E 032	Primary/Alternate Means for Communication CFR(s): 483.475(c)(3) [(c) The [facility] must develop and maintain an emergency preparedness communication plan that complies with Federal, State and local laws and must be reviewed and updated at least annually.] The communication plan must include all of the following: (3) Primary and alternate means for communicating with the following: (i) [Facility] staff. (ii) Federal, State, tribal, regional, and local emergency management agencies. *[For ICF/IIDs at §483.475(c):] (3) Primary and alternate means for communicating with the ICF/IID's staff, Federal, State, tribal, regional, and local emergency management agencies. This STANDARD is not met as evidenced by: Based on documentation and interviews, the facility failed to develop an alternate means for communicating with facility staff, regional and local governments during an emergency. The finding is: The facility failed to develop an alternate means for communicating with staff, regional and local governments during an emergency. Review on 7/20/18 of the facility's emergency preparedness (EP) did not include information regarding alternate means of communication. During an interview on 7/20/18, qualified intellectual disabilities professional (QIDP) revealed if the land line phone and cell service were down they were not aware of another way to communicate during an emergency.	E 032	This deficiency will be corrected by the following actions: A. CANC-east will develop an implement alternate means for communication . B. The manual will contain information on the alternate means of communication for the staff, regional and local government during an emergency . C. Residential manager will monitor two times a month D. QIDP will monitor one time a month. DHSR - Mental Health AUG 10 2018 Lic. & Cert. Section	9-17-18

Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

E 036	Continued From page 2 This STANDARD is not met as evidenced by: Based on document review and interviews, the facility failed to develop an emergency preparedness (EP) training and testing program. The finding is: The facility failed to develop an EP training and testing program. Review on 7/20/18 of the facility's EP manual, it did not include any information on training and/or testing for the staff. During interviews on 7/19/18, a staff revealed they had received some training they were instructed to go the high school or the Salvation Army, if it occurred during the day time. The staff was unable to indicate where the nearest Salvation Army was and if it had any way of housing anyone during an emergency. However, they did not know where to go if the emergency occurred during the night time or mid morning hours. The staff further revealed they were not tested on this information nor any other emergency preparedness plans. During interviews on 7/19/18, a staff revealed they had received some training and were instructed to go the high school or the nearest Fire Station. The staff stated they had practiced a natural disaster drill and evacuated to a nearby high school. However, this training information and documentation could not be confirmed nor located by management. During an interview on 7/20/18, the qualified intellectual disabilities professional (QIDP) confirmed they had no documentation of staff training or testing regarding the emergency	E 036	Refer to page 2	9-17-18

W 249	Continued From page 8 objectives identified in the individual program plan. This STANDARD is not met as evidenced by: Based on observation, interviews and record reviews, the facility failed to assure each client received a continuous active treatment plan consisting of needed interventions and services identified in the individual program plan (IPP) in the areas of diet. This affected 1 of 3 audit client (#3). The finding is: Client #3's diet was not followed as written. During observation of the dinner meal in the home on 7/19/18, client #3 ate a Beef patty (frozen processed), Squash (regular canned), Lima Beans (regular canned), Whole Wheat bread, fruit cup (regular prepackaged), then drank water and juice (regular concentrated). Client #3 had seconds of Lima Beans and two glasses of juice. Client #3 obtained his food from the same serving dishes as his housemates. Client #3 was only encouraged to set the table. Client #3 was not to have any of his meal altered and none of his fluids were measured nor his fluid intake documented after his consumption. Review on 7/20/18 of client #3's physician's orders dated 6/1/18 revealed, "Diet: "HEART HEALTHY, 2gm SODIUM, LIMIT FLUID INTAKE TO 48 - 64oz PER DAY." During an interview on 7/20/18 the dietician confirmed client #3's diet should look different than the other clients' in the home. Client #3 is on 2 grams sodium diet. His diet is a low sodium	W 249	This deficiency will be corrected by the following actions: A. Clinical Supervisor and/or Nutritionist will in-service and train support staff across all settings regarding meal preparation (including proper diet consistency) and following the diets as written. B. Clinical supervisor and/or Nutritionist will review all diets and physicians orders C. Home Supervisor will monitor weekly adaptive equipment and diet consistency across all settings D. Clinical Supervisor will monitor bi-monthly.	9-17-18
