| F 356 | | SS=C | **483.30(e) POSTED NURSE STAFFING INFORMATION**

The facility must post the following information on a daily basis:
- Facility name.
- The current date.
- The total number and the actual hours worked by the following categories of licensed and unlicensed nursing staff directly responsible for resident care per shift:
  - Registered nurses.
  - Licensed practical nurses or licensed vocational nurses (as defined under State law).
  - Certified nurse aides.
- Resident census.

The facility must post the nurse staffing data specified above on a daily basis at the beginning of each shift. Data must be posted as follows:
- Clear and readable format.
- In a prominent place readily accessible to residents and visitors.

The facility must, upon oral or written request, make nurse staffing data available to the public for review at a cost not to exceed the community standard.

The facility must maintain the posted daily nurse staffing data for a minimum of 18 months, or as required by State law, whichever is greater.

This REQUIREMENT is not met as evidenced by:

Based on observations, record review and staff interviews, the facility failed to post nurse staffing information on a daily basis at the beginning of each shift for 3 of the last 6 days reviewed.

---

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.
### F 356 Continued From page 1 (9/10/16, 9/11/16, and 9/12/16).

The findings included:

An observation made on 9/12/16 at 11:20 AM revealed a daily staff posting dated 9/9/16 (Friday) was posted at the entrance to the facility's lobby.

An interview was conducted on 9/14/16 at 12:02 PM with the facility's Nursing Administration Assistant. The Nursing Administration Assistant assumed responsibility for posting nurse staffing information. Upon inquiry, the Assistant reported she typically completed nursing staff postings for Saturdays and Sundays on the following Monday morning when she came into work. She acknowledged the nurse staffing information for Saturdays and Sundays was not actually posted on the weekends. The Assistant stated she came into work at 11:00 AM on Mondays and Wednesdays; and, she came in at 7:00 AM on Tuesdays, Thursdays, and Fridays.

An interview was conducted on 9/14/16 at 3:20 PM with the facility's Director of Nursing (DON). During this interview, the DON stated her expectation was, "That staffing is supposed to be posted daily."

An interview was conducted on 9/15/16 at 11:02 PM with the facility's Administrator. During the interview, the Administrator stated his expectation would be for the nursing staff posting to be accurate and posted at the start of each shift.

### F 356

This deficiency is the practice of this provider to ensure the posting of the following information: resident census, facility name, the current date, the total number and actual hours worked by licensed and unlicensed nursing staff directly responsible for resident care per shift. Consistent with this practice the following has been done:

- On 9/12/2016, the nurse staffing data posting for 9/9/2016 (Friday) was removed and replaced with the correct nurse staffing posting for 9/12/2016 (Monday).

All Residents and Visitors were identified to be affected by the alleged deficient practice.

In-service will be conducted for the staffing coordinator and designee on the facility policy and procedure for required staff posting by October 4, 2016. This in-service will be facilitated by the Director of Nursing.
