Each deficiency should be fully identified using either the regulation or LSC provision number and the identification prefix code previously shown on the CMS-2567 (prefix codes shown to the left of each requirement on the survey report form). |                          |                        |                       |                     |                |                       |            |            |           |              |                          |            |
