

MHL-012-118 Our Place Group Home date of survey 12/07/2018

V131 Health Care Personnel Registry

POI: Administrator will complete HCPR before an employee is hired.

Note: see attached HCPR for Staff #1. Completed on 3/22/2010. Staff 1 was originally hired for housekeeping. She never had contact with any clients until after the HCPR and her relief staff training was complete on 3-23-10. So, we were in compliance.

I'm sorry I didn't make myself clear during the audit; I was preoccupied with the North Carolina State of Emergency that we were under. We were trying to prepare for massive power-outages and get all necessary supplies in order.

V774 Administrator will have a bedside table for each client before 2-5-19.

Note: Our Place Group Home received our license on 03-15-10. We opted to get full sized beds for the clients instead of twin size beds. We were able to purchase full size bookcase head boards for all the clients. This decision gave the client more space for storage rather than a standard bedside table. I called the state and talked to someone in licensing, and I received a verbal approval. We have had at least 15 inspections from the state, LME and county over the years. Everyone was fine with the bookcase headboards until now.

If you have any questions, please feel to contact me.
