(g) Resident Call System

The facility must be adequately equipped to allow residents to call for staff assistance through a communication system which relays the call directly to a staff member or to a centralized staff work area -

(2) Toilet and bathing facilities.

This REQUIREMENT is not met as evidenced by:

Based on observation and staff interview the facility failed to assure that all portions of the call bell system were functioning properly for 1 of 40 sampled residents. (Resident #116)

Findings included:

The call bell alarm log dated 07/27/2017 for resident #116's room indicated it passed inspection.

During an observation on 08/15/2017 at 9:17 A.M., resident #116 in bed with head of bed elevated alert and oriented to self, clean, neat appearance, eating breakfast. The call bell or hand bell was not within reach and could not be seen on the bed, on the floor or connected to the wall outlet. The light was not on over residents' room door and the alarm was not sounding.

08/15/2017 at 9:19 A.M., the Nursing Assistant (NA) #1 entered the room and was made aware the call bell was not within reach. NA #1 stated she didn’t know what happened to the call bell. NA #1 also stated it was overlooked when she checked the resident at the beginning of the shift. NA #1 looked in the bed, under the bed and in the side table. NA #1 stated she couldn’t find the call bell wire.

08/15/2017 at 9:21 A.M., Nurse #1 was made aware that the call bell was not within reach. Nurse #1 stated she didn’t know where the call bell wire could be. Nurse #1 looked for the call bell on the bed, under bed, side dresser and closet. Nurse #1 also stated she would get maintenance to get one right now. The Maintenance Supervisor arrived with a call bell wire and attached it to the wall and tested it to assure it was working.

During an interview with the Maintenance Supervisor on 08/16/2017 at 3:59 P.M., the Maintenance Supervisor stated if the call bell was detached from the wall socket it would alarm.

During an interview with the Administrator on 08/17/2017 at 11:30 A.M., the Administrator stated his expectations were for all the residents to have accessible call bells.
