### §483.15(c)(3) Notice before transfer.

Before a facility transfers or discharges a resident, the facility must:

(i) Notify the resident and the resident's representative(s) of the transfer or discharge and the reasons for the move in writing and in a language and manner they understand. The facility must send a copy of the notice to a representative of the Office of the State Long-Term Care Ombudsman.

(ii) Record the reasons for the transfer or discharge in the resident's medical record in accordance with paragraph (c)(2) of this section; and

(iii) Include in the notice the items described in paragraph (c)(5) of this section.

### §483.15(c)(4) Timing of the notice.

(i) Except as specified in paragraphs (c)(4)(ii) and (c)(8) of this section, the notice of transfer or discharge required under this section must be made by the facility at least 30 days before the resident is transferred or discharged.

(ii) Notice must be made as soon as practicable before transfer or discharge when:

- (A) The safety of individuals in the facility would be endangered under paragraph (c)(1)(i)(C) of this section;

- (B) The health of individuals in the facility would be endangered, under paragraph (c)(1)(i)(D) of this section;

- (C) The resident's health improves sufficiently to allow a more immediate transfer or discharge, under paragraph (c)(1)(i)(B) of this section;

- (D) An immediate transfer or discharge is required by the resident's urgent medical needs, under paragraph (c)(1)(i)(A) of this section;

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

#### F 623

A resident has not resided in the facility for 30 days.

§483.15(c)(5) Contents of the notice. The written notice specified in paragraph (c)(3) of this section must include the following:

- (i) The reason for transfer or discharge;
- (ii) The effective date of transfer or discharge;
- (iii) The location to which the resident is transferred or discharged;
- (iv) A statement of the resident’s appeal rights, including the name, address (mailing and email), and telephone number of the entity which receives such requests; and information on how to obtain an appeal form and assistance in completing the form and submitting the appeal hearing request;
- (v) The name, address (mailing and email) and telephone number of the Office of the State Long-Term Care Ombudsman;
- (vi) For nursing facility residents with intellectual and developmental disabilities or related disabilities, the mailing and email address and telephone number of the agency responsible for the protection and advocacy of individuals with developmental disabilities established under Part C of the Developmental Disabilities Assistance and Bill of Rights Act of 2000 (Pub. L. 106-402, codified at 42 U.S.C. 15001 et seq.); and
- (vii) For nursing facility residents with a mental disorder or related disabilities, the mailing and email address and telephone number of the agency responsible for the protection and advocacy of individuals with a mental disorder established under the Protection and Advocacy for Mentally Ill Individuals Act.

§483.15(c)(6) Changes to the notice.

§483.15(c)(8) Notice in advance of facility closure
In the case of facility closure, the individual who is the administrator of the facility must provide written notification prior to the impending closure to the State Survey Agency, the Office of the State Long-Term Care Ombudsman, residents of the facility, and the resident representatives, as well as the plan for the transfer and adequate relocation of the residents, as required at § 483.70(l).

This REQUIREMENT is not met as evidenced by:
Based on record review and staff interviews, the facility failed to provide the resident and resident representative a written notification for the reason for transfer to the hospital for 3 of 3 residents reviewed for hospitalization. (Resident #51, Resident #36 and Resident #70).

The findings included:
Example #1
Resident #51 was originally admitted to the facility on 3/20/18 with diagnoses including Chronic Obstructive Pulmonary Disease, Atherosclerotic heart disease, Type 2 Diabetes Mellitus without complications and Acute Kidney Failure.
According to the most recent Admission Minimum Data Set (MDS) dated 3/27/18, Resident #51's cognition was intact. She required extensive assistance in most areas of activities of daily living.

Resident #51 was admitted to the facility after being discharged from the hospital on 3/20/18. She was discharged to the hospital on 4/11/18 and was readmitted to the facility on 4/17/18. Resident #51 was discharged to the hospital on 4/30/18 and readmitted to the facility on 5/4/18. The resident was discharged to the hospital again on 6/12/18. There was no written notice of transfer documented in the resident's record noted to have been provided to the resident or the resident's representative.

During an interview on 6/11/18 at 1:52 PM, Resident #51 revealed she had been discharged to the hospital three times since she had been in the facility. She revealed she had not received any written notification from the facility regarding her discharge to the hospital.

