Any deficiency statement ending with an asterisk (*) denotes a deficiency which the institution may be excused from correcting providing it is determined that other safeguards provide sufficient protection to the patients. (See instructions.) Except for nursing homes, the findings stated above are disclosable 90 days following the date of survey whether or not a plan of correction is provided. For nursing homes, the above findings and plans of correction are disclosable 14 days following the date these documents are made available to the facility. If deficiencies are cited, an approved plan of correction is requisite to continued program participation.

W 189	Continued From page 1 floor the nurse is to be called. Further interview revealed the nurse will inform the staff to use the Drug Buster; which dissolves the pill and then a medication disposal form is filled out, signed/dated and reviewed.	W 189		
W 249	PROGRAM IMPLEMENTATION CFR(s): 483.440(d)(1) As soon as the interdisciplinary team has formulated a client's individual program plan, each client must receive a continuous active treatment program consisting of needed interventions and services in sufficient number and frequency to support the achievement of the objectives identified in the individual program plan. This STANDARD is not met as evidenced by: Based on observation, interviews and record reviews, the facility failed to ensure each client received a continuous active treatment plan consisting of needed interventions and services identified in the individual program plan (IPP) in the areas of self help skills and medication administration. This affected 3 of 5 audit clients (#4, #5, #6). The findings are: 1. Clients #4 and #5 were not prompted to use a napkin during meals. a. During dinner observations in the home on 1/14/19, client #4 was observed wiping his mouth on the sleeve of his shirt on two separate occasions. When client #4 was finished with dinner and stood up he had particles of food on his chin/mouth area. At no time was client #4	W 249	The following deficiency will be corrected according to the following: A. All consumer assessments will be reviewed to ensure that recommendations involving self-help skills, medication administration, and the proper use of adaptive equipment are accurate and appropriate. B. Staff will be trained on client integration as it relates to the above. C. All staff will be trained on Active Treatment expectations. This training will include company issued curriculum and testing. D. An adaptive equipment inventory will be completed for each consumer to ensure that all adaptive equipment is available at all times, and across all settings. An adaptive equipment inventory will also be maintained at the home. E. RM and CS will monitor and document the above areas weekly.	3/15/19

W 249	Continued From page 3 technician revealed he spoon fed client #6 his medications because he wanted to make sure he "got all of the meds." The medication technician stated, "Nobody told me to do that; it's my method." Review on 1/15/19 client #6's community/home life assessment dated 12/7/18 revealed he is independent in using a spoon to fed himself. During an interview on 1/14/19, the home manager (HM) confirmed client #6 should have fed himself his own medications.	W 249	Please see W 249 on page 2.	
W 382	DRUG STORAGE AND RECORDKEEPING CFR(s): 483.460(l)(2) The facility must keep all drugs and biologicals locked except when being prepared for administration. This STANDARD is not met as evidenced by: Based on observations and interviews, the facility failed to ensure all medications remained locked. The finding is: The medications were left unsecured and unsupervised. During medication administration observations in the home on 1/14/19 at 4:14pm, the medication technician exited the medication area to obtain a chair for a client. Further observations revealed while the medication technician left the area, a container which contained medication bubble packs of pills was left out on the desk. Additional observations revealed the surveyor was left alone with the medications in full view.	W 382	Please see citation W 189 on page 1.

W 382	Continued From page 4 During an interview on 1/14/19, the medication technician stated, "I Knew not to leave the medications unattended, it was an oversight." Further interview revealed the medication technician had been trained not to leave medication unattended. Review on 1/14/19 of medication administration procedures (no date) revealed, "At no point in time during administration should medications be left unattended!" During an interview on 1/14/19, the home manager (HM) confirmed at no time are medications left out unattended.	W 382	Please see citation W 189 on page 1.	
W 383	DRUG STORAGE AND RECORDKEEPING CFR(s): 483.460(l)(2) Only authorized persons may have access to the keys to the drug storage area. This STANDARD is not met as evidenced by: Based on observations, record review and interviews, the facility failed to ensure only authorized persons have access to keys to the drug storage area. The finding is: Keys to the facility's drug storage area were accessible to anyone in the home. During medications observations in the home on 1/14/19 at 4:18pm, the medication technician left the medication area to ask the home manager (HM) a question. Further observations revealed the keys to the medication closet was left out on the table. Additional observations revealed the	W 383	Please see citation W 189 on page 1.
