W 130	Continued From page 1 have been closed to ensure the privacy for client #3 during medication administration. Further interview revealed client #3 "probably does not want his peers to know he takes medications to help control his behavior." 2. Client #5 was not afforded privacy during his blood pressure checks. During morning medication administration observations in the home on 12/4/18 at 7:44am, the facility's nurse checked client #5's blood pressure in the living room of the home. While client #5's blood pressure was being checked there were other clients within close proximity. At no time was client #5 afforded the opportunity to have his blood pressure checked behind closed doors. Review on 12/4/18 of client #5's ABI dated 5/4/18 indicated the has total independence in closing doors for privacy. During an interview on 12/4/18, the facility's nurse confirmed client #5's blood pressure should have been checked behind closed doors for his privacy.	W 130			
W 249	PROGRAM IMPLEMENTATION CFR(s): 483.440(d)(1) As soon as the interdisciplinary team has formulated a client's individual program plan, each client must receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan. W 249	Continued From page 2 This STANDARD is not met as evidenced by: Based on observation, interviews and record reviews, the facility failed to ensure each client received a continuous active treatment plan consisting of needed interventions and services identified in the individual program plan (IPP) in the areas of dining equipment, meal preparation and behavior. This affected 4 of 5 audit clients (#2, #3, #4, #6). The findings are: 1. Clients #2, #3, #4 and #6 were not given the opportunity to use a knife at dinner. a. During dinner observations in the home on 12/3/18, client #2 consumed a meal of the following: macaroni with cheese, beets, broccoli and dinner roll. Further observations revealed the beets were within 2 inches and the dinner roll was consumed whole. At no time was client #2 given the opportunity to cut his food. Additional observations revealed client #2 did not have a knife at his place setting. Review on 12/3/18 of client #2's IPP dated 12/19/17 stated, "I require staff assistance with cutting foods into bite size pieces of 3/4" to 1"...." Review on 12/4/18 of client #2's adaptive behavior inventory (ABI) dated 10/8/18 revealed he does have to ability to use a knife for cutting. During an interview on 12/4/18, the habilitation coordinator stated she never thought client #2 could use a knife because he is "blind." During an interview on 12/4/18, the qualified	W 249	W 249 The facility will ensure that each client receives a continuous active treatment program consisting of needed interventions and services identified in the IPP in the areas of dining equipment, meal preparation and behavior. All staff will be in-serviced by the Nurse, QP, and Habilitation Coordinator on mealtime procedures for each client, based upon his strengths and weaknesses. This will include utilization of assistance with using a knife during mealtime to ensure food is cut to appropriate bite-size pieces. In-service will also address need to provide all individuals with a full set of flatware at each meal, including a knife. In-service will also include opportunities for clients to assist with meal preparation either independently or with prompting/assistance from staff. This in-service will also address active treatment in the area of laundry. All clients in the facility should participate in completing their laundry chores. Assistance should be provided by staff as needed and as indicated in the IPP. Strengths and needs of each client in this area will be reviewed during staff in-service. The staff will also be in-serviced on the need to prompt as needed to utilize a napkin to wipe their mouth as needed throughout the day. Mealtime in-service will include need for staff to supervise clients to ensure they are not attempting to eat food from table, floor, etc. Prompts/assistance will be provided as needed to clients to ensure they are only eating food served on a plate or dish. Ongoing compliance with this regulation will be ensured through monitoring by the QP and Habilitation Coordinator during QA/QI inspections. Findings will be documented in the Inspection App a minimum of 3 times monthly.	2-1-2019
