friday at the morning Interdisciplinary Stand-up Meeting for four consecutive weeks. Any problems will be addressed immediately by the Department Head/Director of Nursing Services or designee. Following this, the Executive Director or appropriate designee will bring the results of compliance of the dining room monitoring to the facility monthly Quality Assurance Committee Meeting monthly for 12 months for review by all committee members. Discussion of compliance/non-compliance will be entered into the committee meeting minutes. Any non-compliance with the dining room monitoring...

483.35(i) FOOD PROCURE, STORE/PREPARE/SERVE - SANITARY

The facility must -

1. Procure food from sources approved or considered satisfactory by Federal, State or local authorities; and
2. Store, prepare, distribute and serve food under sanitary conditions

This REQUIREMENT is not met as evidenced by:

Based on observation, record review, and staff interview, the facility failed to date foods as they were opened and stored in the walk in refrigerator.

Findings included:

On 12/8/14 at 10:40 AM during an initial tour of the facility kitchen, an observation was made of opened but undated containers of horseradish, lemon juice without a lid, grape jelly, Dijon mustard, and Italian dressing. The Dietary Manager (DM) stated that the staff should have dated the containers when they were opened.

During the annual recertification survey, the surveyor observed opened but undated containers of horseradish, lemon juice without a lid, grape jelly, Dijon mustard, and Italian dressing. To correct this deficient practice all affected foods that were not labeled and dated in the walk-in cooler were discarded immediately.

To ensure this deficient practice does not recur, all dietary staff were in-serviced on the proper procedures for labeling and dating open food.

PROVIDER'S PLAN OF CORRECTION
(EACH CORRECTIVE ACTION SHOULD BE CROSS-REFERENCED TO THE APPROPRIATE DEFICIENCY)

F 431 Continued From page 4
LABEL/STORE DRUGS & BIOLOGICALS

The facility must employ or obtain the services of a licensed pharmacist who establishes a system of records of receipt and disposition of all controlled drugs in sufficient detail to enable an accurate reconciliation; and determines that drug records are in order and that an account of all controlled drugs is maintained and periodically reconciled.

Drugs and biologicals used in the facility must be labeled in accordance with currently accepted professional principles, and include the appropriate accessory and cautionary instructions, and the expiration date when applicable.

In accordance with State and Federal laws, the facility must store all drugs and biologicals in locked compartments under proper temperature controls, and permit only authorized personnel to have access to the keys.

The facility must provide separately locked, permanently affixed compartments for storage of controlled drugs listed in Schedule II of the Comprehensive Drug Abuse Prevention and Control Act of 1976 and other drugs subject to abuse, except when the facility uses single unit package drug distribution systems in which the quantity stored is minimal and a missing dose can be readily detected.

This REQUIREMENT  is not met as evidenced by:
Based on observation, record review and staff

During the annual recertification survey,

#### Summary Statement of Deficiencies

- Interview, the facility failed to discard expired medication in 4 of 5 medication carts, failed to store medications in a refrigerator in 2 of 5 medication carts and failed to date a medication in 1 of 5 medication carts.

The findings included:

- The facility’s policy on storage of medication handed by the administrator on 12/11/14 was reviewed. The policy indicated no outdated medication will be in the facility for use. The policy also indicated to store unopened insulin bottles inside the medication room refrigerator. Lantus insulin, Novolog and Humalog insulin will be discarded after 28 days from the date opened.

- The policy further indicated Advair Diskus (treatment for Asthma and COPD) must be dated when removed from foil pack.

- The manufacturer's specification for Advair Diskus read "discard Advair Diskus 30 days after opening the foil pouch."

- The manufacturer’s specification for Florajen Acidophilus is to refrigerate for maximum freshness and effectiveness.

1. On 12/10/14 at 3:25 PM, the Ocean hall 1 medication cart was observed. A bottle of Vi-Daily liquid medication was observed with an expiration date of 05/14. Interview with the nurse #1 revealed the medication should have been discarded.

2. On 12/10/14 at 3:27 PM, the Ocean hall 1 medication cart was observed. A Bisacodyl suppository was observed with an expiration date of 11/14. Interview with the nurse #1 revealed the