During an interview with the Admissions Coordinator on 6/13/18 at 2:05 PM she stated she did not send a letter to the resident or responsible party upon transfer to the hospital with an explanation of why the resident was transferred. She stated the nursing staff usually called the responsible party to let them know why the resident was going to the hospital.

During an interview with the Administrator on 6/14/18 at 9:16 AM he stated a letter was not being sent upon transfer to the resident or responsible party because phone calls were done. He stated the facility would begin sending a letter.

During an interview with the Social Worker on 6/14/18 at 9:35 AM she stated that she was responsible to send a notice to the Ombudsman.

Resident #51 was discharged to the hospital again on 6/12/18. There was no written notice of transfer documented in the resident's record noted to have been provided to the resident or the resident's representative.

During an interview on 6/11/18 at 1:52 PM, Resident #51 revealed she had been discharged to the hospital three times since she had been in the facility. She revealed she had not received any written notification from the facility regarding her discharge to the hospital.

or maintain the resident's highest practicable physical, mental, and psychosocial well-being as required under §483.24, §483.25 or §483.40; and (ii) Any services that would otherwise be required under §483.24, §483.25 or §483.40 but are not provided due to the resident's exercise of rights under §483.10, including the right to refuse treatment under §483.10(c)(6). (iii) Any specialized services or specialized rehabilitative services the nursing facility will provide as a result of PASARR recommendations. If a facility disagrees with the findings of the PASARR, it must indicate its rationale in the resident's medical record. (iv) In consultation with the resident and the resident's representative(s)-

(A) The resident's goals for admission and desired outcomes.
(B) The resident's preference and potential for future discharge. Facilities must document whether the resident's desire to return to the community was assessed and any referrals to local contact agencies and/or other appropriate entities, for this purpose.
(C) Discharge plans in the comprehensive care plan, as appropriate, in accordance with the requirements set forth in paragraph (c) of this section.

This REQUIREMENT is not met as evidenced by:

Based on record review, observations and resident and staff interviews, the facility failed to develop a care plan for 1 of 1 sampled residents reviewed for pain. (Resident #62).

The findings included:

Resident #62 was originally admitted to the facility on 5/14/18, with diagnoses including Disease of...
Deficiency: Bone, Muscle Weakness (generalized)

Pathological Fracture and Peripheral Vascular Disease. According to the most recent Admission Minimum Data Set (MDS) dated 5/21/18, Resident #62 had limited bed and transfer mobility. He required extensive assistance in other areas of activities of daily living, such as toileting, bathing and personal hygiene. He required set up for meals.

Review of a pain evaluation assessment which was completed on 5/15/18, revealed a pain assessment summary and rationale for a care plan decision. The assessment revealed Resident #62 said his pain was controlled with pain medication as needed. The recommendation was to continue with the plan of care for pain medication as needed.

Review of the Care Area Assessment Summary dated 5/21/18 revealed Resident #62 triggered for pain. The assessment noted Resident #62 had "multiple diagnoses that could exacerbate pain such as claudication (pain and/or cramping in the lower leg due to inadequate blood flow to the muscles) in lower extremities, right shoulder (clavicle repair) multiple lytic bone lesions, cancer. The assessment noted Resident #62's pain was managed fair as it related to claudication however, the right foot pain could be severe. The pain medication worked, but the break through pain could be bad."

The Care Plan decision noted Y for yes, however, review of Resident #62's care plan revealed he was not care planned for pain.

During an interview on 6/11/18 at 11:23 AM, Resident #62 revealed he was getting pain deficiencies. The plan of correction is prepared and/or executed solely because it is required by provisions of federal and state law.

(1) Interventions for affected resident: Resident # 62 had a comprehensive care plan completed for area of pain. The care plan was reviewed by the IDT team members (MDS, Social Worker, Don, Activities Director and Unit Managers). The resident was informed of the changes to the care plan. The MD was notified of the revisions to the care plan made by the IDT team.

(2) Interventions for residents identified as having potential to be affected: Current residents in the facility have the potential to be affected. An audit was completed on June 22, 2018, by the Director of Nursing/designee for current residents having pain and current care plans are in place for each resident. In-service will be provided to the IDT team by Staff Development Coordinator/designee regarding care planning pain on residents that have pain identified. Newly hired members of the IDT team will receive education during orientation regarding care planning pain when identified.

(3) Systemic Change
Current staff will be educated on July 2 and July 3 by the Staff Development Coordinator/designee to the current IDT team (Director of Nursing, MDS, Social Worker, Activities Coordinator, etc.)

