# **CHAPTER 11**

## **ADULT CARE HOMES**

---

### **Amendment to Chapter 11, Effective June 26, 2024**

The State Health Coordinating Council, at its March 6<sup>th</sup>, 2024 meeting, voted to recommend amendments to the North Carolina 2024 State Medical Facilities Plan to correct tables and revise a need determination in Chapter 11. These amendments increase the number of adult care home beds in the existing Swain County service area need determination. Corrected Tables 11A and 11C and amended Table 11D are included in this chapter.

### **Introduction**

G.S. § 131E-176(1) defines an **adult care home** as “a facility with seven or more beds licensed under Part 1 of Article 1 of Chapter 131D of the General Statutes or under this Chapter that provides residential care for aged individuals or individuals with disabilities whose principal need is a home which provides the supervision and personal care appropriate to their age and disability and for whom medical care is only occasional or incidental.”

Before enactment of Senate Bill 937 in 2001 to regulate the development of adult care homes under the Certificate of Need law, legislation ratified in 1997 (S. L. 1997-443) placed a statewide moratorium on the development of new adult care home beds. However, the 1997 legislation allowed for the development of additional adult care home beds under defined circumstances. Some of these beds remain eligible to be developed pursuant to settlements of contested cases. These **settlement** beds are also subject to conditions set out in the terms of the controlling settlement agreements. The planning inventory of adult care home beds included in the current North Carolina State Medical Facilities Plan (SMFP) is subject to change based on whether conditions have been met to allow for development of the settlement beds. In addition, litigation may result in changes to the inventory.

### **Definitions**

An adult care home bed’s service area is the county in which the adult care home bed is located. Each of the 100 counties is a separate service area.

The **reporting year** is August 1 through July 31. The **current** reporting year is August 1, 2021 through July 31, 2022.

The methodology projects bed need determination five years beyond the current reporting year. The current **projection year** is 2027.

The **planning inventory** is the number of beds used in need determination calculations. It is the number of licensed beds, plus the number of Certificate of Need (CON)-approved beds, plus the number of beds available pursuant to need determinations pending review or appeal, minus any beds delicensed, minus any exclusions (see below), minus beds to be relocated out of the county, plus any beds to be relocated into the county.

### **Changes from the Previous Plan**

This chapter contains no substantive changes from the previous SMFP.

## **Basic Principles**

1. The methodology should project need determination five years beyond the current reporting year because at least that amount of time is required to bring a new or expanded facility into service.
2. A goal of the planning process is a reasonable level of parity among individuals in their geographic access to adult care home facilities.

## **Data Sources**

The North Carolina Office of State Budget and Management provides estimates of North Carolina residents for the current reporting year and projection year, by county.

Estimates of the active-duty military population come from the category of “Employment Status - Armed Forces” from the most recent American Community Survey 5-Year Estimates.

The methodology combines utilization data for the current and four immediately previous reporting years, as submitted to the North Carolina Department of Health and Human Services, Division of Health Service Regulation (Agency) from License Renewal Applications (LRA) for nursing homes, for Adult Care Homes, and from the Nursing Care Facility/Unit Beds Annual Data Supplement to Hospital LRAs.

## **Assumptions of the Methodology**

1. The inventory excludes 100% of the beds developed as part of a qualified continuing care retirement community (CCRC) (*Table 11E*), including those developed before enactment of Policy LTC-1; the occupancy rate calculation excludes their associated days of care (DOC).
2. The methodology excludes the estimated active-duty military population under the age of 35 from the county’s population for any county with more than 500 active-duty military personnel.
3. The methodology uses the county bed use rate as the utilization measure in determining needs. Bed use rates are calculated per 1,000 population per county. Each county’s bed use rate is calculated using a five-year average annual change rate (AACR) to project forward five years beyond the reporting year. Any county with an AACR that is at least one-half of one standard deviation above the statewide AACR will receive a rate equal to the average plus one half of one standard deviation above the statewide AACR.
4. The projected utilization is multiplied by three to account for future increases in utilization.
5. The methodology uses the highest of four occupancy rate calculations such that the need determination in each service area reflects the highest of the average or the median of all facilities’ occupancy rates based on a one-day census in a county, or the average or median of all the facilities’ occupancy rates based on annual DOC in a county.

## **Application of the Methodology**

Table 11A shows the inventory data and Table 11B shows the patient, population, and bed use data that form the basis for the calculations discussed in the following steps. Table 11C shows projected bed utilization, bed surpluses/deficits, and occupancy rates that are used to determine bed needs.

