Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

E 020	Continued From page 1 Therapy and Speech-Language Pathology Services; and ESRD Facilities], which includes staff responsibilities, and needs of the patients. * [For RHCs/FQHCs at §491.12(b)(1):] Safe evacuation from the RHC/FQHC, which includes appropriate placement of exit signs; staff responsibilities and needs of the patients. This STANDARD is not met as evidenced by: Based on record review and interviews with staff, the facility failed to develop specific policies and procedures to address emergency preparedness in case of an emergency evacuation of the clients in the facility. The findings include: Management staff failed to develop a comprehensive plan to safely evacuate should an emergency necessitate leaving the facility. Review on 4/25/18 of the facility's emergency management plan revealed if necessary staff would implement, "General evacuation procedures within the facility doing head counts and ensuring all exits are clearly marked." There was no additional information regarding under what conditions direct care staff would consider leaving the facility or what locations to which they would consider evacuating. Interview on 4/24/18 with management staff revealed there was no list or contract with an alternate location that could be utilized as a shelter for the facility's clients if evacuation from the facility became necessary. E 032	Continued From page 2 emergency preparedness communication plan that complies with Federal, State and local laws and must be reviewed and updated at least annually.] The communication plan must include all of the following: (3) Primary and alternate means for communicating with the following: (i) [Facility] staff. (ii) Federal, State, tribal, regional, and local emergency management agencies. *[For ICF/IIDs at §483.475(c):] (3) Primary and alternate means for communicating with the ICF/IID's staff, Federal, State, tribal, regional, and local emergency management agencies. This STANDARD is not met as evidenced by: Based on record review and interviews, the facility failed to develop an alternate means for communicating with facility staff, regional and local governments during an emergency. The finding is: Management staff failed to develop an alternate means of communicating with facility staff, guardians and local emergency management officials in the event of an emergency. Review of the facility's emergency management plan revealed there were contact numbers for local agencies and facility staff listed in the plan. Further review revealed however, there was no alternate means of contacting management or direct care staff if primary communications were unavailable. During observations in the facility on 4/24/18 direct care staff indicated the facility had walkie talkies to utilize if needed.	E 032	E 032 Facility will ensure staff will be trained on how to use walkie talkie, and were to locate batteries, and also make sure the batteries available at all times.
