There was no physician's order for the Polyethylene Glycol to be administered PRN (as needed).</p> <p>Review on 9/21/18 of the July 2018-September 2018 MARs for Client #2 revealed: -Polyethylene Glycol was not administered daily. The medication was indicated to be a PRN medication.</p> <p>Interviews on 9/21/18 and 9/24/18 with the AFL Provider revealed: -Client #2 had not needed the Miralax recently. They were now better able to manage her constipation with diet and water consumption. She monitored Client #2 for bowel movements. Client #2 would indicate to her if her stomach hurt. Client #2 had more gas issues now as opposed to constipation and took a PRN medication for that. -She did not realize that the physician's order failed to indicate that it was a PRN but would get that clarified with the physician. -She had spoken to Client #1's physician who indicated to her that the noon dose of the Buspirone could be given prior to or after her time at the day program as long as she was getting 3 daily. -She indicated that she administered the AM and noon dose of the Buspirone for Client #1 at</p>	V 118
