V 117	Continued From page 2 Interview on 1/23/19 with Client #1's Guardian revealed: - "I arrived at the group home (12/21/18) to pick up [Client #1] for a home visit over the holiday. - I had called ahead and spoke with [the Team Lead] that I would be there Saturday (12/22/18). But we came that Friday before (12/21/18). - That doesn't excuse the group home from doing their job and being prepared just the same. - [Staff #4] seemed like she wasn't too sure how to go about getting the medications packed so I could bring them with me. - [Staff #4] called another staff, I think [the Lead Staff]. It seemed a while before anyone called her back. I believe the Lead Staff was out of town. - I was in a hurry and I helped her (Staff #4) put the pills in baggies. There wasn't any direction of any kind in the baggies. - I have never signed a form with the medication listed. They (staff) just put the medications in baggies. I basically know what to give him. - I noticed that again the clonazepam medication wasn't going to be enough medications for the home visit. This happened in November (11/23/18) also. - Aren't the staff supposed to be trained, and able to handle stuff that comes up? - I take my [Client #1] home for a visit and I don't have enough meds (Clonazepam) and they call child protection on me because they (the staff) didn't get him to doctor visits to get his medication in the first place." Interview on 1/31/19 with Staff #4 revealed: - "I didn't know the [Guardian] was coming. - I called [Staff #1] no one answered. Then I called [the Lead Staff]. - The [Guardian] helped me pop the pills out of the packs and into baggies. He (the Guardian] was in a hurry.	V 117

V 117	Continued From page 3 - There was no form to fill out for the medications. (Staff #4 was not aware of the 'Independent Living Group Home Therapeutic - Leave Medication Form') - I took out each pill for each day he (Client#1) was going to be on his home visit. - I didn't notice the Clonazepam was out. - If we are out of Clonazepam we are to call [the Lead Staff]." Interview on 1/24/19 with the Lead Staff revealed: - "I talked to the (Guardian) on Thursday (12/20/18). They (the Guardians) said they would leave Saturday (12/22/18) to pick up [Client #1] for a home visit. - They called Friday (12/21/18) and said they were an hour out (away from group home). I was out of town. - I called [Staff #4] and told her they were on their way. - I explained to her about the medications and how to pack them for a home visit. - If [the Guardian] came when he first said he was (12/22/18) we would have been ok." - Lead Staff was not aware of the Independent Living Group Home Therapeutic - Leave Medication Form. Interview on 2/1/19 with the Director revealed: - The facility can't tell a Guardian not to take their child. - That if the Guardian was aware Client #1 was out of medications (Clonazepam) then why would he have taken him. - There was a half bubble pack of Clonazepam in the medication closet for Client #1 and probably either didn't get seen by Staff #4 or fell behind the med container. - The Director reported she had recently developed the Independent Living Group Home	V 117

V 118	Continued From page 10 Client #1 was admitted 12/11/17 with the current diagnoses of Autism Spectrum Disorder, PTSD, ADHD combined Type, Encephalopathy, Moderate Mental Retardation and is currently age 15. Client #1 requires that the facility staff make sure he gets to all his monthly medical appointments for his Clonazepam (Clonazepam can only be dispensed for a thirty day supply). Doctor appointments were missed in October 2018 and again in December 2018 for a total of 5 days. Client #1 did not have the medication Clonazepam from 10/27/18 through 11/15/18 and again 12/22/18 through 1/7/19 for a total of 27 days. This resulted in at least two documented incidents of Client #1's jerking and tremoring movements/seizures. Interview with the prescribing Physician revealed that withdrawal from Clonazepam is immediate and would include tremors, sweeting, hypertension symptoms and possible seizures. Facility Staff failed to coordinate medication management appointments and failed to follow their policy on Seizure Management. Staff reported they had not been directed by the Director to seek medical care after Client #1's seizure type activity. This deficiency constitutes a Type A1 rule violation for serious neglect and must be corrected within 23 days. An administrative penalty of $2000.00 is imposed. If the violation is not corrected within 23 days, an additional administrative penalty of $500.00 per day will be imposed for each day the facility is out of compliance beyond the 23rd day.	V 118

V 291	Continued From page 13 about giving [client #1] medications here at school. - [Client #1] has been in school since September (9/1/18)." Finding 2 Below shows how there was no coordination of follow up medical care per facility policy for client #1's two documented seizures (11/4/18 & 12/23/18 and a seizure in the months of 9/18 or 10/18. The specific date of the seizure was unknown per staff.) Review on 1/24/19 of the facility's Policy on Seizure Management revealed: - "Should I call a doctor or emergency medical care?... Deciding whether or not to call for medical personnel depends-upon the person's seizure history, if the person has recurring seizures, if a person experiences a seizure that is not typical to him/her (i.e. lasts longer than usual, ...person has never had a seizure..,) seek emergency medical care immediately ..." Review on 1/31/19 of Client #1's incident report form dated 11/4/18 and signed by Staff #4 revealed: - "[Client #1's] day went pretty good. Around 2PM I noticed he was having jerking movements. I asked if he was alright he said he wasn't sure. - I proceeded to tell him to lay on the couch. Once he laid down the jerking movements began again for about 2-3 minutes. I continued to monitor him for the reminder of the shift. My TL (Team Lead) was notified." Review on 1/29/19 of Client #1's medical hospital record dated 12/23/18 revealed: - Admission date: 12/23/18 - (Client #1 was on a home visit from 12/21/18 through 1/1/19)	V 291