- **F 684**
  - Documented Resident # 120 as in the hospital.
  - In an interview conducted on 6/13/18 at 3:35 PM the nurse assigned to Resident # 120’s medication cart third shift on 6/2/18 and 6/3/18 stated if the medication was not in the cart she did not give it. She revealed staff are to call the pharmacy or call and notify the physician of the medication and request how to proceed. She revealed she
  - In an interview conducted on 6/4/18 at 8:51 AM the back hall Unit Manager Nurse revealed pharmacy delivered to the facility Monday thru Saturdays and sometimes would make a delivery on Sunday. She revealed receiving medications were checked in by the nurse on duty and staff were to acknowledge the medication was received in the computer.
  - In an interview on 6/14/18 at 9:41 AM the Director of Nursing (DON) revealed the glaucoma eye medication was in the building. The DON revealed she expected staff to go look for the medication. If the medication was not available, staff were expected to call the pharmacy ask about the medication or call the physician, ask about the medication and ask what to do.
  - In-service will be provided to nursing staff in regards to medication availability by the Director of Nursing. New staff will be educated on this process upon hire during orientation.

- **F 814**

the compliance of such committee with the requirements of this section.

§483.75(i) Sanctions.

Good faith attempts by the committee to identify and correct quality deficiencies will not be used as a basis for sanctions. This REQUIREMENT is not met as evidenced by:

Based on observations, record reviews and resident and staff interviews, the facility's Quality Assurance and Performance Improvement committee (QAPI) failed to maintain implemented procedures and monitor these interventions that the committee put into place in July of 2017. This was for one (1) recited deficiency which was originally cited on 7/13/16 (F279) during the recertification survey and on the current recertification/complaint survey on 6/14/18 (F656). The continued failure of the facility during the two federal surveys of record show a pattern of the facility’s inability to sustain an effective Quality Assurance and Performance Improvement Program.

The findings included:

This tag is cross referenced to:

1. F656. Based on observations, record reviews and resident and staff interviews, the facility failed to develop a care plan for 1 of 1 sampled residents reviewed for pain. (Resident #62)

During the recertification/complaint survey of 7/13/17, the facility was cited F 279 for failure to develop comprehensive plans of care related to the use of antipsychotic medications for 2 of 7 residents reviewed for unnecessary medications

This plan of correction is the center’s credible allegation of compliance. Preparation and/or execution of this plan of correction does not constitute admission or agreement by the provider of the truth of the facts alleged or conclusions set forth in the statement of deficiencies. The plan of correction is prepared and/or executed solely because it is required by provisions of federal and state law.

(1) Interventions for affected resident:

Resident # 62 had a comprehensive care plan completed for area of pain. The care plan was reviewed by the IDT team members (MDS, Social Worker, Don, Activities Director and Unit Managers).

The pain care plan related to pain was discussed with the resident by the IDT and no changes were identified or needed. The care plan revisions were discussed with the Medical Director by the IDT with no further changes added to the care plan

(2) Interventions for residents identified as having potential to be affected:
A QAPI meeting will be held on 7/5/18 to discuss care plan accuracy by the QAPI committee which consists of ED, DON, MDS, Nurse Managers, SDC, ADON, Activities Coordinator, Social Worker, BOM, Medical Director and Pharmacy Rep. QAPI will review the corrected care plans for accuracy and completeness for pain interventions and goals.

(3) Systemic Changes
A weekly QAPI meeting will be held for a period of four (4) weeks then Monthly x 2 months to review and discuss the facility adherence to the monitoring of the care plans accuracy. The Director of Nursing / designee will perform audits on the Care Plan process weekly x 4 weeks and then monthly x 2 months to determine the accuracy of the care plans. Education will be provided to the IDT team by SDC and the Nurse Consultant for the resident who have a need for a care plan to cover pain. The audit will continue to be a part of the education process for current staff and newly hired members of the IDT team upon orientation.

(4) Monitoring of the change to sustain system compliance ongoing:
The Executive Director will report the audit findings to the QA committee monthly for 3 month. The QAPI committee consists of ED, DON, MDS, Nurse Managers, SDC, ADON, Activities Coordinator, Social Worker, BOM, Medical Director and Pharmacy Rep. QAPI to ensure compliance is ongoing and determinate the need for further
