Resident #1 did not have the cognitive capacity to express an adverse outcome. A reasonable person would have been traumatized by being physically abused by their caregiver in their home environment. This occurred for 1 of 2 resident reviewed for abuse.</p> <p>Immediate Jeopardy began on 08/09/23 when the facility failed to protect Resident #1's right to be free from abuse. The Immediate Jeopardy was removed on 08/11/23 when the facility implemented an acceptable credible allegation for Immediate Jeopardy removal. The facility will remain out of compliance at a lower scope and severity level of a "D" (no actual harm with potential for more than minimal harm that is not immediate jeopardy) to ensure completion of education and that monitoring systems put into place are effective.</p> <p>The findings included:</p> <p>Resident #1 was admitted to the facility on 12/13/22 with diagnoses which included, in part, cerebral infarction, altered mental status, and</p> | F 600   | <p>483.12(a)(1) Free from Abuse and Neglect §483.12 Freedom from Abuse, Neglect, and Exploitation.<br/>Allegation-F-600—Freedom from Abuse, Neglect and Exploitation The facility failed to protect the resident from alleged physical abuse.</p> <p>1.What corrective action(s) will be accomplished for those residents found to have been affected by the deficient practice.</p> <p>•The resident #1 had a head-to-toe skin assessment completed by a licensed nurse to ensure that there were no negative outcomes incurred by the resident because of the staff to resident contact that was made on 08/09/2023. The Administrator stated he gave instruction to the AIT in regard to safeguarding the resident, calling law enforcement, reporting to the State, and beginning an investigation of the incident. The Administrator indicated he felt this was not just an assault but was elder abuse. He clarified that despite having done background checks on NA #1 prior to employment there was no way they could have predicted what NA #1 would do to a resident, he insisted charges be filed as one does not "accidentally put their hands around someone's neck." The Administrator commented he did not know what they could have done differently and felt, after the incident, they had done everything correctly in regard to reporting to law enforcement and to the State and completing their investigation.</p> <p>On 08/24/23 at 5:30 p.m., the AIT was informed of immediate jeopardy. The facility provided a credible allegation of immediate jeopardy removal.