### **Step 1:** Calculate the planning inventory for each facility and county (*Table 11A*).

- a. Add the number of licensed beds in each nursing home facility (*Column D*), hospital (*Column E*) and adult care home (*Column F*) to calculate the total number of licensed beds (*Column G*).

b. Adjust this result by adding or subtracting, as appropriate, any CON-approved beds and beds with a CON to be relocated (*Columns H and I*). Then adjust this result by the number of beds available from need determinations in the SMFP pending review or appeal (*Column J*) to calculate the total planning inventory (*Column K*).

c. Sum each of these calculations across all facilities in a county to obtain county totals (*Column K*).

**Step 2:** Calculate the projected county bed use rates (*Table 11B*).

- a. For each of the five most recent reporting years and for each county, divide the number of patients (*Column B*) by the population (*Column C*).
- b. Multiply the result by 1,000 to calculate the bed use rate per 1,000 population (*Column D*).
- c. Calculate the AACR in bed use for the five most recent reporting years for each county (*Column E*).
- d. If the result of Step 2.c is at least 0.5 standard deviations above the statewide AACR, then enter 0.5 standard deviations above the statewide AACR; otherwise, enter the result of Step 2.c into Column F, the Selected Change Rate.
- e. Multiply the result of Step 2.d by the bed use rate for the reporting year (*Column D, last sub-column*) and then multiply by three; add the product to the bed use rate for the reporting year to get the Bed Rate per 1,000 (*Column G*).

**Step 3:** Multiply the county bed use rates (*Table 11B, Column G* and *Table 11C, Column B*) by each county's corresponding projected civilian population in thousands for the projection year (*Table 11C, Column C*) to calculate the projected bed utilization (*Column D*).

**Step 4:** For each county, divide the projected bed utilization by a 95% vacancy factor (*Table 11C, Column E*).

**Step 5:** For each county, calculate the planning inventory (*Table 11A, Column K*) by adjusting the number of licensed beds (*Table 11A, Column G*) for: license pending beds (*total of Table 11A, Columns H and I*); and beds available in the SMFP pending review or appeal (*Table 11A, Column J*).

**Step 6:** For each county, subtract the projected bed utilization derived in Step 2 (*Column E*) from the planning inventory derived in Step 5 (*Table 11A, Column K and Table 11C, Column F*). The result is the service area's surplus or deficit (*Table 11C, Column G*). Positive numbers are surpluses and negative numbers are deficits.

**Step 7:** Calculate each county's bed occupancy rate (*Column I*) by calculating occupancy according to the following four methods and then select the highest of the four rates:

- a. compute the average occupancy rate using the one-day census for all facilities in the service area;
- b. compute the median occupancy rate using the one-day census for all facilities in the service area;
- c. compute the average occupancy rate using the annual days of care for all facilities in the service area; and

- d. compute the median occupancy rate using the annual days of care for all facilities in the service area.

**Step 8:** Calculate need determination for each county (*Table 11C*).

- a. For any county with a deficit, calculate the county's deficit index by dividing the deficit (*Column G*) by the result of Step 4 (*Column E*).
- b. If any county's deficit index (*Column H*) is from 10% up to, but not including, 50%, and the adjusted occupancy of licensed beds in the county (*Column I*) is 80% or greater, the need determination is the amount of the deficit rounded to the nearest 10 (*Column J*).
- c. If any county's deficit index is 50% or more, the need determination is the amount of the deficit rounded to the nearest 10 (*Column J*).
- d. For purposes of rounding need determinations, numbers greater than 10 and ending in one to four, round to the next lower number divisible by 10, and numbers ending in five to nine, round to the next higher number divisible by 10.

For reference, Table 11E lists adult care beds developed as part of a qualified CCRC. Also, for reference, Table 11F lists the nursing homes with six or fewer adult care home beds.

Unless otherwise specified by the methodology, calculations do not use rounded values. However, fractional values are rounded automatically when displayed.

**Table 11D: Adult Care Home Bed Need Determination\***

Service Area	HSA	Adult Care Home Bed Need Determination	Certificate of Need Application Deadline**	Certificate of Need Beginning Review Date
Hoke	V	130	February 15, 2024	March 1, 2024
Swain	I	50	July 15, 2024	August 1, 2024
It is determined that there is no need anywhere else in the state and no other reviews are scheduled.				

\* Any person can apply for a CON to meet the need, not just the health service facility or facilities that generated the need.

\*\* Application deadlines are absolute, pursuant to 10A NCAC 14C.0202(2). The filing deadline is 5:00 p.m. on the application deadline date.
