W 190	<p>STAFF TRAINING PROGRAM CFR(s): 483.430(e)(2)</p> <p>For employees who work with clients, training must focus on skills and competencies directed toward clients' developmental needs.</p> <p>This STANDARD is not met as evidenced by: Based on observation, record verification and interview the facility failed to assure staff was adequately trained with regard to the use of a gait belt for 1 sampled client (#5). The finding is:</p> <p>Observations on 6/11/18 at the vocational program revealed client #5 to ambulate with a rolling walker while wearing a gait belt. Client #5 was observed to ambulate while staff held the client from the back of his pants, at various times and by different staff, using the client's belt loop of his pants. Observation on 6/11 and 6/12/18 in the group home revealed client #5 to ambulate with a walker and a gait belt with staff assistance while staff supported client #5 by holding the back of his gait belt.</p> <p>A review of client #5's record on 6/12/18 revealed ambulation procedure guidelines dated 2/26/18 indicating when walking with a posterior rolling walker, guide with the gait belt. Interview with the qualified intellectual disabilities professional (QIDP) on 6/12/18 verified client #5 should be supported by staff when utilizing his walker with staff holding the client's gait belt as indicated in ambulation procedures implemented by the physical therapist. Further interview with the QIDP verified at no time should client #5 be held by the belt loop of his pants to support ambulation.</p>	W 190	<p>Staff at ADA day program will be in serviced and retrained in proper gait belt use when walking a client.</p> <p>Prevention - When clients arrive at ADA who use gait belts staff will ensure that the gait belt is present and that the belt is being worn properly and securely.</p> <p>Monitoring - This will be monitored by the ADA staff, Coordinator, and/or Assistant Coordinator on a daily basis as clients arrive at the day program and ambulation procedures are followed. The Residential Coordinator will monitor by random observations.</p>	6/29/2018

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

W 249	<p>Continued From page 1 CFR(s): 483.440(d)(1)</p> <p>As soon as the interdisciplinary team has formulated a client's individual program plan, each client must receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan.</p> <p>This STANDARD is not met as evidenced by: Based on observations, record review and staff interviews, the facility failed to ensure an objective contained in the individual habilitation plan (IHP) was implemented as prescribed for 1 of 4 sampled clients (#5) related to communication. The finding is:</p> <p>Observations in the group home on 6/11/18 at 6:05 PM revealed client #5 to participate in his evening meal with a place setting that included a high sided divided dish, shirt protector, built up spoon and a cup with a lid and straw. Observation on 6/12/18 at 8:38 AM revealed client #5 to sit at the dining table for his breakfast meal with a place setting that included high sided divided dish, shirt protector, built up spoon and a cup with a lid and straw. It should be noted a voice output switch was not observed to be included with client #5's meal place setting during dinner on 6/11 or breakfast on 6/12/18.</p> <p>Review of the record for client #5 on 6/12/18 revealed an expressive communication objective to request more drink. Review of the communication objective revealed client #5 will</p>	W 249	<p>Staff will be in serviced and retrained as to the use of communication devices during meals. Prevention - A checklist of all adaptive and communication devices for mealtimes will be placed in the dining room to be available for staff to reference. Monitoring will occur daily by the Supervisor with random observations by the House Manager and Residential Coordinator.</p>	6/29/18

W 249	Continued From page 2 increase his expressive language skills by requesting more to drink at dinner time. Client #5 will push a single message voice output switch when asked "Do you want more to drink?" in 25% of trials. Interview with the qualified intellectual disabilities professional (QIDP) on 6/12/18 verified client #5's expressive communication objective remains current and was implemented in 1/2018. Continued interview with the QIDP verified client #5 should have a voice output switch with his place setting for all meals.	W 249			
W 436	SPACE AND EQUIPMENT CFR(s): 483.470(g)(2) The facility must furnish, maintain in good repair, and teach clients to use and to make informed choices about the use of dentures, eyeglasses, hearing and other communications aids, braces, and other devices identified by the interdisciplinary team as needed by the client. This STANDARD is not met as evidenced by: Based on observation, record review and interview, the facility failed to assure a recommended mobility trainer was furnished for 1 of 3 sampled clients (#9). The finding is: Observations in the group home throughout the 6/11-12/18 survey revealed client #9 to be in a wheelchair. No other equipment related to client ambulation was observed being used, or located in the home. Review of client #9's record on 6/12/18 revealed	W 436	Physical Therapist and Program Director requested the quote from the vendor. The Vendor sent the quote to the Program Director for approval. The quote was approved and sent back to the vendor so the item could be ordered. Program Director and Program Coordinator have confirmed the item in question has been ordered. Prevention - Residential Coordinator and Program Director will be included in all correspondences from Consultants to the vendor to ensure all consumer equipment needs are acquired in a timely manner. Residential Coordinator will monitor all electronic communications from vendor.	6/12/18

W 436	<p>Continued From page 3</p> <p>a habilitation plan (HP) dated 1/4/18. Review of the HP revealed a physical therapy (PT) section which indicated the client could propel a Mulholland gait trainer backwards without difficulty and forward with some effort. Continued review of the HP revealed a PT evaluation completed 1/2/18 which indicated the client was involved with a trial use of a Pacer Gait trainer at the time of the evaluation. The "Needs" section of the PT evaluation indicated consultation with a third party regarding evaluation for a gait trainer.</p> <p>Further review of the client's record revealed PT notes. The notes indicated a supplier for the gait trainer was contacted, and a message left on 4/2/18 regarding the status of a Rifton Pacer mobility trainer. Another note dated 5/16/18 indicated the PT had not heard back from the supplier/provider and would be contacted again.</p> <p>Interview with the qualified intellectual disabilities professional (QIDP) on 6/12/18 revealed the client had been without a mobility trainer for at least a year due to the fact she had outgrown the Mulholland gait trainer. The QIDP contacted the PT during the survey and then indicated the PT reported the new trainer was available at the supplier and once paid for, it could be delivered to the facility. Therefore, the facility failed to show evidence of sufficient effort to replace the recommended mobility trainer in a timely manner.</p>	W 436
