V 118	<p>Continued From page 7</p> <p>happens. Residential Coordinator will review all relevant policies at the upcoming staff meeting and will be responsible for monitoring floor staff's competency in medication administration and documentation. Residential Coordinator will review the MARs at least once a week to ensure they are accurate and up to date and will keep a log with the time and date of each review and alert the QI Director if there are any issues. QI Director will meet with the Residential Coordinator monthly to review MARs and logs."</p> <p>Due to multiple staff not following procedures to prevent delays in obtaining refills or newly prescribed medications, Client #1 was not administered 12 doses of Mupirocin; Client #2 was not administered 10 doses of Primodone or 6 doses of Strattera. Staff falsely documented administering Client # 1's topical ointment on 2/29/18. Because staff failed to correctly document the MAR for Client #3 it cannot be determined if he received Intuniv, Aptensio, Trazodone or Zyrtec as ordered for 2 days. In addition, Client #3 ran out of Intuniv supply 2 days prior to the discontinue order. The outside RN who was contracted to audit medication issues missed multiple concerns in her review. Staff also failed to immediately notify a pharmacist/physician when an ordered medication was not administered. As a result, clients with medical and psychiatric conditions may not have received their medications as prescribed which was detrimental to their health safety and welfare. This deficiency constitutes an Imposed Type B rule violation. An administrative penalty of \$200.00 per day is imposed for failure to correct within 45 days.</p>	V 118
