Requested letter regarding an individual's placement

In late November, IDD Care Coordination at Partners Behavioral Health Management was made aware of a potential health and safety issue regarding an individual with Innovations Waiver funding residing in an AFL setting with RHA. By December 1st, 2018 the individual was removed from the AFL setting.

Proper steps were taken to ensure the individual's health and safety. One step included the decision by the team (RHA as the Provider, Phoenix Counseling as Guardian of the person) to have the individual removed from the AFL setting and per the guardian's request, moved to an available a bed in one of RHA's other facilities which had no other individuals being served there at that time.

A service request was submitted to change the current services from Innovations Residential Supports AFL to Innovations Residential Supports (non-AFL) as this was a provider run facility. The individual continued to require Residential Supports services to meet identified needs and ensure health and safety. Movement to this open bed and arrangements made for 24 hour/day staffing were done on a temporary and emergent basis until a more permanent and appropriate Residential Supports setting could be located and transitioned to. The temporary placement is equivalent to an unlicensed Residential Supports placement for one.

By December 12th the individual was being referred for a group home opening within RHA. The transition to the new group home took place over the following days and the individual moved into the new placement on January 2nd, 2019.

Respectfully,
