E 007	EP Program Patient Population CFR(s): 483.475(a)(3) [(a) Emergency Plan. The [facility] must develop and maintain an emergency preparedness plan that must be reviewed, and updated at least annually. The plan must do the following:] (3) Address patient/client population, including, but not limited to, persons at-risk; the type of services the [facility] has the ability to provide in an emergency; and continuity of operations, including delegations of authority and succession plans.** *Note: ["Persons at risk" does not apply to: ASC, hospice, PACE, HHA, CORF, CMCH, RHC, FQHC, or ESRD facilities.] This STANDARD is not met as evidenced by: Based on review of facility records and interviews, the facility failed to assure the Emergency Plan (EP) contained specific information relative to 5 of 5 clients residing in the home (#1, #2, #3, #4 and #5). The finding is: Review of the facility's emergency plan, conducted on 11/26/18, revealed no client specific information was included in the plan. Further review of the emergency plan on 11/27/18, verified by interview with the qualified intellectual disabilities professional and staff in the home, revealed the facility had not included specific information in the EP regarding client needs, preferences, means of communication, behavioral information or medical support needed which would enable persons unfamiliar with each individual client to provide care during an emergency. Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

W 351	Continued From page 1 CFR(s): 483.460(f)(1) Comprehensive dental diagnostic services include a complete extraoral and intraoral examination, using all diagnostic aids necessary to properly evaluate the client's condition not later than one month after admission to the facility (unless the examination was completed within twelve months before admission). This STANDARD is not met as evidenced by: Based on record review and interview, the facility failed to assure a complete dental examination was completed within one month of admission for 1 of 3 sampled clients (#1). The finding is: Review of the record for client #1, conducted on 11/27/18, revealed client #1 was admitted to the facility on 12/21/17. Further review of the record for client #1 revealed a person centered plan (PCP) dated 1/4/18. No documentation of an oral/dental examination was included in the 1/4/18 PCP. Interview with the qualified intellectual disabilities professional on 11/27/18 revealed client #1 is edentulous and has not been seen by a dentist or been scheduled for a dental examination since admission to the facility over 11 months ago. W 436	Continued From page 2 interdisciplinary team as needed by the client. This STANDARD is not met as evidenced by: Based on observation and interview, the facility failed to maintain a wheelchair in good repair for 1 of 3 sampled clients (#5). The finding is: Observations conducted in the group home on 11/26/18 revealed client #5 sat in a geri-chair during leisure activities and while eating his supper meal. Further observations conducted on the morning of 11/27/18 revealed client #5 sat in his wheelchair while eating his breakfast and during his morning routine. Further observations of client #5's wheelchair revealed the right armrest had a rough surface due to numerous cracks in the cover as well as a split along the edge of the pad exposing several inches of the foam padding which was protruding from underneath. Interview conducted with the qualified intellectual disabilities professional and staff in the home revealed the armrest on client #5's wheelchair had been cracked and split for an undetermined length of time and that the process to purchase a new wheelchair for client #5 had been initiated, however, no date for when a new wheelchair or repair to the current armrest would be accomplished was available currently.