V 291	Continued From page 14 - Admission Type: urgent - 7:30 PM - Patient (Client #1) presents with: recurrent jerking motions, headaches and dizziness over the past month. There is no loss of consciousness during jerking motions - Patient History: chief complaint of dizziness. Patient was picked up from his group home on Friday (12/21/18). Since then patient has had intermittent episodes of jerking ..."I (attending Physician) did speak directly with [Team Lead] at the group home and she (Team Lead) states that the patient (Client #1) has had intermittent episodes of 'jerking over the last little while'". Patient is on seizure medications. - ED (Emergency Department) course: Patient needs to follow up with neurologist. Interview on 1/25/19 with Client #1's Physician revealed: -"If the medication (Clonazepam 0.5mg) is not administered, immediate withdrawal begins." - Would include tremors, sweating, hypertension symptoms, behavioral changes and possible seizures. -"I'm not aware of any previous mention of seizures by the group home staff." Interview on 1/31/19 with Staff #1 revealed: - "I worked with [Staff #4] when he (Client #1) had a seizure. I think [Staff #4] documented that one. This (Client #1's seizure) was maybe in September or October (9/2018 & 10/2018). I'm not sure. - I'm not sure of any doctor appointments. - We are supposed to call [Team Lead], then [the Director] and then [the Qualified Professionsl (QP)] when something like this happens (Client #1's jerking and tremor activity)." V 291	Continued From page 15 Interview on 1/31/19 with Staff #4 revealed: - "I have witnessed a seizure by [Client #1]. I didn't document any seizure. Don't remember the date of the seizure. - I don't know about any doctor appointment for it (the seizure)." Interview on 2/1/19 with Client #1's Guardian revealed: - "[Client #1] has had seizure type activity since possibly September or October (2018). - There has been no attempt to get a neurologist appointment. - [The QP] says he is going to get an appointment and has been saying this since November (11/2018). - We were told we had paperwork to fill out and that's where it ended. - They [the Director] and [QP] said something about the Medicaid being changed. They had a whole year to do that and just got it changed two weeks ago. (Changing Medicaid from home county to servicing county) so they could get a primary to make referral to neurologist. I'm still unsure of whether there is a referral for a neurologist appointment for [Client #1]. - No one there seems to know who is doing what half the time." Interview on 1/24/19 with the Lead Staff revealed: -"I'm not sure of the date of the seizure (Client #1's seizure in the facility). - I'm not aware of any other seizures. I think he had something happen over his home visit but we wouldn't have done an incident report on that. - I'm only aware of the one seizure. No we wouldn't track them. (Just the one seizure). - I don't think he went to hospital. I know he (Client #1) had a doctor appointment."	V 291

V 291	Continued From page 16 Interview on 2/1/19 with the Director revealed: - There has been problems with getting referral/appointments (neurologists) - Paperwork was needed by the Guardians. (*was unclear exactly what the delay had been) - Could have been more than the two seizures. Staff #1 and Staff #4 recalled the date of the seizure with Client #1 as being in either September or October of 2018. Staff #5 recalled the seizure she documented for 11/4/18 - The staff would have told the doctor at his appointments about any seizure activity. Finding 3 Below shows how there was no coordination of medication management and follow through with physician appointments for Client #1's Clonazepam Confirmation on 1/25/19 with the Physician and Pharmacist's for Client #1 of the facility's list of Client #1's Physician appointments (medication management clinic appointments) revealed the following medication appointments for Clonazepam: - 9/25/18 medication appointment and physician prescribed 30 day supply of Clonazepam 0.5, enough medication until 10/26/18. - 10/23/18 Client#1 is a no show for his medication appointment due to group home staff reported Client #1 had a home visit and rescheduled this appointment for 10/30/18. - 10/30/18 Client #1 is a no show for his medication appointment due to group home reported there was no transportation. - There is no medication appointment in October 2018 for the refill of Clonazepam. - Client #1 is without clonazepam from 10/27/18 through 11/15/18 and has a seizure 11/4/18 - 11/5/18 client #1 is a no show for his medication	V 291

V 291	Continued From page 17 appointment - 11/8/18 client #1 is a no show for his medication appointment - 11/14/18 medication appointment and Physician prescribed a 30 day supply of Clonazepam 0.5. Pharmacy dispensing documentation revealed a 17 day supply is filled 11/15/18 for enough medication until 12/2/18. - Then on 11/29/18 Pharmacy dispensing documentation revealed a 23 day supply is dispensed and is enough until 12/22/18 (this 30 day supply is split in to 2 dispensing episodes and is at the pharmacy's discretion) - 12/12/18 client #1 is a no show for his medication appointment - Client #1 is without clonazepam from 12/22/18 through 1/7/18 and has a seizure on 12/23/18 - 1/7/18 Physician prescribes a 24 day supply of clonazepam 0.5. Pharmacy dispensing documentation revealed dispenses 24 day supply and will last until 1/31/19. Interview on 2/1/19 with the Director revealed: - The month of December there was snow and bad weather that week (12/12/18). This deficiency is cross referenced into 10A NCAC 27G .0209 Medication Requirements (V118) for a Type A1 rule Violation and must be corrected within 23 days.	V 291
