V 118	<p>Continued From page 2</p> <p>treatment program where Client #1 attended revealed:</p> <ul style="list-style-type: none"> -Client #1 was now involved in community networking twice weekly. -Client #1 had attended the day program for a long time. -Client #1 always came to the program well groomed and clean. -There were no concerns regarding her care. <p>Interviews on 10/8/18 and 10/11/18 with the AFL Providers revealed:</p> <ul style="list-style-type: none"> -The Keflex was given to Client #1 when she was scratching a lot due to eczema. She indicated that the doctor ordered it as a precautionary measure to prevent any infection. Client #1 never developed an infection. -She stated that the Keflex was documented incorrectly and given before her day program, when she got home and then at night. -The ketoconazole shampoo is the only shampoo she used for Client #1. She used it 1 time per week and it worked well for Client #1. She did not need to use it 3 times weekly but had failed to have the order changed with the physician. -There had been many changes with the creams used for Client #1 which most likely led to the errors in documentation. -The missed documentation for the Tacrolimus ointment was an oversight. -The eczema flare up for Client #1 had greatly improved. -The pharmacy provided the MARs and were slow to remove medications that were no longer used which also led to confusion. She indicated that she would work with the pharmacy and doctor to resolve the errors. <p>Interview on 10/11/18 with the Qualified Professional revealed:</p>	V 118
