The facility must develop and implement written policies and procedures that prohibit mistreatment, neglect, and abuse of residents and misappropriation of resident property.

This REQUIREMENT is not met as evidenced by:

Based on observations, record review, resident interview, and staff interviews, the facility failed to provide assistance with pericare to 1 of 1 sampled dependent resident who requested care. (Resident #2).

The findings included:

Resident #2 was admitted to the facility on 04/22/15. His diagnoses included neurogenic bladder. The admission Minimum Data Set (MDS) dated 04/29/15 coded him with intact cognition, requiring total assistance for transfers and extensive assistance with toileting and hygiene. He was coded as being nonambulatory, using an external catheter and always being incontinent of bladder.

The Care Area Assessment dated 05/05/15 for activities of daily living skills (ADLs) revealed Resident #1 was always incontinent when the condom catheter was off and he required assistance.

A care plan was developed on 05/06/15 for an altered pattern of urinary elimination with a

Resident #2 was assessed on 8/13/2015 by the Interim Director of Nursing and was provided care in a manner which prohibits neglect.

All residents were reviewed on 8/13/2015 by the Interim Director of Nursing and Assistant Director of Nursing via facility rounds for potential neglect related issues. No other issues were identified during the rounds.

The involved CNA was retrained on 8/14/2015 by the Interim Director of Nursing on responding to the residents’ care in a timely manner. Nursing staff retraining was initiated on 8/14/2015 and completed on 8/31/2015 by the Staff Facilitator regarding responding to the residents' care in a timely manner. Any newly hired nursing staff will be trained on responding to residents’ care in a timely manner during orientation. Seventy (70) audits will be conducted by the Administrative Nurses and Charge Nurses to ensure all residents’ care is met in a

F 224 Continued From page 2

During interview on 08/13/15 at 11:44 AM, NA #1 stated she had not given Resident #2 care and she was supposed to go to lunch at 11:30 AM. NA #1 proceeded to tell Nurse #1 she was going to lunch, poked her head inside Resident #2's door and left the unit. Nurse #1 stated she would have expected NA #1 to provide Resident #2 care before going to lunch or ask another nurse aide to provide the care for her. Nurse #1 verified that she had told NA #1 Resident #2 was wet.

On 08/13/15 at 11:50 AM, NA #2 was interviewed about his morning interaction with Resident #2. NA #2 stated that around 10 AM Resident #2 told him his catheter had come off and he needed it put back on. NA #2 stated he passed NA #1 around 10:15 AM and told her Resident #2 needed care.

Care was observed on 08/13/15 at 11:52 AM. Resident #2 was transferred via mechanical lift into bed from his geri chair. Resident #2's lift pad, the pad he had been sitting on, and his pants were observed wet with urine, his condom catheter was off, and the incontinent brief he was wearing was heavy and soaked in urine. Pericare was provided. The catheter bag was empty of urine as it had not been on the resident.

Interview with the Administrator and interim Director of Nursing (DON) on 08/14/15 at 8:31 AM revealed they expected NA #1 to change Resident #2 prior to going for lunch. The Administrator and interim DON stated they did not think it was neglect as the resident's needs were taken care of by other staff.

Phone interview with NA #1 on 08/14/15 at 8:38 AM

and she had to finish another resident's care then
NA #1 would get the lift and change him.

Resident #2 again stated he told NA #2 at
breakfast time he needed care. They began
discussing the time frame of his request and wait
period. Nurse #1 stated she told NA #1 just 30
minutes ago, when she became aware Resident
#2 needed assistance. Resident #2 stated he had
urinated 3 times since first letting staff know his
condom catheter had come off. The nurse went
to locate NA #1.

On 08/13/15 at 11:44 AM, NA #1 was located
standing in the doorway of another resident's
room. When the surveyor asked if she was going
to give care to Resident #2, NA #1 stated she
was supposed to go to lunch at 11:30 AM but
could provide care if the surveyor wanted her to
do it then. The surveyor stated that staff should
do what she normally would do and NA #1 stated
she would normally go to lunch. NA #1 then
proceeded to tell Nurse #1 she was going to
lunch, she poked her head inside Resident #2's
door and left the unit. Nurse #1 stated to the
surveyor, she would stop her medication pass
and get another nurse aide to provide Resident
#2 care. Nurse #1 stated she would have
expected NA #1 to provide Resident #2 care
before going to lunch or ask another nurse aide to
cover for her and provide the resident care.

Nurse #1 stated she had told NA #1 previously
Resident #2 was wet. Nurse #1 immediately
obtained a lift and the services of NA #2 and NA
#3 at 11:50 AM. At this time, NA #2 was asked
about his interaction with Resident #2. NA #2
stated that around 10 AM Resident #2 told him
his catheter had come off and he needed it put
back on. NA #2 stated he passed NA #1 around
10:15 AM and told her Resident #2 needed care.
### Summary of Deficiencies

**F 241 Continued From page 6**

Care was observed on 08/13/15 at 11:52 AM. Resident #2 was transferred via total mechanical lift into bed from his geri chair. Resident #2's lift pad, the pad he had been sitting on, and his pants were observed wet with urine, his condom catheter was off, and the incontinent brief he was wearing was heavy and soaked in urine. Pericare was provided. The catheter bag was empty of urine as it had not been on the resident.

On 08/13/15 at 1:19 PM, Resident #2 stated that it made him feel like staff don't care about him when they make him wait so long for care.

Interview with the Administrator and interim Director of Nursing (DON) on 08/14/15 at 8:31 AM revealed they expected NA #1 to change Resident #2 prior to going for lunch.

Phone interview with NA #1 on 08/14/15 at 8:38 AM, with the Administrator and surveyor on speaker phone, revealed that when NA #2 told her Resident #2 needed care, she was showering another resident. NA #1 stated NA #2 told her around 10 AM the resident's catheter had come off of him. NA #1 denied she was told he was wet. NA #1 then said she had to get another resident up for therapy after she completed the shower. NA #1 stated she told Resident #2 what she had to do before giving him are and he was fine with it. NA #1 stated that when his catheter comes off, he just gets a little wet. NA #1 again confirmed that she did what she normally would have done which was going to lunch before giving Resident #2 care.
