W 249	<p><b>PROGRAM IMPLEMENTATION</b> CFR(s): 483.440(d)(1)</p> <p>As soon as the interdisciplinary team has formulated a client's individual program plan, each client must receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan.</p> <p>This STANDARD is not met as evidenced by: Based on observation, record review and interview, the team failed to ensure a communication objective was implemented with sufficient frequency to support the achievement of the objective for 1 of 3 sampled clients (#4). The finding is:</p> <p>Observations in the group home on 9/5/18 from 4:05 PM to 5:00 PM revealed client #4 to be non-verbal and communicating with head nods and gestures. Staff were observed to prompt client #4 verbally, with gestures, and use of sign language. Client #4's activities during this period of time included going to the bathroom, assisting with preparing and having a snack, receiving medications, playing a card game and going outside to get on the van.</p> <p>Continued observations on 9/6/18 from 6:20 AM to 8:25 AM revealed client #4's activities to include going to the bathroom, receiving medications, assisting with and having breakfast, brushing teeth, taking out trash, and getting on the van. At 7:45 AM, a staff member asked the client if he was finished with breakfast. Client #4</p>	W 249	<p>Staff will be instructed about communication program and ensure it's being run as written. Managers will complete observations to ensure it's being run.</p>	11/5/18

Any deficiency statement ending with an asterisk (\*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

W 249	<p>Continued From page 1</p> <p>did not respond, and the staff member demonstrated the sign for "finished" and prompted the client to demonstrate the sign. This was the only time during all observations that client #4 was prompted to use a manual sign.</p> <p>Review of the record for client #4 on 9/6/18 revealed an individual support plan (ISP) dated 8/9/18. Review of the ISP revealed a current communication objective for the client to use sign language to express wants and needs with 80 percent accuracy for three consecutive months. Further review of the objective revealed the signs included: bathroom; eat; drink; outside; music; more; finished; yes and no. The directive steps for the objective indicated the client should be given the opportunity to express desires using sign language. If the client did not respond with sign language, then staff should model the sign in attempt to get the client to repeat the sign. The steps for the objective also indicated it should be run several time a day.</p> <p>Interview with the qualified intellectual disabilities professional on 9/6/18 confirmed staff should have completed the communication program as prescribed during multiple opportunities to assure the achievement of the objective.</p>	W 249	See pg 1
