

NC Department of Health and Human Services
NC Nurse Aide I Curriculum

Module S
 Psychological Effects of Aging
 July 1, 2019

Objectives

- Describe the psychological effects of aging
- Explain the nurse aide's role in meeting the basic needs of the resident
- Describe the nurse aide's role in caring for residents with a variety of responses such as the depressed resident, combative resident, and agitated resident
- Describe the feelings and behaviors of older adults moving into a nursing home

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 2

Psychological Effects of Aging

- Defined as an exploration of feelings, emotional stress, physical, psychosocial, and psychological adjustments that are part of the aging process
- The nurse aide should be aware of basic human behaviors and needs and how they may change with aging

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 3

Basic Human Needs

Elements necessary for survival and physical/mental well-being

Note that the term, "physical," is used in place of the term, "physiological," during discussions

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019

4

Physical Needs (1)
Requirements for Sustaining Life

Oxygen

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019

5

Physical Needs (2)
Requirements for Sustaining Life

Food and Water

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019

6

Physical Needs (3)
Requirements for Sustaining Life

Shelter and Sleep

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 7

Physical Needs (4)
Requirements for Sustaining Life

Elimination and Activity

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 8

Safety and Security Needs

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 9

Love and Affection Needs (1)

- Friendship
- Social acceptance
- Closeness

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 10

Love and Affection Needs (2)

Supporting the meaningful relationships of residents with others

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 11

Love and Affection Needs (3)

Nursing staff can become family for the resident

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 12

Basic Self-esteem

- Value, worth, or opinion of self
- Seeing oneself as useful
- Being well thought of by others

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 13

Self-esteem Needs of the Resident

Nurse Aide Role

- Use name resident prefers – “Hello, Ms. Divine”
- Praise accomplishments – “Congratulations on being voted ‘Diva of the Nursing Home’”
- Discuss current topics – “Is it a good time to discuss the Diva Banquet that we are going to have next week?”
- Request resident’s opinion, show respect and approval – “Ms. Divine, do you think I would look as good in a black boa as you do?”

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 14

Self-actualization Defined

- Realizing personal potential including creative activities
- Self-fulfillment
- Seeking personal growth and peak experiences
- A desire to become everything one is capable of becoming

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 15

Self-actualization in the Older Adult

Self-actualization may be difficult for older adult to achieve due to unmet:

- Physical needs
- Security needs
- Love and affections needs
- Self-esteem needs

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 16

Encouraging Self-actualization

- Meet new people
- Attend activities
- Try something new
- Praise when resident succeeds at something new
- Creativity
- Audiobooks/music playlist
- Discuss activities meaningful to resident
- Support resident in treasured activities

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 17

Review – Hierarchy of Basic Human Needs

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 18

Hierarchy of Basic Human Needs

✓ your answers

19

Spiritual Needs

Residents have the right to worship and express their faith freely

- Respect beliefs and religious objects
- Inform residents about events
- Assist residents to attend events
- Provide privacy during visits by clergy

20

Sexuality

- Sexual needs and desires continue throughout life

Certain skills must be mastered during a stage of development

Late adulthood tasks include:

- Adjustment to retirement, reduced income, death of friends, death of spouse, physical changes, loss of independence
- Creating new friendships and relationships
- Loss of vitality
- Integrating life experiences
- Preparation for death

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019

24

Developmental Tasks of Aging – Issues

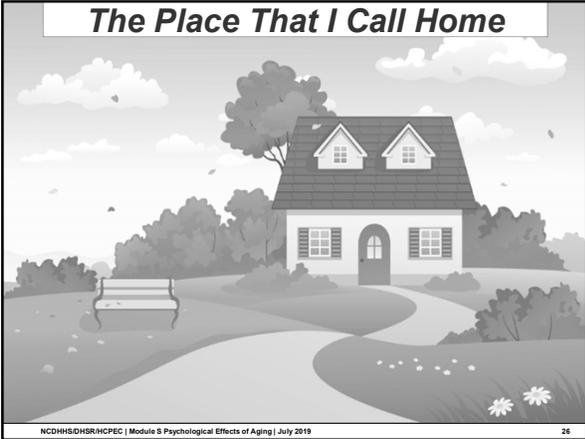

- Amount and cost of care
- Nutritional needs
- Relationships
- Location of support system
- Medical care needs
- Changes in lifestyle
- Long-term care decisions

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019

25

The Place That I Call Home

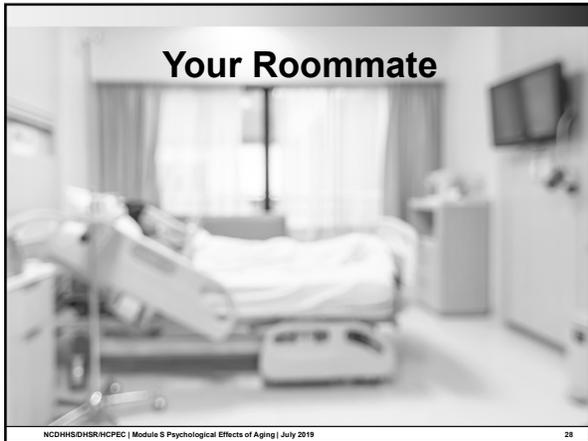

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019

26

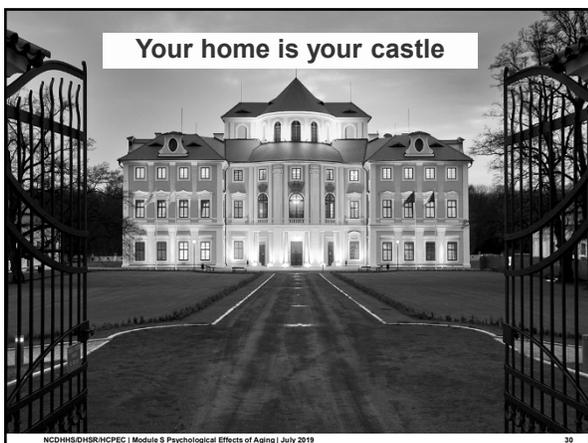

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019

27

An Older Adult's Home

To an older adult, a home may represent...

- Independence
- A link to the past
- A part of his/her identity
- The center for family gatherings
- A connection to the neighborhood
- Symbol of position in the community
- A place to maintain autonomy and control

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 31

Relocation from the Home

Why might older adults relocate from their homes?

- Decrease in finances
- Decline in physical or mental state
- Inability to manage the home
- Lack of social support
- Increasingly unsafe neighborhood

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 32

Reaction to Relocation from the Home

An older adult's reaction to relocation depends upon:

- Degree of choice
- Degree of preparedness
- Degree of sameness of new location
- Degree of predictability
- Number of additional losses

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 33

Moving to a Nursing Home

Admission to a Nursing Home...

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 34

Sudden Admission to a Nursing Home

How does older adult feel upon sudden admission to a nursing home?

- Stress, sense of loss, fear, isolation, confusion, being out of control
- Relief over the move
- Ending of one phase and beginning of final phase

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 35

An Accidental Community

A nursing home may be perceived as an accidental community

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 36

Life in a Nursing Home – Residents

- Wide range of ages
- Short or long-term stay
- Variety of diagnoses
- Vary in degree of impairment or disability
- Vary in level of cognition
- 75% female

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 37

The older adult has previously established routines

Personal routines may collide with facility schedules causing conflict

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 38

Nursing Home – Limited Space

Personal space is limited and reduced

Storage space is limited

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 39

Nursing Home – Lack of Privacy (1)

Resident may live in a shared bedroom with no choice and no control

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 40

Nursing Home – Lack of Privacy (2)

At home	In nursing home
	

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 41

Life in a Nursing Home

- Cognitively impaired housed with cognitively intact
- Residents may be frightened

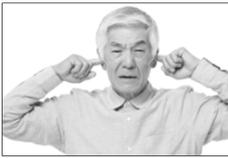

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 42

Adapting to Life in a Nursing Home (1)
The cognitively intact older adult adapts to life in a nursing home in one of three ways...

		
becomes depressed or may regress	becomes uncooperative	is determined to make the best of it

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 43

Adapting to Life in a Nursing Home (2)
Important to realize that a normal response to sudden placement into a nursing home is often viewed as poor adjustment

	
---	---

Nursing home staff may unfairly and prematurely label the resident as difficult or a troublemaker

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 44

Life in a Nursing Home – Nurse Aide Role (1)

**Individualize
The
Admission
Process**

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 45

Life in a Nursing Home – Nurse Aide Role (2)

Assist older adult to personalize space as much as possible

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 46

Life in a Nursing Home – Nurse Aide Role (3)

Providing Privacy and Respect for Personal Space

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 47

Life in a Nursing Home – Nurse Aide Role (4)

Providing Emotional Support

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 48

OBRA and Psychological Effects of Aging

- OBRA requires states to have a survey and certification process in place for nursing homes
- Survey is unannounced and performed to review quality of care
- Variety of methods
- Findings of state surveyors

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 48

OBRA Empowers Nursing Home Residents

The regulation of nursing homes focuses on quality of life for residents and emphasizes their individual rights. Because of OBRA, nursing home residents are more empowered and have a greater say in their own quality of life.

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 49

Caring for Residents Who Are Depressed

Role of the Nurse Aide

- Recognize reasons
- Recognize signs and symptoms
- Nurse aide actions when resident is depressed
- Recognize defense mechanisms

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 51

Defense Mechanisms (1)

- **Projection – blaming others**
- **Rationalization – false reason for situation**
- **Denial – pretending problem doesn't exist**
- **Compensation – making up for situation in some other way**

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 52

Defense Mechanisms (2)

- **Displacement – transferring feelings about one to another**
- **Daydreaming – escape from reality**
- **Identification – idolizing and trying to copy another**
- **Sublimation – redirecting feelings to constructive activity**

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 53

Residents with Developmental Disabilities

Role of the Nurse Aide

- **Treat with respect and dignity**
- **Encourage**
- **Do not act as parent**
- **Build self-esteem**

NCDHHS/DHSR/HCPEC | Module S Psychological Effects of Aging | July 2019 54

Caring for Residents Who Are Stressed

Role of the Nurse Aide

- Listen to concerns
- Observe and report
- Treat with dignity and respect
- Attempt to understand behavior
- Be honest and trustworthy
- Never argue
- Attempt to locate source
